The Hero In The Earthly City A Reading Of Beowulf Medieval Renaissance Texts Studies:

The Hero in the Earthly City Bernard F. Huppé, 1984 *On the Aesthetics of Beowulf and Other Old English Poems* John M. Hill, 2010-01-01 What makes one Anglo Saxon poem better than another Why does Beowulf still have the power to move us after so many centuries What might have been aesthetically pleasing to Old English readers and writers of poetry While there is an apparent consensus by scholars on a core of poems considered to be exceptional literary achievements Beowulf Judith the Vercelli book there has been little systematic investigation of the basis for these appraisals With new essays on rhetoric wordplay meter structure irony form psychology ethos and reader response the contributors to this collection aim to find objective aesthetic qualities in Anglo Saxon poetry Posing questions of quality and beauty as discoverable in artefacts On the Aesthetics of Beowulf and Other Old English Poems significantly advances our understanding not only of aesthetics and Old English poetry but also of Old English attitudes towards literature as an art form Beowulf Harold Bloom, 2008 Discusses the characters plot and writing of the epic poem involving the legendary hero Beowulf and his battle with the creature Grendel **The Origins of Beowulf** Richard North, 2007-02-08 This book suggests that the Old English epic Beowulf was composed in the winter of 826-7 as a requiem for King Beornwulf of Mercia on behalf of Wiglaf the ealdorman who succeeded him The place of composition is given as the minster of Breedon on the Hill in Leicestershire now Derbyshire and the poet is named as the abbot Eanmund As well as pinpointing the poem's place and date of composition Richard North raises some old questions relating to the poet's influences from Vergil and from living Danes Norse analogues are discussed in order to identify how the poet changed his heroic sources while four episodes from Beowulf are shown to be reworked from passages in Vergil's Aeneid One chapter assesses how the poem's Latin sources might correspond with what is known of Breedon's now lost library while another seeks to explain Danish mythology in Beowulf by arguing that Breedon hosted a meeting with Danish Vikings in 809 This fascinating and challenging new study combines careful detective work with meticulous literary analysis to form a case that no future investigation will be able to ignore **The Four Funerals in Beowulf** Gale R. Owen-Crocker, 2000 It is well known that the old English poem Beowulf begins and ends with funerals and includes the third as a digression part way through Now for the first time a fourth funeral hitherto disguised as poetic imagery is identified from archaeological evidence A detailed analysis of the four funerals establishes their thematic and structural importance revealing them as pillars around which the poem is built The poet is revealed as a literate antiquarian of considerable structural skill one who explores feminist issues plays with numbers and enjoys a pun who establishes an ideal then probes its darker side The author's unique knowledge of Anglo Saxon culture provides constant surprises and enlightenment This book will be invaluable to all students of the poem for its fresh and detailed reading its identification of a coherent structure and its establishment of the integrity of the surviving texts **Textual Reception and Cultural Debate in Medieval English Studies** María José Esteve Ramos, 2018-11-27 This book is a rigorous and broad update of the state of

the art in the investigation of Old and Middle English The volume written by some of the best known experts in this field addresses different issues such as etymology manuscript sources and medieval literary traditions among others Its contents will be particularly useful for those interested in the different perspectives of current research in the field exhorting the reader to consider the relationship of the medieval textual heritage and language with both its contemporary medieval audience and the readers of the 21st century This book will appeal to specialists in Old and Middle English language and literature and also to university students In contrast with monographs which focus on a specific aspect these essays allow a broader panorama of what is being done and the approaches currently being used

Beowulf, 2010-07-05 The name Beowulf lingers in our collective memory although today fewer people have heard the tale of the Germanic hero's fight with Grendel the dreadful Monster of the Mere as recounted in this Anglo Saxon epic This edition of Beowulf makes the poem more accessible than ever before Ruth Lehmann's imitative translation is the only one available that preserves both the story line of the poem and the alliterative versification of the Anglo Saxon original The characteristic features of Anglo Saxon poetry alliterative verse with first syllable stress flexible word order and inflectional endings have largely disappeared in Modern English creating special problems for the translator Indeed many other translations of Beowulf currently available are either in prose or in some modern poetic form Dr Lehmann's translation alone conveys the feel of the original its rhythm and sound the powerful directness of the Germanic vocabulary In her introduction Dr Lehmann gives a succinct summary of the poem's plot touching on the important themes of obligation and loyalty of family feuds unforgivable crimes the necessity of revenge and the internal and external struggles of the Scandinavian tribes She also describes the translation process in some detail stating the guiding principles she used and the inevitable compromises that were sometimes necessary

The Changing Fictions of Masculinity David Rosen, 1993 In a sensitive and provocative study of six great works of British literature David Rosen traces the evolution of masculinity inviting readers to contemplate the shifting joys and sorrows men have experienced throughout the last millennium and the changing but constant tensions between their lives and ideals Focusing on Beowulf Sir Gawain and the Green Knight Hamlet Paradise Lost Hard Times and Sons and Lovers Rosen shows how the actions of heroes fail to resolve tensions between masculine ideals and male experiences

