The Problem of Slavery as History Joseph C. Miller, 2012-03-27 Why did slavery an accepted evil for thousands of years suddenly become regarded during the eighteenth century as an abomination so compelling that Western governments took up the cause of abolition in ways that transformed the modern world Joseph C Miller turns this classic question on its head by rethinking the very nature of slavery arguing that it must be viewed generally as a process rather than as an institution Tracing the global history of slaving over thousands of years Miller reveals the shortcomings of Western narratives that define slavery by the same structures and power relations regardless of places and times concluding instead that slaving is a process which can be understood fully only as imbedded in changing circumstances

Slavery's Ghost Richard Follett, Eric Foner, Walter Johnson, 2011-11-01 Three thoughtful contributions attempt to deepen and extend an emerging discussion about the limits to African American freedom and autonomy Slavery Abolition President Abraham Lincoln freed millions of slaves in the South in 1863 rescuing them as history tells us from a brutal and inhuman existence and making the promise of freedom and equal rights This is a moment to celebrate and honor to be sure but what of the darker more troubling side of this story Slavery's Ghost explores the dire debilitating sometimes crushing effects of slavery on race relations in American history In three conceptually wide ranging and provocative essays the authors assess the meaning of freedom for enslaved and free Americans in the decades before and after the Civil War They ask important and challenging questions How did slaves and freedpeople respond to the promise and reality of emancipation How committed were white southerners to the principle of racial subjugation And in what ways can we best interpret the actions of enslaved and free Americans during slavery and Reconstruction Collectively these essays offer fresh approaches to questions of local political power the determinants of individual choices and the discourse that shaped and defined the history of black freedom Written by three prominent historians of the period Slavery's Ghost forces readers to think critically about the way we study the past the depth of racial prejudice and how African Americans won and lost their freedom in nineteenth century America

New Studies in the History of American Slavery Edward E. Baptist, Stephanie M. H. Camp, 2006 These essays by some of the most prominent young historians writing about slavery fill gaps in our understanding of such subjects as enslaved women the Atlantic and internal slave trades the relationships between Indians and enslaved people and enslavement in Latin America

Inventive and stimulating the essays model the blending of methods and styles that characterizes the new cultural history of slavery's social political and economic systems Several common themes emerge from the volume among them the correlation between race and identity the meanings contained in family and community relationships gender and life's commonplaces and the literary and legal representations that legitimated and codified enslavement and difference Such themes signal methodological and pedagogical shifts in the field away from master slave or white black race relations models toward perspectives that give us deeper access to the mental universe of slavery Topics of the essays range widely including European ideas about the reproductive capacities of African women and the process of making race in the Atlantic world the contradictions of the assimilation of enslaved African American runaways into Creek communities the consequences and meanings of death to Jamaican slaves and slave owners and the tensions between midwifery as a black cultural and spiritual institution and slave midwives as health workers in a plantation economy Opening our eyes to the personal the contentious and even the intimate these essays call for a history in which both enslaved and enslavers acted in a vast human drama of bondage and freedom salvation and damnation wealth and exploitation

Children of Fire Thomas C. Holt, 2011-09-27
Simply brilliant The first survey of African American history to rival John Hope Franklin and Evelyn Brooks Higginbotham's *From Slavery to Freedom* Henry Louis Gates Jr Ordinary people don't experience history as it is taught by historians The same people who lived through the Civil War and the eradication of slavery also dealt with the hardships of Reconstruction so why do we almost always treat them separately In *Children of Fire* renowned historian Thomas C Holt challenges this form to tell the story of generations of African Americans through the lived experience of the subjects themselves with all of the nuances ironies contradictions and complexities one might expect Holt captures the entire African American experience from the moment the first twenty African slaves were sold at Jamestown in 1619 Each chapter focuses on a generation of individuals who shaped the course of American history hoping for a better life for their children but often confronting the ebb and flow of their civil rights and status within society Many familiar faces grace these pages Frederick Douglass W E B DuBois Martin Luther King and Barack Obama but also some overlooked ones Figures like Anthony Johnson a slave who bought his freedom in late seventeenth century Virginia and built a sizable plantation only to have it stolen away from his children by an increasingly racist court system Or Frank Moore a WWI veteran and sharecropper who sued his landlord for unfair practices but found himself charged with murder after fighting off an angry white posse Taken together their stories tell how African Americans fashioned a culture and identity amid the turmoil of four centuries of American history Provocative readable passionate Publishers Weekly
