This resource is for grades 1-3 and aligns to the International Reading Association (IRA) and National Council of Teachers of English (NCTE) Standard 3. Learning to read is one of life's most important skills. Becoming an accomplished reader greatly enhances a person's chances for success in school, in work, and in leisure activities. Success in any endeavor requires insight, effort, and practice. This series, *Reading Simplified*, provides an opportunity for students to satisfy those requirements. Insight comes with the understanding of steps and structure. The structure of reading is broken down into its many steps or skills: letter-sound recognition, kinesthetic discrimination, phonics, word structure, vocabulary, comprehension, oral reading, study skills, and content area reading. Effort usually comes from within, but students' efforts are sparked and sustained by the variety of motivating activities found in each book. Practice is at the heart of these books. Proper sequencing and progressive recapping of skills and approaches lead students toward reading mastery.

**Hidden Lives / Secret Gardens** R. T. Schnadelbach, R. Terry Schnadelbach, 2009. *Hidden Lives Secret Gardens* is a synthetic history about gardens and human sexuality. Written in an accessible style for the garden enthusiast, the serious landscape designer, and those interested in the lives of international celebrities, the book explores the very roots of Modernism as begun in Florence, Italy, in the very first year of the twentieth century. For the past twenty years, R. Terry Schnadelbach, FAAR Professor of Landscape Architecture, University of Florida, has researched the Modernist era in landscape architecture. He authored a book, *Ferruccio Vitale: Landscape Architect of the Country Place Era*, on the Florentine landscape architect who brought to America both the formal garden as well as its first Modernist landscapes. In *Hidden Lives Secret Gardens*, Schnadelbach exposes the engaging and intertwined lives of a group of expatriates, their secluded hillside villas, and secret new gardens that ushered a new direction in garden design. Three successive new gardens at Villas Gamberaia, La Pietra, and I Tatti were among the earliest Modernist landscapes and were an inspiration to many landscape professionals in Britain and America. While *Hidden Lives Secret Gardens* manuscript focuses on the revival of the Renaissance aesthetic in Florence and paints a picture of each garden's history, it explores the new and emerging field of sexual psychology through the hidden lives of the villa's owners and designers, revealing their artistic life styles, their commercial and sexual mores.
