Forgotten Bones Lois Miner Huey, 2015-08-01 An ordinary construction project uncovers an extraordinary archaeological discovery Imagine you re watching a backhoe dig up the ground for a construction project when a round object rolls down a pile of dirt and stops at your feet You pick it up brush off some dirt and realize you re holding a skull This is exactly what happened in Albany New York in 2005 Workers were putting in new sewer line when a backhoe driver dug up a skull After police declared the skull wasn t connected to any recent crimes a team of archaeologists took a closer look They determined the skull was from a Black person who had died at least one hundred years earlier Suddenly the construction site turned into an archaeological dig Scientists excavated more bones and realized that they had located a long lost cemetery for enslaved people from the 1700s Slavery had been legal in the northern United States including in New York State in colonial times but the stories of these enslaved people are largely unknown This site became just the third slave cemetery ever to be excavated in the North See how archaeologists pieced together the truth about these once forgotten bones A fascinating glimpse into how archaeologists piece together the past Booklist Children s Book Committee at Bank Street College Best Children s Book of the Year

The Archaeology of Slavery in Early Medieval Northern Europe Felix Biermann, Marek Jankowiak, 2021-11-18 This volume is the first comprehensive study of the material imprint of slavery in early medieval Europe While written sources attest to the ubiquity of slavery and slave trade in early medieval British Isles Scandinavia and Slavic lands it is still difficult to find material traces of this reality other than the hundreds of thousands of Islamic coins paid in exchange for the northern European slaves This volume offers the first structured reflection on how to bridge this gap It reviews the types of material evidence that can be associated with the institution of slavery and the slave trade in early medieval northern Europe from individual objects such as e g shackles to more comprehensive landscape approaches The book is divided into four sections The first presents the analytical tools developed in Africa and prehistoric Europe to identify and describe social phenomena associated with slavery and the slave trade The following three section review the three main cultural zones of early medieval northern Europe the British Isles Scandinavia and Slavic central Europe The contributions offer methodological reflections on the concept of the archaeology of slavery They emphasize that the material record by its nature admits multiple interpretations More broadly this book comes at a time when the history of slavery is being integrated into academic syllabi in most western countries The collection of studies contributes to a more nuanced perspective on this important and controversial topic This volume appeals to multiple audiences interested in comparative and global studies of slavery and will constitute the point of reference for future debates

African American Historic Burial Grounds and Gravesites of New England Glenn A. Slave Culture Sterling Stuckey, 2013 An updated edition of the highly acclaimed contribution to African American scholarship *Slave Culture* considers how various African peoples interacted on the plantations of the South to achieve a common culture tracing of the roots of black nationalist feelings in America over several centuries

Grief and Genre in American Literature, 1790-1870 Desirée Henderson, 2016-04-15 Focusing on the role of genre in the formation of dominant conceptions of death and dying Desir e Henderson examines literary texts and social spaces devoted to death and mourning in eighteenth and nineteenth century America Henderson shows how William Hill Brown Susanna Rowson and Hannah Webster borrowed from and challenged funeral sermon conventions in their novelistic portrayals of the deaths of fallen women contrasts the eulogies for George Washington with William Apess s Eulogy for King Philip to expose conflicts between national ideology and indigenous history examines

Frederick Douglass's use of the slave cemetery to represent the costs of slavery for African American families suggests that the ideas about democracy materialized in Civil War cemeteries and monuments influenced Walt Whitman's war elegies and offers new contexts for analyzing Elizabeth Stuart Phelps's *The Gates Ajar* and Emily Dickinson's poetry as works that explore the consequences of female writers claiming authority over the mourning process. Informed by extensive archival research, Henderson's study eloquently speaks to the ways in which authors adopted, revised, or rejected the conventions of memorial literature choices that disclose their location within decisive debates about appropriate gender roles and sexual practices, national identity and citizenship, the consequences of slavery, the nature of democratic representation, and structures of authorship and literary authority. *Inventing New England's Slave Paradise* Robert K. Fitts, 1998. Many 19th and 20th century historians have argued that Northern slavery was mild and that master-slave relations were relatively harmonious. Yet Northern slavery like Southern was characterized by the conflict between the masters' desire to control their slaves and the slaves' resistance to this domination. For a variety of political, social, and intellectual reasons, 19th and 20th century historians ignored this inherent conflict in discussions of Northern slavery. Fitts' research focuses on how and why historians sanitized the history of slavery in Narragansett, Rhode Island, and then shows the inadequacy of these interpretations by examining several of the planters' and slaves' conflicting strategies of control and resistance. Topics include how planters used physical punishment, legislation, and the threat of sale in an attempt to control their slaves, and how slaves resisted through violence, running away, and non-violent crime. Fitts also examines the plantation landscape as a site of symbolic contestation and includes a chapter on slave names. Ph.D. dissertation, Brown University, 1995, revised with new preface.

Florida Charlie Carlson, 2009-05. A guide to visiting the odd and less known tourist attractions in the state of Florida. *Richmond Cemeteries* Christine Stoddard and Misty Thomas, 2014. Richmond, Virginia, the capital of the Confederacy and once one of the most prosperous cities in the United States, is home to a range of cemeteries that tell the story of American trends in honoring the dead. African slaves were interred in Shockoe Bottom, its so-called burial ground for negroes. US presidents James Monroe and John Tyler were buried in Hollywood Cemetery, and Civil War soldiers were commemorated throughout the metropolis. Indeed, the River City has laid blacks and whites to rest in flood zones and on rolling hills alike. During and shortly after the Civil War, Richmond worked to accommodate thousands of new graves. Today, Richmonders work to preserve and celebrate the past while making way for the future.

