The 1930s And 1940s Pain And Pleasure

Henderikus J Stam

The 1930s And 1940s Pain And Pleasure:

The Historical and Philosophical Context of Rational Psychotherapy Windy Dryden, Arthur Still, 2018-03-22 This book brings together the papers written by the authors over the last fifteen years on the historical and philosophical foundations of Albert Ellis Rational Psychotherapy later Rational Emotive Behavior Therapy REBT and its relationship to Stoicism especially the later practical form represented by Epictetus It goes beneath the well known similarities between Stoic spiritual exercises and modern psychotherapy to look at the cause of these similarities These lie in the conceptual continuities that connect the Stoics and other ancient philosophies with the modern cultural framework underlying psychotherapy

Postmodern Moments in Modern Economics David F. Ruccio, Jack Amariglio, 2016-06-28 Of all the areas of contemporary thought economics seems the most resistant to the destabilizing effects of postmodernism Yet David Ruccio and Jack Amariglio argue that one can detect within the diverse schools of thought that comprise the discipline of economics moments that defy the modernist ideas to which many economists and methodologists remain wedded This is the first book to document the existence and to explore the implications of the postmodern moments in modern economics Ruccio and Amariglio begin with a powerful argument for the general relevance of postmodernism to contemporary economic thought They then conduct a series of case studies in six key areas of economics From the idea of the multiple self and notions of uncertainty and information through market anomalies and competing concepts of value to analytical distinctions based on gender and academic standing economics is revealed as defying the modernist frame of a singular science The authors conclude by showing how economic theory would change if the postmodern elements were allowed to flourish A work of daring analysis sure to be vigorously debated *Postmodern Moments in Modern Economics* is both accessible and relevant to all readers concerned about the modernist straightjacket that has been imposed on the way economics is thought about and practiced in the world today

The Cambridge World History of Sexualities: Volume 4, Modern Sexualities Merry E. Wiesner-Hanks, Mathew Kuefler, 2024-04-30 Volume IV examines the intersections of modernity and human sexuality through the forces ideas and events that have shaped the modern world Through eighteen chapters this volume examines connections between sexuality and the defining forces of modern global history including capitalism colonialism migration consumerism and war sexuality in modern literature and print media sexuality in dictatorships and democracies and cultural changes such as sex education and the sexual revolution The volume ends with discussions of the difficult issues we in the modern world continue to face such as restrictions on reproductive rights sex tourism STDs and AIDS sex trafficking domestic violence and illiberal attacks on sexuality
