Sirena Selena:

Sirena Selena Mayra Santos-Febres, 2007-04-01 From the author of *Urban Oracles* comes Mayra Santos Febres's *Sirena Selena* somewhere between *The Blue Angel* and *Kiss of the Spider Woman* rises the legend of Sirena Selena the diva siren of the Caribbean whose boleros seduce and torment whoever dares listen Discovered by Martha Divine in the backstreets of San Juan picking over garbage drugged out of his mind and singing boleros that transfix the listener a fifteen year old hustler is transformed into Sirena Selena a diva whose uncanny beauty and irresistible voice will be their ticket to fame and fortune Auditioning for one of the luxury hotels in the Dominican Republic Selena casts her spell over Hugo Graubel one of the hotel's rich investors Graubel is a powerful man in the Republic married with children Silena determined to escape the poverty and abuse she suffered as a child engages Graubel in a long seduction in this mordant intensely lyrical tragicomedy part masque part cabaret about identity class race gender and the hunger and desire to be other things **Relocating Identities in**

Latin American Cultures Elizabeth Montes Garcés, 2007 Literature and other forms of cultural expression provide unprecedented insight into perpetually changing notions of Latin American identity in this fascinating collection that explores a wide breadth of genres and topics *Relocating Identities in Latin American Cultures* explores the perpetually changing notion of Latin American identity particularly as illustrated in literature and other forms of cultural expression Editor Elizabeth Montes Garcés has gathered contributions from specialists who examine the effects of such major phenomena as migration globalization and gender on the construct of Latin American identities and as such are reshaping the traditional understanding of Latin America's cultural history The contributors to this volume are experts in Latin American literature and culture Covering a diverse range of genres from poetry to film their essays explore themes such as feminism deconstruction and postcolonial theory as they are reflected in the Latin American cultural milieu *Representing Queer*

and Transgender Identity Alexandra Gonzenbach Perkins, 2017-08-04 *Fluid Bodies* traces the intersections of global movement with transgender and queer identities from authors and artists of the Hispanic Caribbean Utilizing the theme of fluidity and travel *Fluid Bodies* analyzes novels graphic novels theatre and performance art These works demonstrate how transgender and queer bodies redefine belonging particularly national belonging through global movement and community making practices Through these genres the text follows the movement of transgender and queer identities from textual spaces to spaces of the body The gradual movement from text to body as it occurs in these genres demonstrates the variety of representational strategies that dismantle binary readings of gender sexuality and nationality Transgender visibility is a pressing social issue and today's transgender moment will be a social and political necessity for years to come Of particular importance are representations of transgender and/or queer people of color The field of transgender representation is growing and *Fluid Bodies* adds to the visibility of transgender and queer identity from the Hispanic Caribbean By investigating the relationship between novels graphic novels theatre and performance art *Fluid Bodies* emphasizes how each

work plays on and against the separation of language and the body and how Hispanic Caribbean authors and artists represent transgender and queer identity in order to redefine cultural and national belonging in various geographic spaces

Out of Bounds Dara E. Goldman, 2008 *Out of Bounds* teases out the intricacies of a territorial conception of nationhood in the context of a global reorganization that ostensibly renders historical boundaries irrelevant Hispanic Caribbean writers have traditionally pointed toward the supposed perfect equivalence of island and nation and have explained local culture as a direct consequence of that equation The major social political and demographic shifts of the twentieth century increasingly call this equation into question yet authors continue to assert its existence and its centrality in the evolution of Caribbean identity The author contends that traditional forms of identification have not been eviscerated by globalization instead they have persisted and in some cases have been intensified by recent geopolitical shifts *Out of Bounds* underscores the ongoing role of the nation as the site of identity formation In this manner the book presents Hispanic Caribbean cultural production as a case study that acutely dramatizes the paradoxical status of traditional demarcations of self definition in an increasingly globalized context

