Sky And Island Light:

Lights in the Sky Michael Maunder, 2007-09-28 Many lights and other objects in the sky go unrecognised or at least are little understood by those observing them Such things range from the commonplace like rainbows and meteors to the distinctly unusual like the green flash and ball lightning And there is still a residuum of objects that remain unidentified by the watcher classed generally as UFOs a description which today has connotations of the mysterious even of extraterrestrial visitors The first part of this book is an identification guide very much like the plant identifier sections found in a good gardening or botany book It allows quick and structured identification of known aerial phenomena whether at night or during the day The objects thus found are referenced to the second part of the book The second part gives a full description physical explanation and where relevant notes on observing and photographing the various phenomena Some will need optical aids such as binoculars or telescopes but the main thrust of the book is identification and explanation rather than imaging The final chapter approaches UFOs from a scientific standpoint particularly the way in which human perception and often preconception affects the outcome It does however finish with a short section on extraterrestrial UFOs emphasising the burden of proof aspect and touching on the scientific theories of life on other worlds and the improbability of visitors

Chapter 1 What They Found

The exciting and interesting beginning of Sky Islands a gripping book gets the reader interested Scientist Professor Elm who is known for his strange habits and insatiable curiosity is the first person to find out about a secret that lies far above the earth One clear night Professor Elm looks at the sky through his big old telescope which he has carefully adjusted over the years and he sees something amazing Shadows flash and dance in the sky for no clear reason It s not like these shadows are from clouds or birds flying by they re clear big and look like islands floating in the sky Professor Elm is thrilled about this finding He knows that what he is seeing could be one of the most important finds ever His heart beats faster when he thinks about these flying islands Do they have plants and animals that people have never seen before Are they full of diamonds or old secrets His thoughts are full of possibilities and he chooses to look into these islands to find out what they are hiding Professor Elm chooses to put together a group of explorers because he knows that a quest this big needs more than just his own knowledge Each team member would need certain skills to stay alive and find their way around these uncharted parts of the sky He thinks about Lily a young very smart guide who can read maps and compasses better than anyone else Lily is a great choice for this trip because she has always been interested in new things and exploring the unknown Then there s Captain Hawk a skilled pilot who has been flying in bad weather for a long time Captain Hawk is known for being able to keep calm and think straight when things get tough His knowledge would be very helpful as they flew their Starling through uncharted territory and any possibly dangerous weather that might be around these mysterious sky islands Professor Elm tells his group what he plans to do and what he has found Lily and Captain Hawk are both excited and amazed by the idea of finding new worlds right above them They quickly decide to join the trip because they are interested and love the thrill of the unknown As a group they start getting ready for the trip by going over their gear looking at star charts and making a plan for how they will get there On the day of leaving there is a clear mix of worry and excitement Their strong and reliable Starling has everything they need for their trip like food safety gear navigational tools and of course Professor Elm s reliable telescope As the team gets on everyone feels both the unbridled excitement of the trip ahead and the weight of what they don t know The group sees the ground disappear under them as the Starling takes off and soars higher and higher into the sky

The sky is so big that it goes on forever The air up here is cool and crisp and it feels great to be free Professor Elm sets up his telescope in the cockpit because he can't wait to see the flying islands for the first time The team is keeping an eye out for any sign of the strange shapes that Professor Elm saw through his telescope This makes the trip to the sky islands both exciting and nerve wracking After traveling for hours Lily's sharp eyes pick out something far away It's one of the sky islands and it looks just like Professor Elm said it would a big green flying mass that can be seen from far away You can feel the excitement in the Starling as they get closer and get ready to land and explore the unknown This is just the start of a wonderful journey that will undoubtedly be full of obstacles new experiences and learning The team knows that on each island they visit they will find secrets that will change how they see the world above and below ground This is the beginning of a trip that neither of them will soon forget It will be full of the thrill of discovery and the bond of friendship that will grow stronger as they face new challenges together

