EVOLUTION OF ENGLISH LEXICOGRAPHY James Augustus Henry Murray, 2017-03-10 For the English Dictionary like the English Constitution is the creation of no one man and of no one age it is a growth that has slowly developed itself adown the ages Its beginnings lie far back in times almost prehistoric And these beginnings themselves although the English Dictionary of to day is lineally developed from them were neither Dictionaries nor even English As to their language they were in the first place and principally Latin as to their substance they consisted in large part at least of glosses **The Evolution of English Lexicography** Murray James Augustus Henry Sir, 2016-06-21 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy *The Evolution of English Lexicography* James Augustus Henry Murray, 2014-12-08 alphabetical arrangement one stage further instead of transcribing the A words as they stood he went through them picking out first those that began with Aa then those in Ab then those in Ac and so on to Az Then he did the same with the B words picking out first all in Ba then Be Bi Bl Bo Br Bu By and so exhausting the B words Thus at length in this second recension the Vocabulary stood not yet completely alphabetical but alphabetized as far as the second letter of each word All these stages can actually be seen in four of the most ancient glossaries of English origin that have come down to us known respectively from the libraries to which they now belong as the Leiden the Epinal the Erfurt and the Corpus the last at Corpus Christi College Cambridge **Evolution of English Lexicography** James Augustus Henry Murray, 2019 The Evolution of English Lexicography (Classic Reprint) James Augustus Henry Murray, 2015-07-03 Excerpt from *The Evolution of English Lexicography* When the Act to facilitate the provision of Allotments for the Labouring Classes

was before the House of Commons in 1887 a well known member for a northern constituency asked the Minister who had charge of the measure for a definition of the term allotment which occurred so often in the Bill The Minister somewhat brusquely told his interrogator to look in the Dictionary at which there was according to the newspapers a laugh The member warmly protested that being called upon to consider a measure dealing with things therein called Allotments a term not known to English Law nor explained in the Bill itself he had a right to ask for a definition But the only answer he received was Johnson's Dictionary Johnson's Dictionary at which according to the newspapers the House gave another laugh and the interrogator subsided About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