Cultural Identity and Postmodern Writing Theo d'. Haen, Pieter Vermeulen, 2006 This volume seeks to ascertain the relationship obtaining between the specific form postmodernism assumes in a given culture and the national narrative in which that culture traditionally recognizes itself Theo D haen provides a general introduction to the issue of cultural identity and postmodern writing Jos Joosten and Thomas Vaessens take a look at Dutch literature and particular Dutch poetry in relation to postmodernism Robert Haak and Andrea Kunne do the same with regard to respectively German and Austrian literature while Roel Daamen turns to Scottish literature Patricia Krus discusses postmodernism in relation to Caribbean literature and Kristian van Haesendonck and Nanne Timmer turn their attention to Puerto Rican and Cuban literature while Adriana Churampi deals with Peruvian literature Finally Markha Valenta investigates the roots of the postmodernism debate in the United States

The Plantation in the Postslavery Imagination Elizabeth Christine Russ, 2009 In a provocative new approach toward understanding transnational literary cultures this study examines the specter of the plantation that physical place most vividly associated with slavery in the Americas For Elizabeth Russ the plantation is not merely a literal location but also a vexing rhetorical ideological and psychological trope through which intersecting histories of the New World are told Through a series of precise in depth readings Russ analyzes the discourse of the plantation through a number of suggestive pairings male and female perspectives U S and Spanish American traditions and continental alongside island societies To chart comparative elements in the development of the postslavery imagination in the Northern and Southern hemispheres Russ distinguishes between a modern and a postmodern imaginary The former privileges a familiar plot of modernity the traumatic transition from a local largely agrarian order to an increasingly anonymous industrialized society The latter abandoning nostalgia toward the past suggests a new history using the strategies of performance such as witnessing reticency and traversal Authors examined include *The Twelve Southerners* Fernando Ortiz

Teresa de la Parra Eudora Welty Antonio Benítez Rojo Gayl Jones Toni Morrison and Mayra Santos Febres among others Applying sharp analyses across a broad range of texts Russ reveals how the language used to imagine communities influenced by the plantation has been gendered racialized and eroticized in ways that oppose the domination of an ever shifting North while often reproducing the fundamental power divide Her work moves beyond the North South dichotomy that has often stymied scholarly work in Latin American studies and importantly provides a model for future hemispheric approaches

From Amazons to Zombies Persephone Braham, 2015-11-19 How did it happen that whole regions of Latin America Amazonia Patagonia the Caribbean are named for monstrous races of women warriors big footed giants and cannibals Through history monsters inhabit human imaginings of discovery and creation and also degeneration chaos and death Latin America's most dynamic monsters can be traced to archetypes that are found in virtually all of the world's sacred traditions but only in Latin America did Amazons cannibals zombies and other monsters become enduring symbols of regional history character and identity *From Amazons to Zombies* presents a comprehensive account of the qualities of monstrosity the ways in which monsters function within and among cultures and theories and genres of the monstrous It describes the genesis and evolution of monsters in the construction and representation of Latin America from the Ancient world and early modern Iberia to the present

Wasserman, 2022 This book is the first study of recent coming of age novels from Brazil and the Spanish speaking Caribbean I investigate the divide in Afro Latin American research that usually favors either Hispanic America or Brazil but not both I argue that contemporary novelists

have adapted the coming of age novel to explore central themes in the Afro Latin American experience such as Blackness African religions and folkloric traditions and immigration While there is no firm consensus on the term Blackness scholars typically use the term to describe the social cultural and historical experience of Afro descendants in the diaspora The Afro Latin American bildungsromans examined in this study include a number of religions such as Catholicism Spiritism and syncretic folk religions as well as Santería and Umbanda reflecting the variety of beliefs in Latin America I have found that young people turn to religions and spiritual traditions in time of need Going on a journey as part of one's personal development is one of the central themes of many bildungsroman and this pertains too in Afro Latin American novels Caribbean characters are depicted as immigrating to the United States whereas few Brazilians have enough resources to travel to North America and instead move to larger cities within their own country
