Systems of Social Action Giovanni Rossi, 2025 Systems of Social Action delves into the intricate world of social interactions through the lens of everyday requests showing how our simplest ordinary actions are tied to complex social dynamics It demonstrates that requesting is more than just asking it is a nuanced form of social influence that shapes and maintains relationships Through detailed analyses of real life interactions within Italian communities author Giovanni Rossi explores various strategies for making requests from just gesturing at an object to telling or asking someone to do something to expressing a collective need Finally

Rossi proposes that these strategies constitute a system of social action that subtly governs human behavior Progress in Artificial Intelligence — IBERAMIA 98 Helder Coelho, 2003-07-31 When in October 1996 in Cholula Puebla Mexico I took charge of organizing the scientific program of the next Ibero American Congress on Artificial Intelligence IBERAMIA 98 I bet on a couple of ideas First I adopted the spirit of the Portuguese adventurers to get the Sixth Congress on a truly international track In order to attain this aim I needed to convince everybody that the Ibero American AI community had improved over the years and attained a very good level in what concerns individuals Second I brought my colleagues beside me so that we were able to collect sufficient excellent papers without destroying the pioneering spirit of those who first inaugurated the Congress Getting together to find out what is in progress in the vast region in which Latin languages Portuguese and Spanish are spoken attracting others to exchange ideas with us and by doing this advancing AI in general is a risky undertaking This book is the result and it sets a new standard to be discussed by all of us IBERAMIA was established in 1988 Barcelona by three Ibero American AI Associations AEPIA from Spain SMIA from Mexico and APPIA from Portugal after a first meeting in Morelia Mexico in 1986 of SMIA and AEPIA
