The Existential Experience:

The Existential Experience Ralph Harper, 1972 Religion, Reality, and a Good Life Eberhard Herrmann, 2004 Do we have access to reality as it is conceptualized by us Against metaphysical realism and postmodern relativism Eberhard Herrmann develops a pragmatic realism It stresses reality as conceptualized reality while at the same time not ruling out objectivity Contents include The Nature of the Enquiry The Philosophical Problem Formulated Religion and Philosophy Philosophy Reasons for and Against Metaphysical Realism Critique of Semantic Realism Pragmatic Realism Realism from an Internal Perspective Religious Metaphysical Realism Religious Metaphysical Anti Realism Religious Statements as Purported Assertions Christian Theism The Character of Religious Utterances Pragmatic Realism The Function of Religion Two Material Definitions of Truth Perspectives on Views of Life The Role of the Emotions in Our Conception of Reality Emotions and the Conceptualization of Values *Inwardness and Existence* Walter Albert Davis, 1989 A profound challenging wide ranging book back in print for a new generation Inwardness and Existence accomplishes what no book before or after has even approximated it demonstrates with great lucidity and insight the shared philosophical project that animates psychoanalysis Marxism existentialism and Hegelian dialectics Davis roots the reader in the enterprise of questioning what is given and probing beyond what is safe in order to demonstrate that psychoanalytic inquiry Marxist politics existential reflection and dialectical connection all move within the same orbit No one who reads it will ever think about existence itself in the same way again Davis s landmark work will profoundly transform anyone who reads it Todd McGowan author of *The Real Gaze* Film Theory after Lacan The Existential Experience Ralph Harper, 1972-01-01 **The Rainbow of Experiences, Critical Trust, and God** Kai-man Kwan, 2011-08-11 The question of whether religious experience can be trusted has been hotly debated in epistemology and philosophy of religion in recent years Kwan surveys this contemporary philosophical debate provides in depth analysis of the crucial issues and offer arguments for an affirmative answer to the above question Kwan first argues against traditional empiricist epistemologies and defends Swinburne s Principle of Credulity which holds that we should trust our experiences unless there are special considerations to the contrary The Principle of Credulity is renamed the Principle of Critical Trust to highlight the need for balance between trust and criticism and is used as the foundation for a new approach to epistemology the Critical Trust Approach CTA which maintains an emphasis on experience but attempts to break loose of the straitjacket of traditional empiricism by broadening the evidential base of experience Kwan then widens his focus by looking at theistic experience in the contemporary multicultural context **Theology and the Quest for Truth** Mathijs Lamberigts, Lieven Boeve, Terrence Merrigan, 2006 In 2001 three research groups from the field of systematic theology and church history at the Faculty of Theology K U Leuven decided to join forces in an interdisciplinary project entitled Orthodoxy Process and Product The main aim of this project consists of a church historical and systematic theological study of the determination of truth in church and theology Senior and junior scholars from the three groups

agreed to take this theme as the starting point and leading question from which the many research projects they are engaged in could be brought into relationship and as far as possible integrated. Although the question for theological truth already structured the research being conducted in the three groups to a significant degree, joining forces promised the realisation of a surplus value and this both through the gathering of a considerable critical mass in total more than thirty junior and senior researchers and the interdisciplinary design of the project. In this volume a first collection of contributions to this project from a diversity of angles and research subjects is presented. In these contributions scholars from the participating research groups investigate the implications of the overall research question for their particular line of research and research methodologies and suggest how from this specific research the overall question may be refined and elements of answering it can be provided.

The Fellowship of Being John B. O'Malley, 2012-12-06 This book is the fruit of a critical inquiry into the nature and scope of Marcel's philosophic achievement. As such it is concerned less with affixing the appropriate label personalist or existentialist to Marcel's thought and with it making it stick than with discovering the precise impulse and tenor of his philosophy. In the process of that more general inquiry the writer found being forced upon him a central concept as integrating focus of Marcel's philosophic investigations. This concept was that of the person. Gradually it emerged as a concept not only of prime importance for understanding the underlying harmony that pervades Marcel's professedly unsystematic researches but equally as one of profound significance for any philosophy that pretends adequately to account for human experience. Furthermore it seemed that the concept derived much of that significance from its acceptance precisely in the context of Marcel's thought. This feature of Marcel's philosophic writings alone is warrant enough for overcoming any initial embarrassment aroused in Anglo-Saxon breasts by his style. For to speak candidly that style is of a generation and a climate whose tastes little accord with palates trained to a greater astringency. Nor will Marcel's evident and unashamed concern with life and its problems necessarily evoke a warm response in minds accustomed to operate in an atmosphere of stricter and more academic reserve.

On the Future of History Ernst Breisach, 2007-11-01 What does postmodernism mean for the future of history? Can one still write history in postmodernity? To answer questions such as these Ernst Breisach provides the first comprehensive overview of postmodernism and its complex relationship to history and historiography. Placing postmodern theories in their intellectual and historical contexts he shows how they are part of broad developments in Western culture. Breisach sees postmodernism as neither just a fad nor a universal remedy. In clear and concise language he presents and critically evaluates the major views on history held by influential postmodernists such as Derrida, Foucault, Lyotard and the new narrativists. Along the way he introduces to the reader major debates among historians over postmodern theories of evidence, objectivity, meaning and order, truth and the usefulness of history. He also discusses new types of history that have emerged as a consequence of postmodernism, including cultural history, microhistory and new historicism. For anyone concerned with the postmodern challenge to history, both advocates and critics alike, *On the Future of*
