Operations Research and Environmental Management Carlo Carraro, Alain Haurie, 2012-12-06 The activities of the Fondazione ENI Enrico Mattei cover a broad spectrum of research topics ranging from economics to engineering from environmental management at the industry or regional level to basic mathematical modelling research It is the combination of the activities on these last two topics that led the Fondazione to organise with the University of Geneva a workshop where operation research tools were designed with the aim to provide national and local policy makers with appropriate analytical and policy instruments for environmental management In the recent past attention has often been devoted to global environmental issues in which the level of policy making is either international through multi country agreements on emission control or national when environmental policies are designed to control domestic pollution Many environmental problems however have a local or regional dimension Even when their dimension is global e g in the case of the greenhouse gas effect relevant decisions on emission control such as the adoption of energy saving utilities are taken at the local level In many countries the current legislation imposes the local authorities to prepare plans and adopt measures to control energy consumption or to reduce waste of natural resources It is therefore important to analyze the way in which local or regional authorities optimise their environmental management *Issues in Environmental Law, Policy, and Planning: 2013 Edition*, 2013-05-01 *Issues in Environmental Law Policy and Planning 2013 Edition* is a ScholarlyEditions book that delivers timely authoritative and comprehensive information about Science and Public Policy The editors have built *Issues in Environmental Law Policy and Planning 2013 Edition* on the vast information databases of ScholarlyNews You can expect the information about Science and Public Policy in this book to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of *Issues in Environmental Law Policy and Planning 2013 Edition* has been produced by the world s leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at <http://www.ScholarlyEditions.com> *Energy and Society* Alfredo Agustoni, Mara Maretti, 2015-10-08 This book deals with a pivotal issue often marginalized by sociological analysis the relationship between energy and society with different contributions from several European scholars The articles cover a series of topics concerning energy policies risk communication and sustainable development The increasingly complex social organization emerging from the energy shifts

of the last two centuries incorporates an increasing quantity of expert knowledge Quite paradoxically when the expert systems seem to be realizing the dream of total control on the uncertainty of the events any occasional accident reveals to be a check for them contributes to undermining their credibility Following the idea of a post democratic turn this kind of mistrust can be considered a different face of political elites and politics in general in the frame of a radical change concerning political culture in the last several decades This change is clear in areas such as risk communication governance and energy policies

**Social Issues in America** James Ciment, 2015-03-04 Truly comprehensive in scope and arranged in A Z format for quick access this eight volume set is a one source reference for anyone researching the historical and contemporary details of more than 170 major issues confronting American society Entries cover the full range of hotly contested social issues including economic scientific environmental criminal legal security health and media topics Each entry discusses the historical origins of the problem or debate past means used to deal with the issue the current controversy surrounding the issue from all perspectives and the near term and future implications for society In addition each entry includes a chronology a bibliography and a directory of Internet resources for further research as well as primary documents and statistical tables highlighting the debates

Research Handbook on Environmental Sociology Franzen, Axel, Mader, Sebastian, 2021-11-19 This Research Handbook presents the state of the art of empirical sociological research on the causes of and solutions to pressing environmental problems It provides cutting edge insights into some of the most urgent challenges facing humanity including anthropogenic climate change and environmental pollution The contributors argue that profound collective efforts to protect the environment are vital for sustainable development and offer practical solutions to specific contemporary issues

Hazards Vulnerability and Environmental Justice Susan L. Cutter, 2012-05-04 From Hurricane Katrina and the south Asian tsunami to human induced atrocities terrorist attacks and the looming effects of climate change the world is assailed by both natural and unnatural hazards and disasters These expose not only human vulnerability particularly that of the poorest who are least able to respond and adapt but also the profound worldwide environmental injustices that result from the geographical distribution of risks hazards and disasters This collection of essays from one of the most renowned and experienced experts provides a timely assessment of these critical themes Presenting the top selections from Susan L Cutter s thirty years of scholarship on hazards vulnerability and environmental justice the volume tackles issues such as nuclear and toxic hazards risk assessment communication and planning and societal responses Cutter maps out the terrain and draws out the salient themes with a fresh powerful introduction written in the wake of her work in the aftermath of Katrina This essential collection is ideal for professionals researchers academics and students working on hazards risk disasters and environmental justice across a range of disciplines

