[An Old Creed for the New South](#) John David Smith, 2008-02-12 *An Old Creed for the New South* Proslavery Ideology and Historiography 1865-1918 details the slavery debate from the Civil War through World War I Award winning historian John David Smith argues that African American slavery remained a salient metaphor for how Americans interpreted contemporary race relations decades after the Civil War Smith draws extensively on postwar

articles books diaries manuscripts newspapers and speeches to counter the belief that debates over slavery ended with emancipation After the Civil War Americans in both the North and the South continued to debate slavery's merits as a labor legal and educational system and as a mode of racial control The study details how white Southerners continued to tout slavery as beneficial for both races long after Confederate defeat During Reconstruction and after Redemption Southerners continued to refine proslavery ideas while subjecting blacks to new legal extralegal and social controls An Old Creed for the New South links pre and post Civil War racial thought showing historical continuity and treats the Black Codes and the Jim Crow laws in new ways connecting these important racial and legal themes to intellectual and social history Although many blacks and some whites denounced slavery as the source of the contemporary Negro problem most whites including late nineteenth century historians championed a new proslavery argument The study also traces how historian Ulrich B Phillips and Progressive Era scholars looked at slavery as a golden age of American race relations and shows how a broad range of African Americans including Booker T Washington and W E B Du Bois responded to the proslavery argument Such ideas Smith posits provided a powerful racial creed for the New South This examination of black slavery in the American public mind which includes the arguments of former slaves slaveholders Freedmen's Bureau agents novelists and essayists demonstrates that proslavery ideology dominated racial thought among white southerners and most white northerners in the five decades following the Civil War

**Ring Shout, Wheel About** Katrina Dyonne Thompson, 2014-01-30 In this ambitious project historian Katrina Thompson examines the conceptualization and staging of race through the performance sometimes coerced of black dance from the slave ship to the minstrel stage Drawing on a rich variety of sources Thompson explicates how black musical performance was used by white Europeans and Americans to justify enslavement perpetuate the existing racial hierarchy and mask the brutality of the domestic slave trade Whether on slave ships at the auction block or on plantations whites often used coerced performances to oppress and demean the enslaved As Thompson shows however blacks backstage use of musical performance often served quite a different purpose Through creolization and other means enslaved people preserved some native musical and dance traditions and invented or adopted new traditions that built community and even aided rebellion Thompson shows how these traditions evolved into nineteenth century minstrelsy and ultimately raises the question of whether today's mass media performances and depictions of African Americans are so very far removed from their troublesome roots

*Disfigured Images* Patricia Morton, 1991-05-21 Much of the material unearthed by this book is ugly states historiographer Patricia Morton who exposes profoundly dehumanizing constructions of reality embedded in American scholarship as it has attempted to render the history of the Afro American woman Focusing on the scholarly literature of fact rather than on fictional or popular portrayals *Disfigured Images* explores the telling and frequent mis telling of the story of black women during a century of American historiography beginning in the late nineteenth century and extending to the present Morton finds that during this period a large body of scholarly literature was generated that presented little fact and much fiction about black women s history The book s ten chapters take long and lingering looks at the black woman s prefabricated past Contemporary revisionist studies with their goals of discovering and articulating the real nature of the slave woman s experience and role are thoroughly examined in the conclusion *Disfigured Images* complements current work by recognizing in its findings a long needed refutation of a caricatured mythical version of black women s history Morton s introduction presents an overview of her subject emphasizing the mythical ingrained nature of the black woman s image in historiography as a natural and permanent slave The succeeding chapters use historical and social

science works as primary sources to explore such issues as the foundations of sexism racism the writing of W E B DuBois twentieth century notions of black women current black and women s studies new and old images of motherhood and more The conclusion investigates how and why recent American historiographical scholarship has banished the old myths by presenting a more accurate history of black women This keenly perceptive and original study should find an influential place in both women s studies and black studies programs as well as in American history American literature and sociology departments With its unusually complete panorama of the period covered it would be a unique and valuable addition to courses such as slavery the American South women in North American history Afro American history race and sex in American literature and discourse and the sociology of race