By Weapons Made Worthy Jos Bazelmans, 1999 In this book Jos Bazelmans offers a new perspective on the relationship between lord and retainer in early medieval society This perspective goes beyond established politico economic interpretations and aims for an interpretation of this relationship in ritual cosmological terms Drawing on recent developments within French structuralist anthropology and the anthropology of gift exchange Bazelmans develops a new model of early medieval socio political structure as represented in Old English Beowulf which explicitly deals with exchange relations between the living and the supernatural the commensurability of subject and object in gift exchange and the whole set of interdependent life cycle rituals of lords and their warrior followers The value of gifts is considered to be determined not only by their function within a

competitive game about prestige status and power but also by its equivalence with a constituent. The value of the gift is fundamental to the noble person and develops through a man's life time. It is ultimately of a supernatural origin. The model enables us to understand certain acts at Beowulf's funeral pyre which at first sight appear to be no more than an ethnographic curiosity. Beowulf 3111b-3114a. The warrior's contributions to his pyre form the concluding part of a grand ritual undertaking in which society as a whole is involved and in which the constitution of the noble person and the disarticulation of that person at his death is realized. This ritual undertaking goes beyond the politico-economic concerns of the participants which are central to established power-based models of early medieval societal structure. The volume includes an extensive overview of the anthropology of gift exchange. *Beowulf* Ruth P.M. Lehmann, 1988. A modern translation of the Anglo-Saxon poem attempts to portray the alliteration and rhythm of the original.

Landscape of Desire Gillian R. Overing, 1994. An extraordinary rich study of the power of place in the Northern medieval world by two medievalists who are also competent geographers in that they do fieldwork that is always informed by theory and they demonstrate exceptional sensitivity to place's double nature: compelling presence and elusiveness to interpretation. Yi-Fu Tuan, Department of Geography, University of Wisconsin at Madison.

Heroic Sagas and Ballads Stephen A. Mitchell, 2018-10-18. In *Heroic Sagas and Ballads* Stephen A. Mitchell examines the world of the medieval Icelandic legendary sagas and their legacy in Scandinavia. Central to his argument is the view that these heroic texts should be studied in the light of the later Icelandic Middle Ages rather than that of the Viking age, although the stories, the tellers and the audiences are clearly concerned with exactly this period of Scandinavian history. Viewing these sagas as the products of highly diverse forms of inspiration and creation, some oral, some written, Mitchell explores their aesthetic and social dimensions, demonstrating their function both as entertainment and as a literature with a more serious purpose, one with deep roots in Nordic literary consciousness. The traditions that these sagas relate possessed an importance beyond the temporal and geographical confines of medieval Iceland, and *Heroic Sagas and Ballads* considers the process by which these heroic materials were subsequently recast as metrical romances in Iceland and as ballads throughout the rest of Scandinavia. It is ultimately concerned with much more than just those stories that inspired such modern writers as Richard Wagner and H. Rider Haggard; its anthropological and folkloric approach to the legendary sagas shows how the extraliterary dimensions of medieval texts can be explored. *Heroic Sagas and Ballads* addresses issues of central importance to medievalists, folklorists, comparatists, Scandinavianists and students of the ballad.

Rituals of Power Frans Theuvs, Janet Nelson, 2021-10-01. 13 papers by 16 leading archaeologists and historians of late antiquity and the early middle ages break new ground in their discussion, analysis and criticism of present interpretations of early medieval rituals and their material correlates. Some deal with rituals relating to death, life cycles and the circulation in other contexts of objects otherwise used in the burial ritual. Others are concerned with the symbolism and ideology of royal power, the formation of a political ideology east of the Rhine from the mid 5th century.

onwards and penance rituals in relation to Carolingian episcopal discourse on ecclesiastical power and morale All deal with the creation of new identities cultures norms and values and their expression in new rituals and ideas from the period of the Great Migrations through the Later Roman Empire down to the society of Beowulf and the later Carolingians **The Literature of Unlikeness** Charles Dahlberg,1988 **Between Medieval Men** David Clark,2009-02-26 Between Medieval Men argues for the importance of synoptically examining the whole range of same sex relations in the Anglo Saxon period revisiting well known texts and issues as well as material often considered marginal from a radically different perspective The introductory chapters first lay out the premises underlying the book and its critical context then emphasise the need to avoid modern cultural assumptions about both male female and male male relationships and underline the paramount place of homosocial bonds in Old English literature Part II then investigates the construction of and attitudes to same sex acts and identities in ethnographic penitential and theological texts ranging widely throughout the Old English corpus and drawing on Classical Medieval Latin and Old Norse material Part III expands the focus to homosocial bonds in Old English literature in order to explore the range of associations for same sex intimacy and their representation in literary texts such as Genesis A Beowulf The Battle of Maldon The Dream of the Rood The Phoenix and Ifric s Lives of Saints During the course of the book s argument David Clark uncovers several under researched issues and suggests fruitful approaches for their investigation He concludes that in omitting to ask certain questions of Anglo Saxon material in being too willing to accept the status quo indicated by the extant corpus in uncritically importing invisible because normative heterosexist assumptions in our reading we risk misrepresenting the diversity and complexity that a more nuanced approach to issues of gender and sexuality suggests may be more genuinely characteristic of the period **The Inner Beowulf** Yvette Kisor,2001 Rereading Beowulf Edward Burroughs Irving,1989 In this work Edward Irving accepts Beowulf as a most distinguished descendant of a long and skillful oral tradition Only by understanding how rich and powerful meaning can be conveyed in an oral derived style he asserts can one truly understand this poem **Beowulf Scholarship** Robert J. Hasenfratz,1993 **The Structure of Texts** Udo Fries,1987 English Studies in Canada ,1987
