to unseat narratives of modern art in the 1930s 1960s and 1980s alongside Surrealism's intersection with advertising Magic Realism Pop and the rise of contemporary photography As a popular avant garde Surrealism openly resisted art historical classification forcing the supposedly distinct spheres of modernism and mass culture into conversation and challenging theories of modern art in which it did not fit in large part because of its continued relevance to contemporary American culture

Harold Rosenberg Debra Bricker Balken, 2021-10-06 The biography recounts Rosenberg's full story for the first time Art critic for The New Yorker from 1962 until 1978 Rosenberg together with Clement Greenberg radically reshaped the interpretation of art in the post World War II period by promoting and examining abstract expression But Rosenberg was also a social and literary critic writing about art was just one aspect of his work Harold Rosenberg A Critic's Life weaves together Rosenberg's life and literary production cast against the dynamic intellectual and social ferment of his time Rosenberg's mid century linking of the New York School with the art establishment together with his observations on the commodification of the artwork and the evisceration of the self in favor of celebrity especially in his often cited essay The Herd of Independent Minds make this book especially topical

A Memoir of Creativity Piri Halasz, 2009 A Memoir of Creativity chronicles one woman's life journey as she derives a theory revealing meaning in abstract painting from varied personal and professional experiences and tells how she locates this theory within a broader social context In 1966 Piri Halasz became the first woman within living memory to write a cover story for Time and not just any cover story either the notorious one on Swinging London With wit and wisdom she provides a glimpse into her red diaper childhood as well as reporting on her climb at Time from research to the writing staff Vividly she describes her controversial career as a female journalist during the sixties offering an inside view of newsweekly rivalries during that tempestuous decade Halasz then moves on to her initiation into the art world her lively interaction with some of its most distinguished denizens and her immersion in graduate school She concludes with what she has learned about art art history and history itself since the early eighties applying that knowledge to better understand the twenty first century Through sharing her life story Halasz encourages others to remain open to new

reference not only to the most famous artists of the movement but also female artists and artists of colour whom Greenberg himself neglected such as Joan Mitchell and Norman Lewis it is argued that far from reinforcing the capitalist status quo Abstract Expressionism engages corporeal and affective elements of experience dismissed or delegitimated by capitalism and promises a world that would do justice to them

Eyesight Alone Caroline A. Jones, 2005 Even a decade after his death Clement Greenberg remains controversial One of the most influential art writers of the twentieth century Greenberg propelled Abstract Expressionist painting in particular the monumental work of Jackson Pollock to a leading position in an international postwar art world On radio and in print Greenberg was the voice of the new American painting and a central figure in the postwar cultural history of the United States Caroline Jones's magisterial study widens Greenberg's fundamental tenet of opticality the idea that modernist art is apprehended through eyesight alone to a broader arena examining how the critic's emphasis on the specular resonated with a society increasingly invested in positivist approaches to the world Greenberg's modernist discourse Jones argues developed in relation to the rationalized procedures that gained wide currency in the United States at midcentury in fields ranging from the sense data protocols theorized by scientific philosophy to the development of cultural forms such as hi fi that targeted specific senses one by one Greenberg's attempt to isolate and celebrate the visual was one manifestation of a large scale segmentation or bureaucratization of the body's senses Working through these historical developments Jones brings Greenberg's theories into contemporary philosophical debates about agency and subjectivity Eyesight Alone offers artists art historians philosophers and all those interested in the arts a critical history of this generative figure bringing his work fully into dialogue with the ideas that shape contemporary critical discourse and shedding light not only on Clement Greenberg but also on the contested history of modernism itself

Ethnic Modernism Werner Sollors, 2008 Werner Sollors's monograph looks into how African American European immigrant and other minority writers gave the United States its increasingly multicultural self awareness focusing on their use of the strategies opened up by modernism

Pollock Donald Wigal, 2015-09-15 Born in 1912 in a small town in Wyoming Jackson Pollock embodied the American dream as the country found itself confronted with the realities of a modern era replacing the fading nineteenth century Pollock left home in search of fame and fortune in New York City Thanks to the Federal Art Project he quickly won acclaim and after the Second World War became the biggest art celebrity in America For De Kooning Pollock was the icebreaker For Max Ernst and Masson Pollock was a fellow member of the European Surrealist movement And for