The European Experience in Slavery, 1650-1850 Rebekka Mallinckrodt, 2024-08-19. This volume documents the practice of bringing enslaved people to early modern Europe, not only as a side effect of overseas colonial regimes but as a pan-European experience that even developed its own dynamics on the continent. Drawing on examples from France, Scotland, the Netherlands, Denmark, and the Holy Roman Empire, the contributors show how slavery affected both the enslaved and the enslavers, societies changing European notions of freedom, dependence, and subjugation. At the same time, Afro-European families and cultural productions

challenge the view of the Black diaspora as Europe's other. The volume thus reveals not only the roots of present-day racism extending far back into the past but also a common heritage yet to be discovered.

Archaeologies of Slavery and Freedom in the Caribbean Lynsey A. Bates, John M. Chenoweth, James A. Delle, 2018-09-12 While the patterns of habitation and development are similar throughout the Caribbean, there was also a great deal of diversity. The authors in this volume use innovative techniques and perspectives to reveal the stories of places and times where the usual rules did not always apply.

This Is Our Home Whitney Nell Stewart, 2023-11-06 The cultural memory of plantations in the Old South has long been clouded by myth. A recent reckoning with the centrality of slavery to the US national story, however, has shifted the meaning of these sites. Plantations are no longer simply seen as places of beauty and grandiose hospitality; their reality as spaces of enslavement, exploitation, and violence is increasingly at the forefront of our scholarly and public narratives. Yet even this reckoning obscures what these sites meant to so many forced to live and labor on them: plantations were Black homes as much as white. Insightfully reading the built environment of plantations, considering artifact fragments found in excavations of slave dwellings, and drawing on legal records and plantation owners' papers, Whitney Nell Stewart illuminates how enslaved people struggled to make home amid innumerable constraints and obstacles imposed by white southerners. By exploring the material remnants of the past, Stewart demonstrates how homemaking was a crucial part of the battle over slavery and freedom, a fight that continues today in consequential confrontations over who has the right to call this nation home.

Slavery's Descendants Lucian K. Truscott, 2019-05-10 Slavery's Descendants brings together twenty-five contributors from a variety of racial backgrounds to tell their personal stories of exhuming and exorcising America's racist past. Together, they help us confront the legacy of slavery and reclaim a more complete picture of U.S. history, one cousin at a time.

Changing Lands in Changing Memories. Migration and Identity during the Lombard Invasion (Premio Ottone d'Assia 2002) Irene Barbiera, 2005-03-01 I cimiteri longobardi utilizzati come fonti preziose di informazione sul passato e in particolare sull'uso simbolico della cultura materiale. Alla luce delle più recenti teorie sull'archeologia funeraria e dell'etnicità, l'autrice indaga nel dettaglio alcuni contesti funerari di ambito longobardo in Ungheria (Hagiko Szentendte Tamasi) e nel Friuli (Cividale del Friuli). I Longobardi migrarono nel 568. I risultati dell'indagine permettono di avanzare interessanti ipotesi sull'evoluzione delle pratiche funerarie e sul loro significato ideologico e sociale.

World of a Slave Kym S. Rice, Martha B. Katz-Hyman, 2010-12-13 This two-volume encyclopedia is the first to focus on the material life of slaves. Although many encyclopedias discuss slavery, enslaved blacks, and African American life and culture, none focus on the material world of slaves such as what they saw, touched, heard, ate, drank, and smoked; wore; worked with; and in; used; cultivated; crafted; played; and slept on. The two-volume *World of a Slave Encyclopedia of the Material Life of Slaves in the United States* is a landmark work in this important new field of study. Recognizing that a full understanding of the complexity of American slavery and its legacy requires an understanding of the material culture of slavery, the

encyclopedia includes entries on almost every aspect of that material culture beginning in the 17th century and extending through the Civil War Readers will find information on animals documents economy education and literacy food and drink home music personal items places religion rites of passage slavery structures and work There are also introductory essays on literacy and oral culture and on music and dance

Slavery in the Age of Memory Ana Lucia Araujo,2020-10-15 Exploring notions of history collective memory cultural memory public memory official memory and public history *Slavery in the Age of Memory Engaging the Past* explains how ordinary citizens social groups governments and institutions engage with the past of slavery and the Atlantic slave trade It illuminates how and why over the last five decades the debates about slavery have become so relevant in the societies where slavery existed and which participated in the Atlantic slave trade The book draws on a variety of case studies to investigate its central questions How have social actors and groups in Europe Africa and the Americas engaged with the slave past of their societies Are there any relations between the demands to rename streets of Liverpool in England and the protests to take down Confederate monuments in the United States How have black and white social actors and scholars influenced the ways slavery is represented in George Washington s Mount Vernon and Thomas Jefferson s Monticello in the United States How do slave cemeteries in Brazil and the United States and the walls of names of Whitney Plantation speak to other initiatives honoring enslaved people in England and South Africa What shared problems and goals have led to the creation of the International Slavery Museum in Liverpool and the National Museum of African American History and Culture in Washington DC Why have artists used their works to confront the debates about slavery and its legacies The important debates addressed in this book resonate in the present day Arguing that memory of slavery is racialized and gendered the book shows that more than just attempts to come to terms with the past debates about slavery are associated with the persistent racial inequalities racism and white supremacy which still shape societies where slavery existed *Slavery in the Age of Memory Engaging the Past* is thus a vital resource for students and scholars of the Atlantic world the history of slavery and public history
