Sir Joseph Banks 1743-1820 A Guide To Biographical And Bibliographical Sources:

Letters Of Sir Joseph Banks, The, A Selection, 1768-1820 Neil Chambers, 2000-11-14 Sir Joseph Banks was man of science of affairs and of letters He circumnavigated the globe with Lieutenant James Cook on H M S Endeavour 1768-1771 taking with him a team of naturalists illustrators and assistants at a personal cost of 10 000 Together they made unprecedented collections of flora and fauna in many of the places H M S Endeavour visited Banks also led the first British scientific expedition to Iceland in 1772 Later he settled in London and assembled an enormous library and herbarium at 32 Soho Square His collections were remarkable both for their size and for the unique material from the Pacific they contained In 1778 Banks was elected President of the Royal Society a position he held for over 41 years the longest anyone has served in that capacity As President he fostered enlightened relations between scientists across Europe throughout a period of conflict and turbulent change He was also Special Director of the Royal Botanic Gardens at Kew which flourished under his control becoming greater than any other Voyages of discovery were mounted with his help to explore new lands to obtain and move plants from one part of the world to another and to further British interests abroad He was also an influential privy councillor and an advisor to George III and successive governments Banks was at the scientific and social centre of Georgian life for more than five decades As such he developed a global network of correspondence using letters to further knowledge and ultimately to shape events in the cause of empire He suggested the possibility of establishing colonies on the east coast of Australia and then he actively supported them for the remainder of his life He has therefore been regarded by some as the Father of Australia Furthermore in the Napoleonic Wars he acted to save the population of Iceland when its trade was seized by the British His views could hardly be avoided on matters of botany or horticulture drainage or agriculture on coinage exploration or science in general Yet he was a warm authoritative writer with a direct flowing prose style His letters make fascinating reading for their variety as well as the insight into his public and private life they provide This selection is made from the remaining 6 000 letters Banks wrote and will introduce many readers to a deeply impressive figure who is rapidly being recognized as one of the great men of his age More details about the Sir Joseph Banks Archive Project can be found at www.nhm.ac.uk/hosted_sites/banks

Reader's Guide to the History of Science Arne Hessenbruch, 2013-12-16 The Reader's Guide to the History of Science looks at the literature of science in some 550 entries on individuals Einstein institutions and disciplines Mathematics general themes Romantic Science and central concepts Paradigm and Fact The history of science is construed widely to include the history of medicine and technology as is reflected in the range of disciplines from which the international team of 200 contributors are drawn

Sir Joseph Banks, Iceland and the North Atlantic 1772-1820 / Journals, Letters and Documents Anna Agnarsdóttir, 2017-01-06 Sir Joseph Banks was one of the great figures of Georgian England best known for participating as naturalist in Cook's Endeavour voyage 1768-71 as a patron of science and as the longest serving President of the Royal Society 1778-1820 This volume brings together all Banks's papers concerning Iceland

