Thalatta Der Weg Der Griechen Zum Meer:

Zwischen Land und Meer Thorsten Feldbusch, 2003 **Thalatta** Albin Lesky, 1947 The Sea in the Greek Imagination Marie-Claire Beaulieu, 2016 In *The Sea in the Greek Imagination* Marie Claire Beaulieu unifies the multifarious representations of the sea and sea crossing in Greek myth and imagery by positing the sea as a cosmological boundary between the worlds of the living the dead and the gods or between reality and imagination **The Danubian Lands between the Black, Aegean and Adriatic Seas** Gocha R. Tsetskhladze, Alexandru Avram, James Hargrave, 2015-11-30 Proceedings of the Fifth International Congress on Black Sea Antiquities Belgrade 17-21 September 2013 The theme of the congress included archaeological historical linguistic anthropological geographical and other investigations across the huge area through which the Argonauts passed in seeking to return from Colchis The Godman and the Sea Michael J. Thate, 2019-11-01 If scholars no longer necessarily find the essence and origins of what came to be known as Christianity in the personality of a historical figure known as Jesus of Nazareth it nevertheless remains the case that the study of early Christianity is dominated by an assumption of the force of Jesus's personality on divergent communities In *The Godman and the Sea* Michael J Thate shifts the terms of this study by focusing on the Gospel of Mark which ends when Mary Magdalene Mary the mother of James and Salome discover a few days after the crucifixion that Jesus's tomb has been opened but the corpse is not there Unlike the other gospels Mark does not include the resurrection portraying instead loss puzzlement and despair in the face of the empty tomb Reading Mark's Gospel as an exemplary text Thate examines what he considers to be retellings of other traumatic experiences the stories of Jesus's exorcising demons out of a man and into a herd of swine his stilling of the storm and his walking on the water Drawing widely on a diverse set of resources that include the canon of western fiction classical literature the psychological study of trauma phenomenological philosophy the new materialism psychoanalytic theory poststructural philosophy and Hebrew Bible scholarship as well as the expected catalog of New Testament tools of biblical criticism in general and Markan scholarship in particular *The Godman and the Sea* is an experimental reading of the Gospel of Mark and the social force of the sea within its traumatized world More fundamentally however it attempts to position this reading as a story of trauma ecstasy and what has become through the ruins of past pain Oaths and Swearing in Ancient Greece Alan H. Sommerstein, Isabelle C. Torrance, 2014-09-04 The oath was an institution of fundamental importance across a wide range of social interactions throughout the ancient Greek world making a crucial contribution to social stability and harmony yet there has been no comprehensive dedicated scholarly study of the subject for over a century This volume of a two volume study explores the nature of oaths as Greeks perceived it the ways in which they were used and sometimes abused in Greek life and literature and their inherent binding power **Economic and Social History of Ancient Greece** M. M. Austin, P. Vidal-Naquet, 1977 This book is an English version of the book originally published in French under the title of *Economies et sociétés en Grèce ancienne* The opportunity has been taken to correct

some errors update bibliographical references add a few passage to the selection of ancient sources and improve the material presentation in several respects But otherwise this remains substantially the same book as the original French version The book is aimed in the first place at an undergraduate audience though it is hoped that it will also be of interest to a wiser non specialist readership interested in the history and civilization of Ancient Greece It attempts to meet a need well known to all those who have to teach Greek history in universities Students long dissatisfied with a purely political approach to Greek history ask for more economic and social history One then has to answer tand this book is a very modest attempt at an answer that neither the economic nor the social category had in the Greek city the same independent status they now enjoy The book takes its starting point in this ambiguity it accepts the challenge but rejects the formulation of the question Anyone who has been asked to explain once and for all the role played by slaves in social conflicts in the Greek world will understand what we mean Publisher description

Security John T. Hamilton, 2013-06-21 From national security and social security to homeland and cyber security security has become one of the most overused words in culture and politics today Yet it also remains one of the most undefined What exactly are we talking about when we talk about security In this original and timely book John Hamilton examines the discursive versatility and semantic vagueness of security both in current and historical usage Adopting a philological approach he explores the fundamental ambiguity of this word which denotes the removal of concern or care and therefore implies a condition that is either carefree or careless Spanning texts from ancient Greek poetry to Roman Stoicism from Augustine and Luther to Machiavelli and Hobbes from Kant and Nietzsche to Heidegger and Carl Schmitt Hamilton analyzes formulations of security that involve both safety and negligence confidence and complacency certitude and ignorance Does security instill more fear than it assuages Is a security purchased with freedom or human rights morally viable How do security projects inform our expectations desires and anxieties And how does the will to security relate to human finitude Although the book makes clear that security has always been a major preoccupation of humanity it also suggests that contemporary panics about security and the related desire to achieve perfect safety carry their own very significant risks

Herodotus: Volume 2 Rosaria Vignolo Munson, 2013-08-29 This second volume s selected essays look at the principles of Herodotus research concerning the physical world in the light of traditional myth and the science of his times and deal with the connections between travelling and storytelling culture and gender Hellenic and barbarian religions and memory and ethnicity

Luke's Literary Achievement Christopher Mark Tuckett, 1995-01-01 The essays in this collection come from a research symposium involving the universities of Manchester and Lausanne The essays cover a wide range of mutually enriching approaches to the study of the Lukan writings Aspects considered include Luke s use of the term Son of Man his use of scripture his literary achievements and the issue of godfearers in Acts