Chapter 2 The First Climb

In the exciting adventure Sky Islands Professor Elm Lily a young guide and Captain Hawk an experienced pilot set out on their first trip to the mysterious floating islands with a group of skilled explorers Their plane the Starling isn't a regular jet it's full of cool sensors and tools that were made just for studying these fantastic sky islands Strong binoculars environmental sensors for checking the air and weather and safe harnesses are all in the kit so you can explore the floating scenery There is a mix of tense expectation and excitement during the first climb The Starling's engines start to roar and the ground slowly gives way under them Above them a big blue sky opens up As they fly higher they break through a layer of fluffy clouds The clouds then part showing what will surely be their first stop a beautiful island with woods that floats eerily in the sky This island doesn't make any sense at all with its wide views and lush green forests that look like they're floating in the air with no clear support The team needs a moment to gather their thoughts because they are seeing something very interesting and strange Captain Hawk carefully brings the Starling closer as he gets ready to land on a clear flat part of the island When the crew gets off the ship after a smooth landing they are amazed by how much life is around them There are sounds of birds singing and leaves moving in the fresh air Moss is soft on the ground and there are brightly colored flowers all over it that look like they are glowing from the inside Above the tall trees block the sun so that the forest floor has warm shaded patterns made by it The searchers are shocked by the strange plants they find they have never seen anything like them on the ground The leaves of some of the plants are shiny and the flowers of others give off soft shimmering light As they go deeper into the bush they come across some strange and interesting animals Small furry animals run across the forest floor interested in the newcomers Birds with bright feathers sing beautiful songs The group walks slowly so as not to upset the natural balance of this floating paradise Professor Elm who is very interested in science gathers and paints strange plants and animals Lily carefully plans their route with her compass and map to make sure they don't get lost and see as much as possible To make sure they can leave safely when the time comes Captain Hawk keeps an eye on the weather and the Starling The friends find a small creek in the woods The

water is so clean it's like glass. They put the cool, tasty water in their bottles and are thankful that nature provided for them. The sound of water running adds to the peaceful atmosphere of the island, making it seem like it is in a different world. As they look around, they find what looks like the remains of an ancient civilization: stone buildings that have been eaten by the trees and are now covered in moss and vines. These artifacts show that these sky islands used to be home to people who were able to live in this higher environment, giving the history of these islands a mysterious feel. This first island adds to the mystery of the sky islands and also gives you a lot of different feelings. The islands float, but how? Were they ever inhabited, or did prehistoric peoples formerly live there? What happened to them? The explorers are inquisitive, and each new discovery increases their hunger for information. The explorers return to the Starling at the conclusion of the day, their minds racing with everything they've learned. They go, leaving the floating island behind, but they carry memories and information that will aid them in their future journeys. This first trip into the unknown has been a major success, piquing interest and setting the door for further research into the fascinating sky islands.

War God in Starry Sky Nan Shanyouzhong, 2020-01-05

Chen Xingtian, the Supreme Elder of the ancient Star Gate. One day, Chen Xingtian suddenly felt that he was about to break through. He wanted to go into seclusion and have a breakthrough. However, who would've thought that someone would interrupt them at the critical moment of their breakthrough. In the end, the fierce battle between Chen Xingtian and his opponent accidentally brought him to this moment, and the Possession landed on the body of a youth who was also called Chen Xingtian. After Chen Xingtian understood the environment he was in, he began to adapt himself to this world. At the same time, he began to practice cultivation anew, striving to reach the same or even higher level as before. In modern times, because of various reasons, Chen Xingtian would always make enemies with others. He first provoked the Venomous Serpent Gang, but he was eventually destroyed by Chen Xingtian. Afterwards, because of his alchemy skills, he was targeted by a few sects. In the end, under the pressure from those sects, Chen Xingtian's power increased by leaps and bounds, and his cultivation increased by leaps and bounds. Soon, those sects no longer dared to offend Chen Xingtian. However, perhaps it was due to Chen Xingtian being careless and letting Zhang Cheng go, causing him to fall in love with the people of the island and attempting to kill Chen Xingtian's woman. Fortunately, Chen Xingtian had made it in time to save his woman. However, Chen Xingtian was also provoked by the island nation's people and led them to the island nation. However, Chen Xingtian's movements were too big, startling some of the island's hidden experts. In the end, under the pressure of these experts, Chen Xingtian's cultivation advanced by leaps and bounds. In the end, the Island Country sent out their people to kill Chen Xingtian. Luckily, Chen Xingtian obtained the inheritance of the ancient Great God, which was why he was able to kill the Occult Snake. However, in the end, when Chen Xingtian went through heavenly tribulation, he was still messed up by the people of the island. In the end, Chen Xingtian was brought to a new world by the Heavenly Tribulation.
