

# DEMOGRAPHIC TRANSITION MODEL

The demographic transition model portrays how a country moves from high birth and death rates to low birth and death rates as it becomes increasingly industrialized.

## STAGE 1

High Fluctuating

The first stage consists of high birth and death rates. At this stage, the population is stable or grows quite slowly because the number of births and deaths are almost equal.

## STAGE 2

Early Expanding

In the second stage, there is a sharp decline in death rates, causing the population to grow rapidly.

## STAGE 3

Late Expanding

The third stage sees the birth rate fall, which slows down population growth.

## STAGE 4

Low Fluctuating

In the fourth stage, both the birth and death rates are low, resulting in a falling and then stable population.

## STAGE 5

Declining

The fifth and final stage shows little population change, although it is somewhat ambiguous.

### **Managing Conflicts in Africa's**

**Democratic Transitions** Akanmu G. Adebayo, 2012-08-31 The democratization process which bolstered a culture of periodic elections has also fostered election related violent conflicts As democratic transitions gained currency in the new millennium orderly transitions through the ballot boxes began replacing military coups but deaths and destructions came in the wake of elections in many countries Inspired by decades long pro democracy movements across Africa that culminated in the Arab Spring of 2010 2011 and motivated by the desire to find long term solutions to election related violent conflicts in the continent this book explores the terrain of democratization elections and conflict management It raises and answers many questions such as What are the root causes of election related conflicts How free fair and credible are elections in many African countries What institutional mechanisms are available for ballot and voter security and for mandate protection What has been the role of civil society organizations in conflict prevention and management What are the responsibilities of the international community especially regional organizations like the Economic Community of West African States ECOWAS and the African Union AU in conflict resolution What indigenous mechanisms for conflict management have been identified that may be proactively engaged

**Social Capital and Peace-Building** Michaelene Cox, 2008-11-11 Pt 1 Social capital as an instrument of violence pt 2 Social capital as a catalyst for peace pt 3 Ambiguities of social capital in peace and conflict

Civil Society in Democratization Peter J. Burnell, Peter Calvert, 2004 Featuring a broad range of perspectives on the democratic process this collection of essays explores the development of civil society and how civil societies manage democratic change around the world

**The Myth of Civil Society** O. Encarnación, 2015-12-25 Almost irrespective of the geographic setting the debate about the future of democracy in post authoritarian societies is increasingly tied to the strength of civil society A strong civil society is thought to be crucial to the emergence of successful democracies while a weak civil society is deemed the cause of flawed or frozen democracies Using contrasting evidence from Spain and Brazil this

study challenges these widespread assumptions about contemporary democratization. It argues that it is the performance of political institutions rather than the configuration of civil society that determines the consolidation of democratic regimes.

**The Routledge Handbook of Nonprofit Communication** Gisela Gonçalves, Evandro Oliveira, 2022-10-12 This handbook brings together multidisciplinary and internationally diverse contributors to provide an overview of theory, research, and practice in the nonprofit and nongovernmental organization (NGO) communication field. It is structured in four main parts: the first introduces metatheoretical and multidisciplinary approaches to the nonprofit sector; the second offers distinctive structural approaches to communication and their models of reputation, marketing, and communication management; the third focuses on nonprofit organizations' strategic communications strategies and discourses; and the fourth assembles campaigns and case studies of different areas of practice, causes, and geographies. The handbook is essential reading for scholars, educators, and advanced students in nonprofit and NGO communication, within public relations and strategic communication, organizational communication, sociology, management, economics, marketing, and political science, as well as a useful reference for leaders and communication professionals in the nonprofit sector.

