**The Archaeology of Slavery in Early Medieval Northern Europe** Felix Biermann, Marek Jankowiak, 2021-11-18 This volume is the first comprehensive study of the material imprint of slavery in early medieval Europe While written sources attest to the ubiquity of slavery and slave trade in early medieval British Isles Scandinavia and Slavic lands it is still difficult to find material traces of this reality other than the hundreds of thousands of Islamic coins paid in exchange for the northern European slaves This volume offers the first structured reflection on how to bridge this gap It reviews the types of material evidence that can be associated with the institution of slavery and the slave trade in early medieval northern Europe from individual objects such as e g shackles to more comprehensive landscape approaches The book is divided into four sections The first presents the analytical tools developed in Africa and prehistoric Europe to identify and describe social phenomena associated with slavery and the slave trade The following three section review the three main cultural zones of early medieval northern Europe the British Isles Scandinavia and Slavic central Europe The contributions offer methodological reflections on the concept of the archaeology

of slavery They emphasize that the material record by its nature admits multiple interpretations More broadly this book comes at a time when the history of slavery is being integrated into academic syllabi in most western countries The collection of studies contributes to a more nuanced perspective on this important and controversial topic This volume appeals to multiple audiences interested in comparative and global studies of slavery and will constitute the point of reference for future debates

**Grief and Genre in American Literature, 1790-1870** Desirée Henderson, 2016-04-15 Focusing on the role of genre in the formation of dominant conceptions of death and dying Desirée Henderson examines literary texts and social spaces devoted to death and mourning in eighteenth and nineteenth century America Henderson shows how William Hill Brown Susanna Rowson and Hannah Webster borrowed from and challenged funeral sermon conventions in their novelistic portrayals of the deaths of fallen women contrasts the eulogies for George Washington with William Apess's Eulogy for King Philip to expose conflicts between national ideology and indigenous history examines Frederick Douglass's use of the slave cemetery to represent the costs of slavery for African American families suggests that the ideas about democracy materialized in Civil War cemeteries and monuments influenced Walt Whitman's war elegies and offers new contexts for analyzing Elizabeth Stuart Phelps's *The Gates Ajar* and Emily Dickinson's poetry as works that explore the consequences of female writers claiming authority over the mourning process Informed by extensive archival research Henderson's study eloquently speaks to the ways in which authors adopted revised or rejected the conventions of memorial literature choices that disclose their location within decisive debates about appropriate gender roles and sexual practices national identity and citizenship the consequences of slavery the nature of democratic representation and structures of authorship and literary authority

challenge the view of the Black diaspora as Europe's other. The volume thus reveals not only the roots of present-day racism extending far back into the past but also a common heritage yet to be discovered.

**Archaeologies of Slavery and Freedom in the Caribbean** Lynsey A. Bates, John M. Chenoweth, James A. Delle, 2018-09-12 While the patterns of habitation and development are similar throughout the Caribbean, there was also a great deal of diversity. **This Is Our Home** Whitney Nell Stewart, 2023-11-06 The cultural memory of plantations in the Old South has long been clouded by myth. A recent reckoning with the centrality of slavery to the US national story, however, has shifted the meaning of these sites. Plantations are no longer simply seen as places of beauty and grandiose hospitality; their reality as spaces of enslavement, exploitation, and violence is increasingly at the forefront of our scholarly and public narratives. Yet even this reckoning obscures what these sites meant to so many forced to live and labor on them: plantations were Black homes as much as white. Insightfully reading the built environment of plantations, considering artifact fragments found in excavations of slave dwellings, and drawing on legal records and plantation owners' papers, Whitney Nell Stewart illuminates how enslaved people struggled to make home amid innumerable constraints and obstacles imposed by white southerners. By exploring the material remnants of the past, Stewart demonstrates how homemaking was a crucial part of the battle over slavery and freedom, a fight that continues today in consequential confrontations over who has the right to call this nation home.

Truscott, 2019-05-10 Slavery's Descendants brings together twenty-five contributors from a variety of racial backgrounds to tell their personal stories of exhuming and exorcising America's racist past. **Changing Lands in Changing Memories. Migration and Identity during the Lombard Invasion (Premio Ottone d'Assia 2002)** Irene Barbiera, 2005-03-01 I cimiteri longobardi utilizzati come fonti preziose di informazione sul passato e in particolare sull'uso simbolico della cultura materiale. Alla luce delle più recenti teorie sull'archeologia funeraria e dell'etnicità, l'autrice indaga nel dettaglio alcuni contesti funerari di ambito longobardo in Ungheria, Hagiko Szentendrei, Tamási e nel Friuli, Cividale del Friuli. I Longobardi migrarono nel 568. I risultati dell'indagine permettono di avanzare interessanti ipotesi sull'evoluzione delle pratiche funerarie e sul loro significato ideologico e sociale.

**Slaves in the Family** Edward Ball, 2014-04-22 Journalist Ball confronts the legacy of his family's slave-owning past, uncovering the story of the people, both Black and white, who lived and worked on the Ball's South Carolina plantations. It is an unprecedented family record that reveals how the painful legacy of slavery continues to endure in America's collective memory and experience. Ball, a descendant of one of the largest slave-owning families in the South,

discovered that his ancestors owned 25 plantations worked by nearly 4 000 slaves Through meticulous research and by interviewing scattered relatives Ball contacted some 100 000 African Americans who are all descendants of Ball slaves In intimate conversations with them he garnered information hard words and devastating family stories of precisely what it means to be enslaved He found that the family plantation owners were far from benevolent patriarchs instead there is a dark history of exploitation interbreeding and extreme violence Publisher description

**Slavery in the Age of Memory** Ana Lucia Araujo, 2020-10-15 Exploring notions of history collective memory cultural memory public memory official memory and public history *Slavery in the Age of Memory Engaging the Past* explains how ordinary citizens social groups governments and institutions engage with the past of slavery and the Atlantic slave trade It illuminates how and why over the last five decades the debates about slavery have become so relevant in the societies where slavery existed and which participated in the Atlantic slave trade The book draws on a variety of case studies to investigate its central questions How have social actors and groups in Europe Africa and the Americas engaged with the slave past of their societies Are there any relations between the demands to rename streets of Liverpool in England and the protests to take down Confederate monuments in the United States How have black and white social actors and scholars influenced the ways slavery is represented in George Washington's Mount Vernon and Thomas Jefferson's Monticello in the United States How do slave cemeteries in Brazil and the United States and the walls of names of Whitney Plantation speak to other initiatives honoring enslaved people in England and South Africa What shared problems and goals have led to the creation of the International Slavery Museum in Liverpool and the National Museum of African American History and Culture in Washington DC Why have artists used their works to confront the debates about slavery and its legacies The important debates addressed in this book resonate in the present day Arguing that memory of slavery is racialized and gendered the book shows that more than just attempts to come to terms with the past debates about slavery are associated with the persistent racial inequalities racism and white supremacy which still shape societies where slavery existed *Slavery in the Age of Memory Engaging the Past* is thus a vital resource for students and scholars of the Atlantic world the history of slavery and public history

Oberlin College Emory University and the University of Alabama Though the roots of Slavery and the University stem from a 2011 conference at Emory University the collection extends outward to incorporate recent findings As such it offers a roadmap to one of the most exciting developments in the field of U S slavery studies and to ways of thinking about racial diversity in the history and current practices of higher education
