

The Abortive Revolution: China under Nationalist Rule 1927-1937.
By LLOYD E. EASTMAN. [Cambridge, Mass.: Harvard University Press, 1974. East Asian Series 78. 398 pp. \$16.50. £8.25.]

Lloyd E. Eastman's volume represents the latest contribution to the further exploration of the complexity of events besetting the Chinese nationalist regime during the period 1927-37. He concludes that the nationalist revolution had failed by 1937 when the war with Japan broke out. To prove his case, he examines the Nationalist Party's internal shift in the early 1930s towards fascist organization and principles, the Fukien rebellion (20 November 1933-22 January 1934), the intellectual elite's controversy over the issue of democracy or dictatorship, the Nationalists' achievements and failures in economic and financial matters, events that led to Chiang Kai-shek's emergence as a national hero on the eve of the war, and in the concluding chapter, the nationalist elite's political behaviour in terms of Chinese social traits.

By his choice of these focuses the author does address himself to some aspects of Kuomintang China's fundamental problems during the decade 1927-37. But, while the book succeeds in presenting a balanced summary of each issue, its originality is limited. As a trained historian, Eastman seems at his best in factual research, as is evident in his discussion of the Fukien rebellion and the Kuomintang's internal shift towards fascism. In the case of the chapter on the former, he reveals some fascinating information. With clarity and an illuminating analysis, the chapter explores the intricate connections of the Third Party movement, Chiang Kai-shek's rival politicians, the Trotskyites, the Kiangsi Soviet Communists, the Kwangtung-Kwangsi-based military forces and the Nanking central authorities. The chapter on the Blue Shirts and fascism contains much valuable information from Japanese sources notably those prepared and gathered by the General Headquarters of the Expeditionary Army in China and by the Research Division of Japan's Foreign Ministry. However, readers should be reminded of the fact that the author had already published much of the chapter in issue number 49 (1972) of this journal.

I have no quarrels with the arguments in the chapter dealing with the intellectual elite's debate on the relative values of democracy and dictatorship and the author's own interpretation of the dilemma involved in China's actual political situation at the time. Nor do I dispute the fine discussion on the economy, i.e. the Nationalists' success and failure in economic and financial management, nor chapter six which details political events on the eve of the war that led to Chiang's rise to a position of national leadership. These three chapters provide a skilful synthesis of available information scattered in the English and Chinese sources.

The concluding chapter on social traits and political behaviour in Kuomintang China is intellectually troublesome. The author argues,