and the North Atlantic scattered in repositories in Britain the United States Australia and Denmark and most published here for the first time A detailed introduction places them in historical context **The Indian and Pacific Correspondence of Sir Joseph Banks, 1768-1820, Volume 4** Neil Chambers,2021-11-18 Following his participation in James Cook's circumnavigation in HMS Endeavour 1768-71 Joseph Banks developed an extensive global network of scientists and explorers His correspondence shows how he developed effective working links with the British Admiralty and with the generation of naval officers who sailed after Cook Joseph Banks and the British Museum Neil Chambers,2015-09-30 Concentrating on the explorer and naturalist Joseph Banks 1743-1820 this book explores the early history of collections at the British Museum Taking Banks extraordinary career as its basis it examines the changes that took place during a period of transition that led to collecting on an increasingly global scale *The History and Poetics of Scientific Biography* Thomas Söderqvist,2016-03-03 Biographies of scientists carry an increasingly prominent role in today's publishing climate Traditional historical and sociological accounts of science are complemented by narratives that emphasize the importance of the scientific subject in the production of science Not least is the realization that the role of science in culture is much more accessible when presented through the lives of its practitioners Taken as a genre such biographies play an important role in the public understanding of science In recent years there has been an increasing number of monographs and collections about biography in general and literary biography in particular However biographies of scientists engineers and medical doctors have rarely been the topic of scholarly inquiry As such this volume of essays will be welcomed by those interested in the genre of science biography and who wish to re-examine its history foundational problems and theoretical implications Borrowing approaches and methods from cultural studies and the history philosophy and sociology of science the contributions cover a broad range of subjects periods and locations By presenting such a rich diversity of essays the volume is able to chart the reoccurring conceptual problems and devices that have influenced scientific biographies from classical antiquity to the present day In so doing it provides a compelling overview of the history of the genre suggesting that the different valuations given scientific biography over time have been largely fuelled by vested professional interests *Sir Joseph Banks (1743-1820)* Harold Burnell Carter,1987 Joseph Banks and the English Enlightenment John Gascoigne,2003-12-18 A biography of scientific thinker Joseph Banks placing his work in the context of eighteenth century Britain Edinburgh History of the British and Irish Press, Volume 2 David Finkelstein,2020-01-10 This is a unique collection of essays examining nineteenth century British and Irish newspaper and periodical history during a key period of change and development *William Hunter's World* Nick Pearce,2017-07-05 Despite William Hunter's stature as one of the most important collectors and men of science of the eighteenth century and the fact that his collection is the foundation of Scotland's oldest public museum The Hunterian until now there has been no comprehensive examination in a single volume of all his collections in their diversity This volume restores Hunter to a rightful position of prominence among the medical

men whose research and amassing of specimens transformed our understanding of the natural world and man's position within it. This volume comprises essays by international specialists and are as diverse as Hunter's collections themselves, dealing as they do with material that ranges from medical and scientific specimens to painting prints, books and manuscripts. The first sections focus upon Hunter's own collection and his response to it, while the final section contextualises Hunter within the wider sphere. A special feature of the volume is the inclusion of references to the Hunterian's web pages and on-line databases. These enable searches for items from Hunter's collections both from his museum and library. Locating Hunter's collecting within the broader context of his age and environment, this book provides an original approach to a man and collection whose importance has yet to be comprehensively assessed.

Telling Lives in Science Michael Shortland, Richard R. Yeo, 1996-06-27. Collects together original essays by leading historians of science on the nature and development of scientific biography.

CRC World Dictionary of Palms Umberto Quattrocchi, 2017-08-03. From the Foreword: Umberto Quattrocchi has brought us some amazing and useful works through the various dictionaries that he has compiled. This time it is for two very important plant families, the palms and the cycads, that are synthesized here in these two volumes. Each entry is fascinating, not just for the botany and full nomenclature of the plant species, but for all the associated uses, folklore and interactions with other organisms. These entries are fascinating glimpses of natural history. Botanists, conservationists, ethnobotanists, anthropologists, geographers, bird watchers, naturalists, historians, and those of many other disciplines will find these volumes a most valuable and useful resource. It is the sort of book that will be in frequent use in my library.

Professor Sir Ghilleen Prance FRS VMH, Former Director Royal Botanic Gardens Kew. Following the same format as Umberto Quattrocchi's highly praised and well-used previous works, *The CRC World Dictionary of Palms*, *Common Names*, *Scientific Names*, *Eponyms*, *Synonyms*, and *Etymology*, brings together the vast and scattered literature on palms and cycads to provide better access to information on these economically important plants. Each genus and species has a detailed morphological description and includes a list of synonyms and vernacular names in many languages. Bibliographies accompany each entry, which are comprehensive, up to date, and multi-lingual. The detailed information for every entry on habitats, economic uses, historical and biographical data, botanical exploration, and linguistics will be useful for any library involved with botany, herbal medicine, pharmacognosy, medicinal and natural product chemistry, ecology, ethnobotany, systematics, general plant science, agriculture, or horticulture.

Umberto Quattrocchi is the author of the bestselling *CRC World Dictionary of Plant Names*, winner of the prestigious Hanbury Botanical Garden Award. His most recent multi-volume work, *CRC World Dictionary of Medicinal and Poisonous Plants*, received strong praise as being an unparalleled starting place, a tool of first resort for any thoughtful researcher. Quattrocchi and CRC have delivered a dictionary like no other, a learned finger pointing in the right direction.
