 of Reference** R. McMaster,1991-02-01 McMaster has made an extensive identification and detailed study of the many kinds
 of allusions to be found in The Newcomes There are allusions to classical foreign language and English literature as well as
 to the Bible fables theatre opera popular songs nursery rhymes newspapers art English and French history and the
 topography of London These allusions saturate the text of The Newcomes and appeal to several different readerships
 McMaster specifies what Thackeray s contemporaries would have recognized and responded to and suggests interactions
 between the text and its readers The cultural density of The Newcomes is identified by McMaster as textual intertextual and
 to a degree parodic He shows that Thackeray exploited the dynamics of allusion through doubleness and ironic juxtaposition
 to achieve several ends Not only does Thackeray present an archetypal and cyclical vision of life he questions the status and

value of diverse fictions and blurs the traditional distinctions between fiction and history originality and convention and nature and artifice In his account of allusion McMaster has used a simple and straightforward style avoiding unnecessary jargon and cumbersome definitions Thackeray's Cultural Frame of Reference reveals a Thackeray particularly amenable to a post modern and especially to an intertextual approach to literature *Thackeray's Novels* Jack P. Rawlins, 2024-06-28 Jack P. Rawlins's study explores one of the great problems of mid Victorian literature the explanation and justification of William Makepeace Thackeray's narrative style and structure Rawlins finds that Thackeray in his novels of English society uses an exaggeratedly conventional plot structure as a means to comment on the condition of the novel in England The frustration and fury that have traditionally been the response of the feeling reader to the excesses of Thackeray's narrator are the result of a basic aesthetic conflict of which Thackeray wants to make us inescapably aware a conflict between the dramatic action which demands a commitment from us and a narrator who feels that the commitment has been thoughtlessly made and who seeks to turn our attention to the didactic uses of the novel to the lie of the realistic and to other aesthetic and moral issues Treating *The Newcomers* *Vanity Fair* *The Virginians* and *Philip* in detail and the other works in the canon more briefly Rawlins locates Thackeray directly astride the most serious aesthetic problem of his age the status of fiction and its proper employment This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974 **Thackeray's Place Among English Writers. Cut from The Month, June 1869. [4].**, 1869 **Thackeray's Haunts and Homes** Eyre Crowe, 1897 A collection of poems about words that express the essence of the animals they identify **Syllabi for the Academic Years ...** American Society for the Extension of University Teaching, 1903 **Thackeray's English Humourists and Four Georges** Edgar F. Harden, 1985 Thackeray's only two series of public lectures gave an important new dimension to his public presence and to his contemporary reputation as a literary artist This is the first book on these lecture essays