Motherwell Pollock was a legitimate candidate for the status of the Master of the American School. During the many upheavals in his life in New York in the 1950s and 60s, Pollock lost his bearings; success had simply come too fast and too easily. It was during this period that he turned to alcohol and disintegrated his marriage to Lee Krasner. His life ended like that of 50s film icon James Dean behind the wheel of his Oldsmobile after a night of drinking. [Looking for Hemingway](#) Tony Castro, 2016-11-16. Named by Boston's NPR News Station as one of the Best Books of 2016. In 1959, the most famous literary figure of his time set out in the twilight of his life to recapture his early success in the 1920s. The experience tested all the credos of bravery and grace under pressure he had lived by. Just months before turning sixty, Ernest Hemingway headed for Spain to write a new epilogue for his bullfighting classic *Death in the Afternoon*, as well as an article for *Life* magazine. His hosts were Bill and Anne Davis, wealthy Americans in pursuit of the avant-garde life of the 1920s post-war expatriates who lavishly entertained celebrities and the literati from Noel Coward to Laurence Olivier at their historic villa La Consuela. This hacienda would become Hemingway's home during the most pivotal months of the Nobel laureate's denouement, and Bill Davis, fellow adventurer who had survived the Depression running arms during the Spanish Civil War, would become his friend and bullfight traveling companion. *Looking for Hemingway* explores that incredible friendship and offers a rare intimate look into the final period of the legendary author's life, giving comprehension not only of a writer's despair but of suicide as a not unreasonable conclusion to a blasted existence. **The Free World** Louis Menand, 2021-04-20. An engrossing and impossibly wide-ranging project. In *The Free World*, every seat is a good one. Carlos Lozada, *The Washington Post*. *The Free World* sparkles. Fully original, beautifully written. One hopes Menand has a sequel in mind. The bar is set very high. David Oshinsky, *The New York Times Book Review*. Editors' Choice. One of *The New York Times*'s 100 best books of 2021. One of *The Washington Post*'s 50 best nonfiction books of 2021. A Mother Jones best book of 2021. In his follow-up to the Pulitzer Prize-winning *The Metaphysical Club*, Louis Menand offers a new intellectual and cultural history of the postwar years. The Cold War was not just a contest of power. It was also about ideas in the broadest sense: economic and political, artistic and personal. In *The Free World*, the acclaimed Pulitzer Prize-winning scholar and critic Louis Menand tells the story of American culture in the pivotal years from the end of World War II to Vietnam and shows how changing economic, technological, and social forces put their mark on creations of the mind. How did elitism and an anti-totalitarian skepticism of passion and ideology give way to a new sensibility defined by freewheeling experimentation and loving the Beatles? How was the ideal of freedom applied to causes that ranged from anti-communism and civil rights to radical acts of self-creation via art and even crime? With the wit and insight familiar to readers of *The Metaphysical Club* and his *New Yorker* essays, Menand takes us inside Hannah Arendt's Manhattan, the Paris of Jean-Paul Sartre and Simone de Beauvoir, Merce Cunningham and John Cage's residencies at North Carolina's Black Mountain College, and the Memphis studio where Sam Phillips and Elvis Presley created a new music for the American teenager. He examines the post-war vogue for French

existentialism structuralism and post structuralism the rise of abstract expressionism and pop art Allen Ginsberg s friendship with Lionel Trilling James Baldwin s transformation into a Civil Right spokesman Susan Sontag s challenges to the New York Intellectuals the defeat of obscenity laws and the rise of the New Hollywood Stressing the rich flow of ideas across the Atlantic he also shows how Europeans played a vital role in promoting and influencing American art and entertainment By the end of the Vietnam era the American government had lost the moral prestige it enjoyed at the end of the Second World War but America s once despised culture had become respected and adored With unprecedented verve and range this book explains how that happened The Scribner Encyclopedia of American Lives Charles Scribner's Sons,1998 Biographical articles about outstanding Americans
