## Survival Diary:

**The Dramatic Society** Klaas Tindemans, 2022-10-26 All societies are by their very nature dramatic. They present themselves especially for those who want to look back in time as a fascinating and confusing whole of theatrical events and constructions. Sometimes the theatre itself succeeds in capturing that fascination and confusion. This book describes the dramatic society in the form of case studies that link politics, history and culture. The Dramatic Society uses selected plays to examine specific moments in history. Its range of subjects are extremely diverse including Medea as an icon of terrorism, a choreography based upon Shakespeare's *As You Like It*, horror movies about the German unification, a truth commission dealing with human zoos and the reconstruction of Ai Weiwei's troubles with the tax authorities. This collection of insightful essays deals with theatrical performances including happenings, installations and movies of the past fifty years, with every chapter attempting to link artistic events with politics and political theory from Hannah Arendt to Slavoj Žižek. This is a revealing assessment of the ways in which drama and politics become intertwined, offering crucial insights for scholars and students of theatre studies, performance studies, contemporary politics and cultural studies.

**The Forbidden Garden** Simon Parkin, 2025-10-28 Named a Best Book of the Year by *Scientific American* and *The Economist*. The riveting untold true story of the botanists at the world's first seed bank who made the mad heroic decision during the siege of Leningrad to guard biodiversity at the cost of human life. *The New York Times* Editors' Choice from the award-winning author of *The Island of Extraordinary Captives*. In the summer of 1941 German troops surrounded the Russian city of Leningrad (now St. Petersburg) and began the longest blockade in recorded history, one that would ultimately claim the lives of nearly three quarters of a million people. At the center of the besieged city stood a converted palace that housed the world's largest collection of seeds: more than 250,000 samples hand-collected over two decades from all over the globe by world-famous explorer, geneticist and dissident Nikolai Vavilov, who had recently been disappeared by the Soviet government. After attempts to evacuate the priceless collection failed and supplies dwindled amongst the three million starving citizens, the employees at the Plant Institute were left with a terrible choice: Should they save the collection or themselves? These were not just any seeds. The botanists believed they could be bred into heartier, disease-resistant and more productive varieties suited for harsh climates, thereby changing the future of food production and preventing famines like those that had plagued their countrymen before. But protecting the seeds was no idle business. The scientists rescued potato samples under enemy fire, extinguished incendiary bombs landing on the seed bank's roof and guarded the collection from scavengers, the bitter cold and their own hunger. Then, in the war's eleventh hour, Nazi plunderers presented a new threat to the collection. Drawing from previously unseen sources, award-winning journalist Simon Parkin tells the incredible true story of an extraordinary project and the bravery of the ordinary individuals who kept it going. *The Daily Telegraph* (London) in the name of science.

regarded military historian Gregory Urwin spent decades researching what happened and now offers a revealing look at the U S Marines sailors soldiers and civilian contractors in captivity In addition to exhaustive archival research he interviewed dozens of POWs and even some of their Japanese captors He also had access to diaries secretly kept by the prisoners This information has allowed Urwin to provide a nuanced look at the Japanese guards and how the Americans survived three and a half years in captivity and emerged with a much lower death rate than most other Allied personnel captured in the Pacific In part Urwin says the answer lies in the Wake Islanders establishment of life saving communities that kept their dignity intact Their mutual help networks encouraged those who faltered under physical and psychological torture including what is today called water boarding The book notes that the Japanese camp official responsible for that war crime was sentenced to life imprisonment by an American military tribunal Most Wake Islanders spent the war at two camps just outside Shanghai one of the few places where Japanese authorities permitted the Red Cross to aid prisoners of war The author also calls attention to the generosity of civilians in Shanghai including Swiss diplomats and the American and British residents of the fabled International Settlement who provided food and clothing to the prisoners In addition some guards proved to be less vicious than those stationed at other POW camps and occasionally went out of their way to aid inmates As the first historical work to fully explore the captivity of Wake Island s defenders the book offers information not found in other World War II histories [How Worlds Collapse](#) Miguel Centeno, Peter Callahan, Paul Larcey, Thayer Patterson, 2023-03-30 As our society confronts the impacts of globalization and global systemic risks such as financial contagion climate change and epidemics what can studies of the past tell us about our present and future [How Worlds Collapse](#) offers case studies of societies that either collapsed or overcame cataclysmic adversity The authors in this volume find commonalities between past civilizations and our current society tracing patterns strategies and early warning signs that can inform decision making today While today s world presents unique challenges many mechanisms dynamics and fundamental challenges to the foundations of civilization have been consistent throughout history highlighting essential lessons for the future [Survival Diary](#) Paul L. **Numbered Days** Alexandra Garbarini, 2006-01-01 Terrorist attacks regularly trigger the enactment of repressive laws setting in motion a vicious cycle that threatens to devastate civil liberties over the twenty first century In this clear sighted book Bruce Ackerman peers into the future and presents an intuitive practical alternative He proposes an emergency constitution that enables government to take extraordinary actions to prevent a second strike in the short run while prohibiting permanent measures that destroy our freedom over the longer run Ackerman s emergency constitution exposes the dangers lurking behind the popular notion that we are fighting a war on terror He criticizes court opinions that have adopted the war framework showing how they uncritically accept extreme presidential claims to sweeping powers Instead of expanding the authority of the commander in chief the courts should encourage new forms of checks and balances that allow

for decisive but carefully controlled presidential action during emergencies In making his case Ackerman explores emergency provisions in constitutions ranging from France to South Africa retaining aspects that work and adapting others He shows that no country today is well equipped to both fend off terrorists and preserve fundamental liberties drawing particular attention to recent British reactions to terrorist attacks Written for thoughtful citizens throughout the world this book is democracy s constitutional reply to political excess in the sinister era of terrorism **100 Ideas for Primary**

treatment was dictated by the Geneva Convention and the rules of warfare For an unfortunate few mostly Jewish or other ethnic GIs a different fate awaited them Taken first to Stalag 9B at Bad Orb Germany 350 soldiers were singled out for special treatment segregated from their buddies and transported by unheated railroad boxcars with no sanitary facilities on a week long journey to Berga an der Elster a picturesque village 50 miles south of Leipzig Awaiting them at Berga was a sinister slave labor camp bulging with 1 000 inmates The incarceration at Berga is the only known instance of captured American soldiers being turned into slave laborers at a Nazi concentration camp Given Up for Dead is the story of their survival For over three months the American soldiers worked under brutal inhuman conditions building tunnels in a mountainside for the German munitions industry The prisoners had no protective masks or clothing were worked for 12 hours per shift with no food water or rest were beaten regularly for the most minor infractions or none at all were fed only starvation rations slept two to a bed in ghastly lice infested bunks and were never allowed a bath or a change of clothing Of the 350 GIs in the original contingent 70 of them died within the first two months at Berga the others struggled to survive in a living nightmare As the Allies front lines moved inexorably closer to Berga the Nazi guards forced the inmates to endure a death march as a way of keeping them from being liberated many died along the route Only the timely arrival of an American armored division at war s end saved them all from certain death Strangely when the war was over many of the Americans who had survived Berga were required to sign a security certificate which forbade them from ever disclosing the details of their imprisonment at Berga Until recent years what had happened to the American soldiers at Berga has been a closely guarded secret
