Hypnotism Albert Moll,1897 **Hypnotismus** **The Uncanny Rise of Medical Hypnotism, 1888-1914** Gordon David Lyle Bates,2023-12-02 This book explores the improbable rise of medical hypnotism in Victorian Britain and its subsequent assimilation and neglect It follows the careers of the New Hypnotists Charles Lloyd Tuckey John Milne Bramwell George Kingsbury and Robert Felkin This loosely knit group all trained with the Suggestion School of Nancy and published books on hypnotism They had to confront the many public and medical prejudices against the trance state which had persisted after the scandalous disgrace of John Elliotson and medical mesmerism fifty years before Hypnotism was a highly contested technology and in the 1890s the debates about safety and utility were fought in the national newspapers as well as the medical journals The new hypnotists took on the might of the medical institutions personified by Ernest Hart Editor of the British Medical Journal However their timing was propitious as the rise of faith healing forced the medical profession to confront the non physical therapeutic aspects of the doctor patient relationship The hypnotic discourse was shaped by these developments but also by the fascination of the general public novelists occultists psychic investigators educationalists and spiritualists in the myriad possibilities of the trance state Despite growing interest in the prehistory of British psychology and talking therapies and the recent challenges to the primacy of Freudian histories there are few accounts of the development of British eclectic therapy This book uses the New Hypnotists as a lens to examine Victorian medicine and society exploring their role in establishing the term psychotherapy and legitimising medical hypnotism a precursor of psychological therapies

Hypnotism, Mesmerism and the New Witchcraft Ernest Hart,1896 **Hypnotism and Hypnotic Suggestion** E. Virgil Neal,Charles S. Clark,Charles Samuel Clark,1900 *Complete Hypnotism Mesmerism Mind-Reading and Spiritualism - The Original Classic Edition* Emereo Pty Limited,2012-01-01 Complete Hypnotism Mesmerism Mind Reading and Spiritualism by A Alpheus The Original Classic Edition Finally available a high quality book of the original classic edition This is a new and freshly published edition of this culturally important work which is now at last again available to you Enjoy this classic work today These selected paragraphs distill the contents and give you a quick look inside Soon after this Burdin a member of the Academy offered a prize of 3 000 francs to any one who would read the number of a bank note or the like with his eyes bandaged under certain fixed conditions but it was never awarded though many claimed it and there has been considerable evidence that persons in the hypnotic state have sometimes remarkable clairvoyant powers It may be stated that most English and American operators fail

to see any distinction between magnetism and hypnotism and suppose that the effect of passes etc as used by Mesmer is in its way as much physical as the method of producing hypnotism by concentrating the gaze of the subject on a bright object or the like I hope to be able to prove what I firmly hold both from my own personal experience and experiment as I have already related in the Nineteenth Century that there is no such thing as a potent mesmeric influence no such power resident in any one person more than another that a glass of water a tree a stick a penny post letter or a lime light can mesmerize as effectually as can any individual Luys to the effect that the physical magnet and electricity may affect persons in the hypnotic state and that certain drugs in sealed tubes placed upon the patients neck during the condition of hypnosis will produce the same effects which those drugs would produce if taken internally or as the nature of the drugs would seem to call for if imbibed in a more complete fashion This definition follows An abnormal state into which some persons may be thrown either by a voluntary act of their own such as gazing continuously with fixed attention on some bright object held close to the eyes or by the exercise of another persons will characterized by suspension of the will and consequent obedience to the promptings of suggestions from without
