Goodbye Miramar Hector R. Valles,2020-02-18 The book starts in the neighborhood of Miramar in San Juan Puerto Rico towards the end of the 1960s It begins in midst of a relationship between two college students The woman is Susan Ruiz the daughter of a well known artist of the time who is seeped in European culture and her male counterpart is Hector Ramon Martinez the son of a renown medical doctor who lives in Ocean Park a neighborhood of established professionals The novel takes place in the middle of the intellectual political and drug culture of the time Hector Ramon Martinez who aspires to be a writer but who suffers a severe mental breakdown is sent to Spain where he is hospitalized in the Esquerdo Sanatorium before he drifts through different cities in an attempt to find himself in a valid reason for his life The two of them will meet again in New York University in Manhattan where even though they are in the process of drafting their doctoral dissertations they walk and talk the streets of the Big Apple without a clear idea of what they can become The result for him at any rate is this convoluted text

Processing interclausal Relationships Jean Costermans,Michel Fayol,2014-03-18 During the last 10 years more and more linguistic and psycholinguistic research has been devoted to the study of discourse and written texts Much of this research deals with the markers that underline the connections and the breaks between clauses and sentences plus the use of these markers by adults and children in the production and comprehension of oral and written material In this volume major observations and theoretical views from both sides of the Atlantic are brought together to appeal to a wide range of linguists psychologists and speech therapists The volume presents contributions from researchers interested specifically in adult language and from others concerned with developmental aspects of language Some contributors deal primarily with production whereas others concentrate on comprehension Some direct their attention to oral discourse while others focus on written texts To preserve overall coherence however the contributors were given the following recommendations With regard to the level of linguistic analysis the emphasis should be on the clause level more particularly on the relationships between clauses Special emphasis should also be placed on linguistic markers e g connectives markers of segmentation punctuation An overview of a given field of research should be offered and current research should be put

into perspective For contributors in the developmental field attention should be paid to the fact that an account of the acquisition of some language functions throughout childhood should be included only if general principles of interclause relations that might be masked by the exclusive examination of adult evidence could be derived from it
