Survival Skills For Doctors And Their Families:

Survival Skills for Doctors and their Families Ruth Chambers, Steph Chambers, Kay Mohanna, 2020-01-30 So what's so special about doctors and their families? Many doctors feel that they are expected to give too much of their time to a medical career to the detriment of their family and their personal lives. This book is a practical guide to provide support and ideas on how to cope with stresses directly suffered or passed on from a relative or spouse. Written in a clear and practical style using information collated from family members describing their feelings about having a doctor in the family, it provides unique and vital information on how to minimise the effects of having a medical career on the family. Essential reading for doctors and their families. [Survival Skills for Doctors and Their Families](#) Ruth Chambers, Kay Mohanna, Steph Chambers, 2003

Including not just medics but their families as well, this volume aims to provide information on how to minimize the effects of a medical career on family members. It offers practical support and ideas on how to cope with stresses directly suffered or passed on from their relative or spouse. **Prescription for Change for Doctors Who Want a Life** Susan E.

Kersley, 2005-11 *Prescription for Change for Doctors Who Want a Life* promotes a healthy work-life balance. It is a practical, easy-to-read guide containing useful tools and advice with specific references to medical scenarios written in a straightforward style. Susan E. Kersley is a qualified doctor and regularly writes for BMJ. Career Focus speaks at the BMJ Careers Fair and runs workshops on personal development and self-care for doctors. Doctors of all grades and specialties will find this philosophy invaluable, as will medical mentors, careers advisors, and counsellors. [Guiding Doctors in Managing Their Careers](#)

Ruth Chambers, Kay Mohanna, Andrew Thornett, Steve Field, 2006 A practical toolkit for doctors, tutors, and managers in hospitals, medical schools, and primary care who give formal or informal advice to students, juniors, and colleagues. This title incorporates in a practical way several key concepts in *Modernising Medical Careers*, the NHS Priorities, the NHS Knowledge and Skills Framework, and more. *The Good Appraisal Toolkit for Primary Care* Ruth Chambers, 2004

This volume helps all healthcare professionals to prepare for annual appraisals which are expected for all staff in the NHS and mandatory for doctors. It enables those appraising others and those being appraised and will help to improve the quality of patient care and clinical standards through encouraging individual development. *The Family Guide to Survival Skills*

That Can Save Your Life and the Lives of Your Family Alan Corson, 2013-05-02 Think about where you are right now. How well would you and your family fare if today, right now, you were suddenly faced with an enormous disaster: a massive earthquake, a sudden flood, a horrific hurricane, tornado, super storm, or other catastrophic event? If you and your family are not fully prepared to face the events after a disaster and you want to learn how to prepare for and survive when a disaster strikes, this book could save your life and the lives of your family. This book details lifesaving information and illustrations for you and your family to help ensure your survival in the event of a disaster. [Swanson's Family Medicine Review](#) Richard W.

Swanson, Alfred F. Tallia, Joseph E. Scherger, Nancy Dickey, 2009-01-01 Thoroughly revised and updated, the most complete

