Textualities Between Hermeneutics And Deconstruction:

Textualities Hugh J. Silverman, 2013-10-28 *Textualities* is both an account of recent developments in Continental philosophy and a demonstration of philosophy as a distinctive theoretical practice of its own. It can be read as a presentation and evaluation of major figures from Heidegger and Merleau Ponty to Foucault and Derrida with detailed accounts of Nietzsche, Sartre, Levi Strauss, Barthes, Blanchot, and Kristeva. Portraits of American Continental Philosophers James R. Watson, 1999 Taken together these intimate self portraits provide a vibrant overview of the multiplicity and depth of continental philosophy in America. Jacket **Textualities** Hugh J. Silverman, 2013-10-28 *Textualities* is both an account of recent developments in Continental philosophy and a demonstration of philosophy as a distinctive theoretical practice of its own. It can be read as a presentation and evaluation of major figures from Heidegger and Merleau Ponty to Foucault and Derrida with detailed accounts of Nietzsche, Sartre, Levi Strauss, Barthes, Blanchot, and Kristeva. **Dialectic of Sedimentation and Innovation** Mabiala Justin-Robert Kenzo, 2009 One of the most important developments in the episteme of our time is the recognition that all being and all knowing are socially conditioned. This recognition raises the question of subjective creativity: Is creativity or innovation possible? What is the locus of creativity? Is it the subject or the structure of the structures of being of which the subject is part? Any notion of creativity that takes seriously the condition of being is therefore bound to deal with the perennial issue of freedom and determinism. *Dialectic of Sedimentation and Innovation* examines the contribution of Paul Ricoeur to this question for the purpose of theological consumption. Ricoeur's philosophical reconstruction of the subject as self creates a space midway between the modern self positing subject and the postmodern deconstructed subject where reason rules but does not tyrannize. It is from this space that he proposes a view of humanity that argues that to be human is to be homo voluntas, homo lingua, and homo capax. *Dialectic of Sedimentation and Innovation* seeks to theologically appropriate these notions for Africa's quest for a new creative identity. *Theology as History and Hermeneutics* Laurence W. Wood, 2005 This book offers in style and content an exciting new perspective on contemporary theology and its future in post modern times. I welcome this new perspective. The style is agreeable, unpolemical, and engages in dialogue with the best of Barth and Bultmann, Ricoeur and Pannenberg, Cobb and Moltmann, showing what they have to offer to the larger theological community and transferring it like a ferry boat into the post modern age. The purpose is to offer an evangelical theology which is at the same time genuinely evangelical and relevant for post modern ways of thinking. Wood writes with admirable clarity. Jürgen Moltmann, University of Tübingen. Derrida and Husserl Leonard Lawlor, 2002-07-04 A magnificent work that will definitely shape the discussion on Derrida for years to come. Rodolphe Gasché. What is the nature of the relationship of Jacques Derrida and deconstruction to Edmund Husserl and phenomenology? Is deconstruction a radical departure from phenomenology or does it trace its origins to the phenomenological project? In *Derrida and Husserl* Leonard Lawlor illuminates Husserl's influence on the French philosophical tradition that inspired Derrida's thought. Beginning with Eugen

Fink's pivotal essay on Husserl's philosophy Lawlor carefully reconstructs the conceptual context in which Derrida developed his interpretation of Husserl Lawlor's investigations of the work of Jean Cavaill's Tran Duc Thao and Jean Hyppolite as well as recent texts by Derrida reveal the depth of Derrida's relationship to Husserl's phenomenology Along the way Lawlor revisits and sheds light on the origin of many important Derridean concepts such as deconstruction the metaphysics of presence difference intentionality the trace and spectrality

The Derrida Reader Jacques Derrida, 1998-01-01 In the English speaking world Jacques Derrida's writings have most influenced the discipline of literary studies Yet what has emerged since the initial phase of Derrida's influence on the study of English literature classed under the rubric of deconstruction has often been disowned by Derrida What then can Derrida teach us about literary language about the rhetoric of literature and about questions concerning style form and structure The Derrida Reader draws together a number of Derrida's most interesting and idiosyncratic essays that treat literary language the idea of the literary and questions of poetics and poetry The essays discuss single tropes or concepts a figure such as metaphor the ideas of titles and signatures proper names and Derrida's thinking on such subjects as undecidability or aporia The editor's introduction is a demonstration in practice of how Derrida reads and how he adapts the act of reading to the text or figure in question The introduction also outlines each essay's main points its usefulness for reading literary texts and its particular area of interest The Derrida Reader thus provides students of literature with a focused contextualized and readily understandable volume

Between Philosophy and Non-Philosophy Donald A. Landes, Leonard Lawlor, Peter Gratton, 2016-11-01 Engages the work and career of a central figure in contemporary philosophy Hugh J Silverman was an inspiring scholar and teacher known for his work engaging and shaping phenomenology hermeneutics psychoanalysis structuralism poststructuralism and deconstruction As Professor of Philosophy and Comparative Literary and Cultural Studies at Stony Brook University State University of New York Silverman's work was marked by the between a concept he developed to think the postmodern in the space between philosophy and non philosophy In this volume leading scholars explore and extend Silverman's philosophical contributions from reflections on the notions of care time and responsibility to presentations of the practices and possibilities of deconstruction itself They provide an assessment of Silverman's life and work at the intersection of philosophy ethics and politics

Aristotle and Natural Law Tony Burns, 2011-10-27 Aristotle and Natural Law lays out a new theoretical approach which distinguishes between the notions of interpretation appropriation negotiation and reconstruction of the meaning of texts and their component concepts These categories are then deployed in an examination of the role which the concept of natural law is used by Aristotle in a number of key texts The book argues that Aristotle appropriated the concept of natural law first formulated by the defenders of naturalism in the nature versus convention debate in classical Athens Thereby he contributed to the emergence and historical evolution of the meaning of one of the most important concept in the lexicon of Western political thought Aristotle and Natural Law argues that Aristotle's ethics is best seen as a certain type of natural law

theory which does not allow for the possibility that individuals might appeal to natural law in order to criticize existing laws and institutions Rather its function is to provide them with a philosophical justification from the standpoint of Aristotle's metaphysics

Lyotard Hugh J. Silverman, 2016-01-20 Jean Francois Lyotard the highly influential twentieth century philosopher of the postmodern has had an enormous impact on the course and commitment of contemporary philosophy Lyotard Philosophy Politics and the Sublime is a thoroughgoing reassessment of his extraordinary legacy and contribution to contemporary cultural political ethical and aesthetic theory and an indispensable guide to key issues in his philosophy Fifteen distinguished scholars have contributed new original essays examining the main themes in Lyotard's work with a focus on the special intersections of philosophy psychoanalysis politics and the experience of the sublime in art The volume includes an up to date bibliography of works by and about Lyotard previously unpublished photographs of Lyotard and an incisive essay by Lyotard himself on the philosophical significance of Freud's case of Emma
