## So Busy:

**CrazyBusy** Edward M. Hallowell, M.D., 2007-03-27 Look at what's happened to the usual how are you exchange. It used to go like this: How are you? Fine. Now it often goes like this: How are you? Busy. Or Too busy. Or simply Crazy. Without intending for it to happen or knowing how, when or why it got started, many people now find that they live in a rush; they never wanted. If you feel busier than you've ever been and wonder how this happened and how you can keep up the pace much longer, you are hardly alone. Crazy, Maybe not Dysfunctional. Yes, indeed. We all have more to do than ever before and less time to do it. In this highly listenable audiobook, the foremost expert on ADD, Ned Hallowell, explores the society-wide phenomenon of culturally induced ADD. Being busy may very well keep you from doing what matters most or it may lead you to do things you deem unwise, like getting angry, for example. Being busy is a problem for almost all of us. This audiobook is about both the opportunity and the problem where this peculiar life comes from and how to turn it to your advantage. Offering solutions to this difficult complex problem that might work for you, most importantly, Crazybusy may prompt you to create solutions of your own.

**So What?** Kevin Duncan, 2008-02-28 So What gets straight to the point so you can cut through the noise and nonsense of work. Much of what we learn in our formative years is unlearned in later life. As grown-ups, we are often unable to answer the simplest of questions in a clear, direct way and frequently have no idea why we are doing something. This can lead to crippling inefficiency in business and goes some way to explaining why so many people spend so much time doing things that have no bearing on the true purpose by behaving in a genuinely inquisitive way, you can get right to the heart of the matter and save yourself hours, days and even months of anguish. The questions So what? Why? How? and When? can be hugely effective when applied in the right context and this book shows you how to use them. Once all the right questions have been posed, there is a final sure-fire method for testing whether something is relevant and helpful. By completing the sentence: Something must be wrong if it is simple to work out if you are wasting your time. For example: Something must be wrong if I don't want to go to work in the morning. So What? shows you how to become truly inquisitive again. So let the questions roll. Pay attention to what the answers are. Learn from them and you will immediately improve your prospects of finally getting somewhere in life.
