## **That Day In Budapest:**

*Budapest's Children* Friederike Kind-Kovács, 2022-07-05 In the aftermath of World War I international organizations descended upon the destitute children living in the rubble of Budapest and the city became a testing ground for how the West would handle the most vulnerable residents of a former enemy state *Budapest's Children* reconstructs how Budapest turned into a laboratory of transnational humanitarian intervention Friederike Kind Kovács explores the ways in which migration hunger and destitution affected children's lives casting light on children's particular vulnerability in times of distress Drawing on extensive archival research Kind Kovács reveals how Budapest's children as iconic victims of the war's aftermath were used to mobilize humanitarian sentiments and practices throughout Europe and the United States With this research *Budapest's Children* investigates the dynamic interplay between local Hungarian organizations international humanitarian donors and the child relief recipients In tracing transnational relief encounters *Budapest's Children* reveals how intertwined postwar internationalism and nationalism were and how child relief reinforced revisionist claims and global inequalities that still reverberate today

**One Day That Shook the Communist World** Paul Lendvai, 2010-12-16 On October 23 1956 a popular uprising against Soviet rule swept through Hungary like a force of nature only to be mercilessly crushed by Soviet tanks twelve days later Only now fifty years after those harrowing events can the full story be told This book is a powerful eyewitness account and a gripping history of the uprising in Hungary that heralded the future liberation of Eastern Europe Paul Lendvai was a young journalist covering politics in Hungary when the uprising broke out He knew the government officials and revolutionaries involved He was on the front lines of the student protests and the bloody street fights and he saw the revolutionary government smashed by the Red Army In this riveting deeply personal and often irreverent book Lendvai weaves his own experiences with in depth reportage to unravel the complex chain of events leading up to and including the uprising its brutal suppression and its far reaching political repercussions in Hungary and neighboring Eastern Bloc countries He draws upon exclusive interviews with Russian and former KGB officials survivors of the Soviet backlash and relatives of those executed He reveals new evidence from closed tribunals and documents kept secret in Soviet and Hungarian archives Lendvai's breathtaking narrative shows how the uprising while tragic delivered a stunning blow to Communism that helped to ultimately bring about its demise *One Day That Shook the Communist World* is the best account of these unprecedented events

*The Red Cross Bulletin*, 1920      **The New York Times Current History**, 1919      *Dun-Camp's Tour Manual ...*, 1929      *Days of Battle* Norbert Számvéber, 2013-10-19 This volume of WWII military studies examines significant yet neglected clashes of German Hungarian and Soviet armor north of the river Danube In *Days of Battle* Dr Norbert Számvéber chief of Hungary's military archives examines armor combat operations in the southern territory of the historical Upper Hungary part of Hungary between 1938 and 1945 at the present time now part of Slovakia in three separate studies The first is an account of the battle between the Ipoly and Garam rivers during the second

half of December 1944 in which the elite Hungarian Division Szent László saw action for the first time The second study examines the fierce tank battle of Komárom fought between January 6th-22nd of 1945 This was an integral part of the Battle for Budapest parallel in time with Operation Konrad The third study describes the combat during the German Operation Söldwind in February 1945 as well as the Soviet attack launched in the direction of Bratislava in March 1945 Based on files and documentation from German Hungarian and Soviet sources Dr Szendrői's authoritative text is supported by photographs and color battle maps *That Day in Budapest, October 23, 1956* Tibor Méray, 1969 **Diary of Interrupted Days** Dragan Todorovic, 2010-04-09 Dragan Todorovic's first book written in English won him a literary prize for non-fiction and predictions from readers that he was a novelist in the making The readers were right as his exceptional first novel proves *Diary of Interrupted Days* is playful blazingly intelligent occasionally erotic and ultimately tragic unfurling from the cliffhanger scene that opens the book a lone exile returning to Belgrade for the first time since he fled to Canada in the mid-nineties is stranded on the only bridge into the city that hasn't been destroyed by NATO bombers as air raid sirens sound He should be focused on getting off the bridge but he seems unable to calculate the risk The war that dismembered his country still haunts him but what has him frozen is that the disruptions of war allowed him to steal happiness for himself from his best friend with the likelihood that he would never be caught But lies even artful ones told by someone adept at incinerating the past have a way of catching up to you As the man on the bridge is about to find out **The Global Age** Ian Kershaw, 2019-04-30 The final chapter in the Penguin History of Europe series from the acclaimed scholar and author of *To Hell and Back* After the overwhelming horrors of the first half of the twentieth century described by Ian Kershaw in his previous book as being to Hell and back the years from 1950 to 2017 brought peace and relative prosperity to most of Europe Enormous economic improvements transformed the continent The catastrophic era of the world wars receded into an ever more distant past though its long shadow continued to shape mentalities Yet Europe was now a divided continent living under the nuclear threat in a period intermittently fraught with anxiety There were by most definitions striking successes the Soviet bloc melted away dictatorships vanished and Germany was successfully reunited But accelerating globalization brought new fragilities The interlocking crises after 2008 were the clearest warnings to Europeans that there was no guarantee of peace and stability and even today the continent threatens further fracturing In this remarkable book Ian Kershaw has created a grand panorama of the world we live in and where it came from Drawing on examples from all across Europe *The Global Age* is an endlessly fascinating portrait of the recent past and present and a cautious look into our future