The Routledge Companion to Environmental Planning Simin Davoudi, Richard Cowell, Iain White, Hilda Blanco, 2019-07-31 This Companion presents a distinctive approach to environmental planning by situating the debate in its social cultural political and institutional context

being attentive to depth and breadth of discussions providing up to date accounts of the contemporary practices in environmental planning and their changes over time adopting multiple theoretical and analytical lenses and different disciplinary approaches and drawing on knowledge and expertise of a wide range of leading international scholars from across the social science disciplines and beyond It aims to provide critical reviews of the state of the art theoretical and practical approaches as well as empirical knowledge and understandings of environmental planning encourage dialogue across disciplines and national policy contexts about a wide range of environmental planning themes and engage with and reflect on politics policies practices and decision making tools in environmental planning The Companion provides a deeper understanding of the interdependencies between the themes in the four parts of the book Understanding the environment Environmental governance Critical environmental pressures and responses and Methods and approaches to environmental planning and its 37 chapters It presents critical perspectives on the role of meanings values governance approaches and participations in environmental planning Situating environmental planning debates in the wider ecological political ethical institutional social and cultural debates it aims to shine light on some of the critical journeys that we have traversed and those that we are yet to navigate and their implications for environmental planning research and practice The Companion provides a reference point mapping out the terrain of environmental planning in an international and multidisciplinary context The depth and breadth of discussions by leading international scholars make it relevant to and useful for those who are curious about wish to learn more want to make sense of and care for the environment within the field of environmental planning and beyond

**Managing Conflict in Facility Siting** Sidney Hayden Lesbirel, Daigee Shaw, 2005-01-01 The book addresses a growing policy problem confronting all democratic nations By exploring the lessons to be learned from international siting experiences it will prove invaluable reading for academics policymakers government agencies NGOs and other societal interests involved in environmental and siting issues BOOK JACKET

*Adaptation To Climate Change: Asean And Comparative Experiences* Kheng Lian Koh, Robert Kibugi, Ilan Kelman, Rose-liza Eisma Osorio, 2015-08-05 Adaptation to Climate Change ASEAN and Comparative Experiences presents a dynamic and comprehensive collection of works from legal scholars around the world that delves into a relatively new frontier on legal aspects of climate change adaptation with focus on the ASEAN region both at the regional level as well as at the national level in some ASEAN countries such as Malaysia Philippines and Thailand Other countries not within ASEAN are also represented such as Bangladesh People s Republic of China Sri Lanka and the Republic of Taiwan In doing so it surveys one of the most important issues confronting developing countries today and the challenges to building resilient societies It is an essential source of reference for policy makers administrators the private sector officials scientists academic scholars climatologists NGOs and CSOs in ASEAN and the world

*Environmental Politics and Policy* Walter A. Rosenbaum, 2016-08-01 Walter A Rosenbaum s classic Environmental Politics and Policy Tenth Edition once again provides definitive coverage of environmental politics and policy lively case

material and a balanced assessment of current environmental issues The first half of the book sets needed context and describes the policy process while the second half covers specific environmental issues such as air and water toxic and hazardous substances energy and a global policymaking chapter focused on climate change and transboundary politics Covering major environmental policy initiatives and controversies during President Obama's two terms and capturing the sudden and radical changes occurring in the American energy economy this Tenth Edition offers the needed currency and relevancy for any environmental politics course

**Revealed Preference Approaches to Environmental Valuation Volumes I and II** Catherine L. Kling, 2019-01-22 In this two volume collection the editors have chosen a sample of some of the most essential and inspirational articles and papers for understanding revealed preference methods to value environmental amenities The papers cover the gamut of methods that are typically classified as revealed preference approaches including recreation demand models hedonic methods and averting behavior methods as well as efforts to combine stated and revealed preferences While this collection is far from exhaustive the editors have included papers they believe will represent the state of the art in the theory and application of revealed preference methods contribute to development of the state of the art or raise fundamental challenges and insights that will drive the research agenda in the coming years

**Health and Sustainability** Tee L. Guidotti, 2015-02-27 Health and Sustainability An Introduction details how the values of sustainability can be applied to the design of health systems and the delivery of primary care By providing a practical framework for understanding complicated sustainability problems related to health the book offers an authoritative resource for understanding health and environmental rights parallels between human toxicology and ecotoxicology how health promotion strategy can be a template for sustainability health science and how it can be used to support decisions in health and sustainability how scientific knowledge is achieved understood accepted and used in health and environmental advocacy and how this relates to sustainability