family medicine board review guide continues to be the resource of choice for anyone preparing to take the American Board of Family Medicine ABFM examination This edition includes dozens of new cases *Psychosocial Intervention in Schizophrenia* H. Stierlin, L.C. Wynne, M. Wirsching, 2013-03-09 Today more than 70 years after Eugen Bleuler introduced the term schizophrenia the human condition so labeled continues to pose a formidable challenge to the helping professions In recent years it may seem that this challenge can be met most successfully by biologically oriented researchers and therapists All over the world neuroleptic drugs have made it possible to control disturbing symptoms and shorten hospital stays Ever more refined technologies permit study of intricate neurophysiological and pharmacological processes that seem to underlie if not contribute to schizophrenic disorders Most recently the discovery of the endorphins promises a new therapeutic breakthrough At the same time a vast and growing research literature confirms the importance if not primacy of hereditary and neurophysiological factors in the etiopathogenesis of these disorders And yet as Loren Mosher notes in this volume after 2 decades of almost universal usage of neuroleptics it is now clear that they do not cure schizophrenia It is also clear that they have serious sometimes irreversible toxicities that recovery may be impaired by them in at least some schizophrenics and that they have little effect on long term psychosocial adjustment Schizophrenia and the Family Carol M. Anderson, Douglas J. Reiss, Gerard E. Hogarty, 1986-05-12 Of all mental health disorders schizophrenia remains the most pervasive bewildering and resistant to treatment In addition to its profound effect on the patient the illness can be equally devastating to the family a problem that is compounded by the family's frequent role as provider of primary care Psychoeducation systematically takes into account the family's role in providing care and the importance of supporting this system which in turn supports the patient It is a method of care that remains focused on the family while making use of biological psychological and vocational interventions **SCHIZOPHRENIA IN THE FAMILY** represents the first treatment manual based on the psychoeducational model In conjunction with maintenance chemotherapy psychoeducation reduces the emotional intensity of the patient's environment and creates a sense of continuous care Using illustrative case examples this how to do it manual demonstrates methods to increase treatment compliance Sustain patients in the community Gradually integrate patients into familial social and vocational roles Specifically they explain how to develop a productive treatment alliance with the patient and the family and how to share with them concrete knowledge about the illness as well as management techniques for handling its difficulties They provide recommendations for managing the critical early outpatient phase of treatment and suggest methods for promoting the ability to work and socialize outside the home Additionally they describe how to conduct the final stages of treatment when patients may be moving into maintenance sessions other treatment methods or toward termination The book concludes with a helpful chapter on training issues and the application of the psychoeducational model to other mental health systems **Pediatric Endocrinology, Two Volume Set** Fima Lifshitz, 2006-12-26 Celebrating more than twenty years as the single best source in the field this Fifth Edition has now

expanded into two cornerstone volumes with 53 fully inclusive chapters and 73 renowned contributors that comprehensively address every topic and trend relevant to the identification diagnosis and management of endocrine and endocrin

Pediatric Endocrinology Fima Lifshitz, 2006-12-26 Celebrating more than twenty years as the single best source in the field this Fifth Edition has now expanded into two cornerstone volumes with 53 fully inclusive chapters and 73 renowned contributors that comprehensively address every topic and trend relevant to the identification diagnosis and management of endocrine and endocrine related disorders

Transracial Adoptees and Their Families Howard Altstein, Rita J. Simon, 1987-01-19 Transracial adoption is a controversial area of research and practice in child welfare The authors a sociologist and a social worker have contributed much to its understanding through a series of studies that began in 1972 of white families that have adopted nonwhite mostly black children This book reports on the latest phase of their research which was based on interviews with most of the families and adoptees in the original sample The purpose of the interviews was to explore the adoptees racial identities and self esteem and the long term effects of transracial adoption on the adoptees and their families The authors present their findings in a clear vivid and coherent manner objectively examine the issues raised by the study and thoughtfully formulate implications for policy and practice The study supports their major conclusion that where no appropriate permanent intracial placement can be found for a non white child transracial adoption should be seriously considered A timely unique and sophisticated work that should be read widely by students practitioners and policymakers in child welfare

Choice Reporting on the third phase of a 14 year study of transracial adoption this volume focuses on the adoption of non white children by white families It includes personal interviews with 96 mothers and fathers and 218 children which help to answer questions about the long term effects of transracial adoption on the adoptees mental and emotional health and their racial identities These valuable empirical data are combined with discussions of the practices of adoption agencies recent court rulings and alternative forms of adoption

Schizophrenia Bulletin, 1992

Promoting Health in Families Perri J. Bomar, 2003-11-04 This popular resource addresses all areas of family health with an emphasis on promoting health and wellness and family self care Formerly known as Nurses and Family Health Promotion this new edition is now entitled Promoting Health in Families indicating a more proactive approach to working with families Five new chapters reflect the changing dimensions of family health care and family life In addition the new edition introduces an international perspective recognizing the commonalities of family life across cultures and features special boxes addressing family health promotion issues in Canada Presents a unique focus on health promotion and illness prevention for families Addresses all major areas of family life such as culture roles communication stress management nutrition spirituality sexuality and recreation Provides a theoretical and historical perspective of family health and family nursing Focuses on the nursing process in the discussion of family care especially specific interventions to use when working with families Emphasizes key information through pedagogical features such as chapter objectives and chapter highlights A diverse
