The Gift in the Heart of Language Genevieve Vaughan,2015-05-15T00:00:00+02:00 Genevieve Vaughan offers a paradigm shifting view of the structure of material and verbal communication based on mother child experience and confirmed by recent research in infant psychology This view justifies a relational epistemology that informs the material gift economy as well as the structure of language itself Provisioning economies give value to the receivers and the circulation of gifts consolidates community Understanding language as verbal gifting unites other orientation with reason to liberate us from biopathic patriarchal conceptions of humanity Sketched against this background Vaughan introduces a conception of monetized exchange as a gift denying and expropriating psychological mechanism which is an unintended collective by product of verbal communication This view stands as a warning against visions of the future in which the institutions of money and the market can be fixed to be more caring and sanitized business as usual can halt the destruction of Mother Earth Rather a gift economy which takes as its model the mother child interaction the gifting in language and the gifting in mother centered societies provides hope for a positive future

Straight to the Heart Daniel Blackaby, Mike Blackaby, 2024-08-06 Our approach to apologetics needs to change when the very idea of truth is controversial But as authors Daniel Blackaby and Mike Blackaby teach us we can still reach people if we understand what they value most This practical guide to our current landscape explores five effective communication pathways Story As people wired for narrative we can speak through the stories we live and tell Beauty In an increasingly industrialized world we can point people to pockets of beauty that reveal the attractiveness of God Art In a society that celebrates the arts we can cultivate creativity in the church then send artists out as cultural missionaries Desire To a people motivated by love identity and purpose we can show how Jesus is the perfect fulfillment of our deepest longings Community As relational creatures where connectivity is disappearing we can offer a community of unified diversity Culture may be in flux but God's Word remains true *Straight to the Heart* helps us speak to the passions that drive our culture without compromising the life changing truth of the gospel ***Straight from the Heart*** Ajaan Mahā Boowa Ñāṇasampanno, This collection of talks was originally given for the benefit of a lay disciple who had come to Ajaan Mah Boowa's monastery to receive his guidance as she faced her approaching death from bone marrow cancer These talks offer important lessons about how to learn from pain illness and death by seeing through to their ultimate nature and detaching the mind from the suffering associated with them *The Alternative Luther* Else Marie Wiberg Pedersen, 2019-09-18 Contributors to this book analyze areas of Martin Luther's and Lutheran theology that have otherwise been neglected or underrepresented in the five hundred years since the Reformation They constructively widen the scope of Luther and Lutheran theology by viewing both from the perspectives of the subaltern those whose voices are barely or rarely heard The book formulates an inclusive Lutheran theology that reaches out but does not close out The book's sections address Precarious Life from Luther's own precarious existence as an outlaw under a death sentence to other precarious life situations seen from various Lutheran perspectives Body and Gender addressing different aspects of gender and sexuality from new angles Women and Sexual Abuse focusing on present day problems of abuse in an encounter with Luther's exegesis of biblical texts of terror and

Paradigm Shift in Language Planning and Policy Ettien Koffi,2012-01-27 The book proposes a paradigm shift in language planning and language policy in Africa For the past fifty years the dominant model has been the hegemonic model whereby a language of wider communication LWC is imposed on minority languages It is now time for a paradigm shift in favor of a more egalitarian model in which all the languages spoken in the same country irrespective of their size are planned The paradigm shift concerns four critical areas status planning cost benefit planning acquisition planning and corpus planning Such a shift is justified for the following reasons First the hegemonic model has a dismal track record of success in Africa and elsewhere Second the hegemonic model exacerbates linguistic conflicts in many countries Consequently policy makers shun it for fear of jeopardizing the fragile social fabric in their respective countries Last a shift away from the hegemonic model is recommended because it is too costly to implement The democratic model is undergirded by the Strategic Game Theory proposed by David Laitin It forecasts a 3 1 language outcome for most African countries This outcome supports the three language formula now called for by the United Nations Development Program UNDP
