Soldiers Of God Primal Emotions And Religious Terrorists:

Soldiers of God Jay D. Glass, 2003 The history of killing in the name of God focusing on the bombings of World Trade Towers These events are explained by showing their origins in the most primal of our emotional needs Based upon this analysis suggestions made for steps to be taken to stop these murderous acts from happening **Eugenics and the Nature-Nurture Debate in the Twentieth Century** A. Gillette, 2007-10-29 Gillette shows that the sciences of sociobiology and evolutionary psychology were undergoing rapid development in the early Twentieth century However many of the early researchers in these sciences were also eugenicists With the rise of behaviourism and the reaction against eugenics in the 1930s any scientific claims that behaviour might be influenced by heredity were suppressed for ideological reasons

Shakespeare and the Nature of Love Marcus Nordlund, 2007 The best conception of love Marcus Nordlund contends and hence the best framework for its literary analysis must be a fusion of evolutionary cultural and historical explanation It is within just such a bio cultural nexus that Nordlund explores Shakespeare s treatment of different forms of love His approach leads to a valuable new perspective on Shakespearean love and more broadly on the interaction between our common humanity and our historical contingency as they are reflected recast transformed or even suppressed in literary works After addressing critical issues about love biology and culture raised by his method Nordlund considers four specific forms of love in seven of Shakespeare s plays Examining the vicissitudes of parental love in *Titus Andronicus* and *Coriolanus* he argues that Shakespeare makes a sustained inquiry into the impact of culture and society upon the natural human affections *King Lear* offers insight into the conflicted relationship between love and duty In two problem plays about romantic love *Troilus and Cressida* and *All s Well that Ends Well* the tension between individual idiosyncrasies and social consensus becomes especially salient And finally in *Othello* and *The Winter s Tale* Nordlund asks what Shakespeare can tell us about the dark avatar of jealousy *Violence or Dialogue?* Sverre Varvin, 2018-10-08 Our understanding of terrorism since the events of September 11th 2001 has usually been channelled through the two dimensional lens of religion and politics This important new work contributes a richer understanding of terrorism by examining a third dimension of individual and group psychology and demonstrates how insights garnered from the human psyche may be translated into more effective public policy

Rimsa,2007-11-19 The discovery of a suspected homegrown Islamic terrorist cell in our own backyard last year shocked most Canadians The question arose Is this country next on Al Qaeda s hit list But although terrorism in Canada did not begin with Al Qaeda its fundamental dynamics are as unfamiliar to most of the public as the minutiae of quantum physics How could such shocking developments happen in a nation of peacekeepers that opposed the American intervention in Iraq The majority of Canadians have no idea why soldiers are presently sacrificing their lives in Afghanistan Terror Threat provides an examination of every key facet of current terrorist operations affecting this country and it does so in a way that shows how serious the danger really is Who are these people How do they operate And why in the world are they trying to kill us

Engaged Pedagogy, Enraged Pedagogy: Reconciling Politics, Emotion, Religion, and Science for Critical Pedagogy T. Monchinski, 2011-07-23 Students teachers and schools are under attack The assault comes in the guise of accountability and choice cloaking itself in the scientifically proven with an over emphasis of data It combines a vilification of organized labor along with a promotion of the irrational while readily blurring the line between utopia and dystopia The attack abuses education as it disseminates self serving propaganda simultaneously covering up inconvenient truths like the United States government s long and storied relationships with Saddam Hussein and Osama bin Laden in the Wars on Terror It suppresses solidarity and compassion while it champions a divisive form of selfish individualism Engaged Pedagogy Enraged Pedagogy seeks to counter these attacks and expose the ideological impulses behind them Marshalling critical pedagogy and an ethic of care with the notions of justified anger and the intellectual warrior the book explores the non antagonistic dualisms between faith and science reason and emotion it deconstructs social texts ranging from 80s action films to dystopian literature as it uncovers the ideologies that structure and order our lives it explores and champions the democratic potential of dialogue mutuality and authority while challenging left essentialism and identity politics The book also features an interview with Joe Kincheloe a seminal figure in the field of critical pedagogy

Does God Exist? G. Todd Brimm M.A. M.Div., 2022-04-06 Does God Exist examines crucial evidence that points to a Creator and helps readers develop and frame a consistent worldview to help answer some of the most challenging questions in life This book exposes the inconsistencies and the atrocities that has resulted from modern societies embracing Darwinian evolution throughout most of the 20th century The evidence presented in the book puts allegations of a blind faith approach directly in the corner of the atheist A must read for anyone who is engaging in serious inquiry into the question of whether or not our universe and the life that is the result of a Creator instead of time and chance

Psychoanalytic and Spiritual Perspectives on Terrorism Nina E. Cerfolio, 2023-12-22 Nina E Cerfolio masterfully explores the deeper spiritual and psychoanalytic understanding of the origins of human aggressive and destructive instincts which underlie mass shootings and terrorism The author survived two terrorist attacks developing breast cancer from being a first responder at 9 11 and being poisoned by an FSB agent while providing humanitarian aid in the Second Chechen War Through a personal scholarly investigation into her psyche the author describes the spiritual awakening that was catalyzed by these events and their traumatic impact and examines how a world could create the firmament for the kinds of destructive aggression that are a daily occurrence Featuring cutting edge quantitative research and case material which illustrates the prevalence of undiagnosed and untreated psychiatric illness among mass shooters and terrorists this book encourages dialogue about the stigma of mental illness and challenges the perception of terrorists as monsters with no societal responsibility Championing the forgotten collective humiliation of the marginalized which in turn breeds terrorism and documenting a new spiritual lens through which healing is possible this book will be essential reading for mental health workers and anyone wishing to understand the traumatizing epoch in which we are living
