Hough,2014-05-13 Karen Hough doesn't want you to be perfect. People fear public speaking because they worry about having to conform to all sorts of handed down rules that tie them up in knots and put their audiences to sleep. It's authenticity and passion that win people over, she says, not polish. But you can't be authentic if you're following guidelines that drain the life and personality out of your presentation. Hough debunks over a dozen myths about presenting to make it more fun and natural for everyone. She explains how practicing in front of a mirror makes you worse, why you should never end with questions, and much more. She includes true stories of people who not only were able to become great presenters by being bad but actually came to enjoy it. Like them by following Karen Hough's wise and witty advice, you'll be able to tear up the old rules and embrace and develop your own style. You'll be freed to be a living, breathing, occasionally clumsy human being whose enthusiasm is powerful and infectious. *Public Speaking and Presentations for Dummies* Malcolm Kushner, Rob Yeung,2011-02-14 Includes memorable ways to start and finish your speech with a flourish. American Magazine, 1919 **Angels Town** Ralph Cintron,1998-11-01 As issues of power and social order loom large in Angelstown, Ralph Cintron shows how eruptions on the margins of the community are emblematic of a deeper disorder. In their language and images, the members of a Latino community in a mid-sized American city create self-respect under conditions of disrespect. Cintron's innovative ethnography offers a beautiful portrait of a struggling Mexican American community and shows how people, including ethnographers, make sense of their lives through cultural forms. *Speech Freedom on Campus* Joseph Russomanno,2020-11-17 Traditionally, the university or college is thought to be the ultimate location for the discovery and sharing of knowledge. After all, on these campuses are some of the great minds across all fields, as well as students who are not only eager to learn but who often contribute to our shared wisdom. For those ideals to be achieved, however, ideas require access to some kind of virtual marketplace from which people can sample and consider them, discuss and debate them. Restricting the expression of those ideas for whatever reason is the enemy of not only this process but also of knowledge discovery. Speech freedom on our college and university campuses, like everywhere else, is fragile. There are those who wish to suppress it more often than not when the words express ideas, opinions, and even facts that conflict with their beliefs. Why is this effort so completely at odds with the foundational values of this country? This topic, explored in *Speech Freedom on Campus: Past, Present, and Future*, is multi-layered, and its analysis is best accomplished through multiple perspectives. Joseph Russomanno's edited collection does precisely that, utilizing 10 different scholars to
