The Zodiac of Paris Jed Z. Buchwald, Diane Greco Josefowicz, 2021-10-12 The clash of faith and science in Napoleonic France The Dendera zodiac an ancient bas relief temple ceiling adorned with mysterious symbols of the stars and planets was first discovered by the French during Napoleon s campaign in Egypt and quickly provoked a controversy between scientists and theologians Brought to Paris in 1821 and ultimately installed in the Louvre where it can still be seen today the zodiac appeared to depict the nighttime sky from a time predating the Biblical creation and therefore cast doubt on religious truth The Zodiac of Paris tells the story of this incredible archeological find and its unlikely role in the fierce disputes over science and faith in Napoleonic and Restoration France The book unfolds against the turbulence of the French Revolution Napoleon s breathtaking rise and fall and the restoration of the Bourbons to the throne Drawing on newspapers journals diaries pamphlets and other documentary evidence Jed Buchwald and Diane Greco Josefowicz show how scientists and intellectuals seized upon the zodiac to discredit Christianity and how this drew furious responses from conservatives and sparked debates about the merits of scientific calculation as a source of knowledge about the past The ideological battles would rage until the thoroughly antireligious Jean Fran ois Champollion unlocked the secrets of Egyptian hieroglyphs and of the zodiac itself Champollion would prove the religious reactionaries right but for all the wrong reasons The Zodiac of Paris brings Napoleonic and Restoration France vividly to life revealing the lengths to which scientists intellectuals theologians and conservatives went to use the ancient past for modern purposes 2013 R.