**The Handbook of Social Capital** Dario Castiglione, Jan W. van Deth, Guglielmo Wolleb, 2008-04-17 Social capital is a relatively new concept in the social sciences. In the last twenty or so years, it has come to indicate that networks of social relationships represent a resource for both the individual and society, since they provide support for the individual and facilitate collective action. Although this is not an entirely new idea, the more systematic way in which social capital captures such an intuition has created a new theoretical paradigm and helped to develop a series of innovative research programmes in politics, economics, and the study of human well-being. The concept has gained currency beyond academia, extending its influence to political and policy-making circles at local, national, and international levels. It has also affected the way in which social surveys are conceived and public policies assessed. As the idea of social capital has spread, the literature about it has increased exponentially. After twenty years of rapid expansion, it is time for a more considered and critical assessment of how the original concept has been adapted and refined, and how successful its application has been. The Handbook of Social Capital intends to do precisely that. It offers a state-of-the-art view of discussions about the concept of social capital and the way in which it has been applied in empirical research. The organization of the Handbook reflects this intention by focusing on conceptual development and analysis in the first part, by identifying two main areas of research in which social capital has favoured the development of new and influential research programmes: political participation in democratic societies and economic development; and by exploring the more normative and policy-oriented consequences of social capital. All chapters comprising the volume were specifically written for the Handbook by some of the main experts in the fields. The book provides an authoritative and innovative introduction to the study of social capital.

**21st Century Political Science: A Reference Handbook** John T. Ishiyama, Marijke Breuning, 2011 Offering full coverage of major subthemes and subfields within political

science this reference handbook includes entries on topics from theory and methodology to international relations and institutions

Is Non-western Democracy Possible?: A Russian Perspective Alexei D Voskressenski, 2017-05-19 This book with theoretical and practical analyses of comparative political systems of Eastern countries Asia and Africa their political process and political cultures describes and analyses the influence of political culture on political process in the Eastern world It gives readers an opportunity to make a comparative appraisal of maturity of civil society in these countries as well as their specifics in political interactions and internal political competition seen through the eyes of a group of distinguished Russian researchers The book concentrates also on specifics of political economic and political modernization in the East and assesses the prospects of an emergence of a Western as well as a non Western democracy in the framework of Eastern political transformations It also explains why the one dimensional spread of democracy completely negating or neglecting regional political cultural specifics may lead to war among civilizations instead of the formation of a more just and fair system of democratic governance

CONTEMPORARY POLITICAL THEORY VINOD, M. J., DESHPANDE, MEENA, 2013-01-11 Intended as a text for the postgraduate students of political science this well researched book attempts to track the evolution of political ideas in the recent past and their background It brings out the contemporary epistemological and methodological debates within the discipline and social sciences as a whole and incorporates the latest developments in the field Divided into forty chapters under eleven parts the book deals with the core concepts and debates in political theory and focuses on the state society interactions It tries to explain how the states societies and cultures have responded to the emerging challenges thrown up by the social economic and political factors and the direction of the response It also dwells on the impact of globalisation on current trends Finally the book analyses the ideas of modern Indian thinkers such as V D Savarkar Jawaharlal Nehru Ram Manohar Lohia B R Ambedkar and Jayaprakash Narayan Besides the postgraduate students of political science the book would also be useful to the aspirants of civil services examinations and the initiated readers

**Intelligence in Democratic Transitions** Sofia Tzamarelou, 2024-08-01 A groundbreaking comparative analysis of three understudied cases of intelligence democratization revealing new insights into main barriers to reform when states transition from authoritarianism Reforming the intelligence services is essential when a state transitions from authoritarianism to democracy But which areas should be reformed how do we know when there has been real transformation and how and where do authoritarian legacies persist Intelligence in Democratic Transitions is a comparative examination of the democratic transitions of Portugal Greece and Spain starting in the 1970s Although these three countries began their transitions around the same time they present significantly different results Sofia Tzamarelou discovers that main barriers to reform are legacies of the past and legacy personnel She does this through the lens of five Security Sector Reform SSR indicators Lustration Control and Oversight Recruitment Targeting and Civil Society Tzamarelou uses primary sources throughout the study including governmental documents and legal statutes such as draft laws bills and presidential decrees

paired with outside primary source reporting such as analysis reporting by the CIA. She complements this rich primary source material with secondary sources from authors in each country and internationally who specialize in intelligence or who provide historical context. Tzamarelou's unique comparative analysis of intelligence democratization using a common framework SSR applied to each country contributes to readers' understanding of why and how some reforms fail and others succeed and how the SSR framework can be used in the intelligence arena.
