Australia's Bid For The Atomic Bomb Reynolds, Wayne,1997-02-11 This very important work is a fundamental rewriting of Australian history from 1943 to 1968 It argues that after World War II Australian defence policy was premised on Joint nuclear weapons development with the United Kingdom and that while this endeavour failed it shaped domestic and foreign policy until the end of the 1950s Nuclear weapons have traditionally been seen as American and British concerns and various official histories have held that the development of rockets and atomic weapon testing were essentially British exercises But author Wayne Reynolds reveals an entirely new perspective on Australia s role in these events Australia s Bid for the Atomic Bomb examines the implications of this for major social political and security issues and developments in Australia s recent history This work will arouse considerable media interest and will appeal to anyone interested in Australia s political and military history

bloomsburycollections.com *Water Politics in the Murray-Darling Basin* Daniel Connell, 2007 In January 2007 the Australian Prime Minister John Howard announced a 10 billion plan to reform rural water management Most of the effort will focus on the Murray Darling Basin In this book Daniel Connell explains why there is a crisis in the Murray Darling He highlights the disastrous consequences of a century of fitful reluctant co operation between the six governments responsible for the region Connell argues that a new institutional system is essential but a Commonwealth takeover is not the best answer Instead the Commonwealth government should use its constitutional and financial power to force the States to adopt national policies and stick to them whatever the local politics The States would continue to play a substantial role but the controls would be tighter the framework more comprehensive He also shows how the National Water Initiative the great blueprint for water reform has stalled with many of its most important recommendations ignored So far the public debate about the future of the Murray Darling Basin has concentrated on new technical projects and increased water trading Connell argues that unless institutional change is given priority hundreds of millions of dollars of annual investment will be frittered away and the crisis will continue *Migrant Men* Mike Donaldson, Raymond Hibbins, Richard Howson, Bob Pease, 2009-09-11 This edited volume contributes an important collection of chapters to the growing theoretical and empirical work being undertaken at the international level on men and migration The chapters presented here focus on what we might call migratory masculinities the experiences men have of masculinity upon immigration into another national ethnic and cultural context How do these men re construct their conceptions of masculinity Where are the points of tension ambivalence or assimilation in this process Featuring interviews and data drawn from migrants working and living in Australia this book explores how the gender identity of men from non English speaking backgrounds is influenced by the experiences of migration and settlement in an English speaking culture across various cultural spheres such as work leisure family life and religion *Beyond the Policy Cycle* HK Colebatch, 2020-07-29 It is common and comforting to see public policy as the result of careful craft work by expert officials who recognise a problem identify and evaluate possible responses and choose the most appropriate strategy the policy cycle The reality is more complex and challenging Many hands are involved in policy making not all of them official they are not all addressing the same problem they have different ideas about what would be a good answer and the process is rarely brought to a neat close by a clear decision The development of policy can resemble firefighting with players rushing to react to demands for action in areas that are already in crisis or it can be a less frenetic process of weaving as they search for an outcome which reflects the concerns of all the stakeholders Effective participation in the policy process calls for a clear understanding of this complexity and ambiguity *Beyond the Policy Cycle* sets policy in this wider context It recognises that participants in the process are drawn from both government and diverse areas outside government and looks not at a model process but rather at how the game is played how issues rise to prominence who is actually doing the work and exactly what it is that they are doing With detailed Australian case studies

and examining the implications of recent trends in policy such as the outsourcing of service provision Beyond the Policy Cycle offers students and practitioners a critical and engaged look at the activity of policy that reflects the reality of the policy experience

The Environment in Anthropology Nora Haenn, Richard Wilk, 2006 Presenting ecology and current environmental studies from an anthropological point of view this book gives readers a strong intellectual foundation as well as offering practical tools for solving environmental problems

Plains of Promise, Rivers of Destiny Joseph Michael Powell, 1991 Analysis of the role of water management in the development of Queensland after its separation from NSW The book is divided into four chronological parts each beginning with a discussion of general background issues The author is a prolific and well known writer and lecturer in human geography

'Now is the Psychological Moment' Stephen Wilks, 2020-10-12 Earle Christmas Grafton Page 1880 1961 surgeon Country Party leader treasurer and prime minister was perhaps the most extraordinary visionary to hold high public office in twentieth century Australia Over decades he made determined efforts to seize the psychological moment and thereby realise his vision of a decentralised regionalised and rationally ordered nation Page s unique dreaming of a very different Australia encompassed new states hydroelectricity economic planning cooperative federalism and rural universities His story casts light on the wider place in history of visions of national development He was Australia s most important advocate of developmentalism the important yet little studied stream of thought that assumes that governments can lead the nation to realise its economic potential His audacious synthesis of ideas delineated and stretched the Australian political imagination Page s rich career confirms that Australia has long inspired popular ideals of national development but also suggests that their practical implementation was increasingly challenged during the twentieth century Effervescent intelligent and somewhat eccentric Page was one of Australia s great optimists Few Australian leaders who stood for so much have since been so neglected
