The Night Field Donna Glee Williams, 2023-07-20 The incredible novel of one woman's quest to save her people and her world Now updated with all new material and a reading group discussion guide It comes without warning without explanation the sudden deadly Stink that shreds the life of the People poisoning the land sickening the trees killing babies in the womb It comes from above from the Plains of the Ancestors but what has caused this murderous curse It falls to Pyn Poi to find out The young tree woman must climb the unclimbable cliff to face the Ancestors on their own ground and demand an accounting for the Stink But the end of the climb is just the beginning of Pyn Poi's journey What she finds in the world above is an abomination beyond the most fearsome fire stories of the People and she must defeat it or face the extinction of everything she has ever loved Praise for **The Night Field** Simple beautiful prose Scott T Barnes editor of NewMyths.com magazine Masterful storytelling Karin Lacey The Uncommon Octopus Beautifully written poetic Susan Sachs climate education mentor

collects forty years of writings on poetry in one essential volume **UFOs and Government** Michael D. Swords, 2012

Governments around the world have had to deal with the UFO phenomenon for a good part of a century How and why they did so is the subject of *UFOs and Government* a history that for the first time tells the story from the perspective of the governments themselves It s a perspective that reveals a great deal about what we citizens have seen and puzzled over from the outside for so many years The story which is unmasked by the governments own documents explains much that is new or at least not commonly known about the seriousness with which the military and intelligence communities approached the UFO problem internally Those approaches were not taken lightly In fact they were considered matters of national security At the same time the story reveals how a subject with such apparent depth of experience and interest became treated as if it were a triviality And it explains why one government the United States government deemed it wise and perhaps even necessary to treat it so Though the book focuses primarily on the U S government s response to the UFO phenomenon also included is the treatment of the subject by the governments of Sweden Australia France Spain and other countries This large format fully illustrated book is the result of a team effort that called itself The UFO History Group a collection of veteran UFO historians and researchers who spent more than four years researching consulting writing and editing to present a work of historical scholarship on government response to the UFO phenomenon Michael Swords was the primary author of the United States chapters The work was coordinated and edited by Robert Powell Clas Svahn Vicente Juan Ballester Olmos Bill Chalker and Robert Powell contributed country chapters Jan Aldrich was the primary content consultant with additional content consultation and writing coming from Barry Greenwood and Richard Thieme Steve Purcell was the primary photo illustration editor From the foreword by Jerome Clark While *UFOs and Government* revisits an often unhappy history the reading of it is far from an unhappy experience The authors eloquent intelligent sophisticated and conscientious provide us with the first credible comprehensive overview of official UFO history in many years Most of the current volume deals with U S military and intelligence responses to the UFO phenomenon but it also features richly informative chapters that expand the story across the international arena If you re looking for an example of a nation that dealt productively with the UFO reports that came its official way you will take heart in the chapter on the French projects From here on every responsible treatment of UFOs and government will have to cite *UFOs and Government* prominently among its sources this is the real story as accurately as it can be reconstructed in the second decade of the new century I expect to keep my copy close at hand and to return to it often While it cannot be said of many books UFO themed or otherwise this is among the essential ones Stray from it at your peril *Poems Inspired by Dreams* Margaret Cox, 2014-12-30 This book has all the poetic dreams one could wish for It is written in a gentle style easy to read and to ponder over Margaret Cox