**The Use of Force in International Law** Tom Ruys, Olivier Corten, Alexandra Hofer, 2018-04-26 The international law on the use of force is one of the oldest branches of international law It is an area twinned with the emergence of international law as a concept in itself and which sees law and politics collide The number of armed conflicts is equal only to the number of methodological approaches used to describe them Many violent encounters are well known The Kosovo Crisis in 1999 and

the US led invasion of Iraq in 2003 spring easily to the minds of most scholars and academics and gain extensive coverage in this text Other conflicts including the Belgian operation in Stanleyville and the Ethiopian Intervention in Somalia are often overlooked to our peril Ruys and Corten s expert written text compares over sixty different instances of the use of cross border force since the adoption of the UN Charter in 1945 from all out warfare to hostile encounters between individual units targeted killings and hostage rescue operations to ask a complex question How much authority does the power of precedent really have in the law of the use of force     Harper's Monthly Magazine ,1909     **The Old World and Its Ways** William Jennings Bryan,1907     The Department of State Bulletin ,1957 The official monthly record of United States foreign policy

**Problems of Communism** ,1986     **A Lesson for Our Times** C. Philip Skardon,2010-03-19 Even though it has faded in the minds of most the Cold War was the dominant happening in the second half of the 20th Century The underlying cause was the Soviet Unions expansionism which was driven by imperialist ambition overlaid with ideology Combating this radical and highly threatening form of political and territorial aggrandizement made extraordinary demands on the Western nations and especially the United States because of its strength and democratic tradition These forces vied in the Hungary Suez Crisis of 1956 as not before or after when 200 000 Soviet troops intervened in Hungary to put down the revolution and the attendant Uprising and acting contrary to Western interests Britain and France invaded the Canal Zone and the Israelis the Sinai raising the crisis to a point of extreme danger as the East West confrontation nearly burst its bounds Had the allies not been halted in Egypt by the Eisenhower Administrations use of the UN Charter and UN mechanisms for maintaining peace and the Russians not deterred from invading Western Europe by threat of U S nuclear retaliation it seemed possible that the world would experience a general war with nuclear weapons as a major component A Lesson for Our Times focuses on this possibility While it is about the steps taken by the United States to prevent the worst from occurring immediately it is also about what was done to prevent a similar crisis from occurring in the future To say that these actions were unique and effective is true but not enough They were also unprecedented in the history of the nation and surely the world as well as proof that the peace keeping system devised after World War II would function as intended if undergirded and augmented by U S prestige and wherewithal Here then was Hungary Suez in its totality More should be known about the crisis for these reasons alone This book seeks to meet that need while filling a large gap in the understanding of the Cold War It also recalls a time when Americas conduct as the worlds primary superpower was as clear and visionary as it was purposeful and constructive in a word when American diplomacy was at its zenith     **Almost Robbed of Everything** Stephen Brennan,2012-04-03 Something for someone who may be struggling with their life Who can find the information here to improve themselves     *The Protectionist* ,1911 A monthly magazine of political science and industrial progress     *Home Market Bulletin* ... Albert Clarke,1911     **Home Market Bulletin** ,1911     *Mother Jones Magazine* ,1990-04 Mother Jones is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of

sustainability and environmental issues
