**Canadian Marxists and the Search for a Third Way** Peter Campbell, 2000-01-01 Focusing on four individuals Canadian Marxists and the Search for a Third Way describes the lives and ideas of Ernest Winch Bill Pritchard Bob Russell and Arthur Mould and examines their efforts to put their ideas into practice Campbell begins by looking at their childhoods in Great Britain particularly their religious upbringing He considers their family life their attitudes toward women and ethnic minorities what they were reading and what effect that reading had on their theory and practice He describes their lives as labor leaders and advocates of socialism revealing how tenaciously in an increasingly hierarchical bureaucratized and state driven capitalist society they held to the idea that socialism must be created by the working class itself This is a unique look at four Canadian Marxists and their struggle to create an educated disciplined democratic mass based movement for revolutionary change The Labour Companion, 1980-01-01 Prepared by the Committee on Canadian Labour History publishers of the influential journal Labour Le Travailleur this volume is an excellent resource for students of the history of workers in Canada The compilers described this book as a working bibliography that is a compilation of scholarship to date in an incredibly active and burgeoning field of study It includes hundreds of entries for materials printed between 1950 to 1975 arranged alphabetically and fully indexed The text is illustrated with revealing photographs First published in 1980 The Labour Companion remains a valuable reference for students of labour s role in Canadian history *The Fall of the House of Labor* David Montgomery, 1987-08-28 This book studies the changing ways in which American industrial workers mobilised concerted action in their own interests between the abolition of slavery and the end of open immigration from Europe and Asia Sustained class conflict between 1916 and 1922 reshaped governmental and business policies but left labour largely unorganised and in retreat The House of Labor so arduously erected by working class activists during the preceeding generation did not collapse but ossified so that when labour activism was reinvigorated after 1933 the movement split in two These developments are analysed here in ways which stress the links between migration neighbourhood life racial subjugation business reform the state and the daily experience of work itself Towards a Godless Dominion Elliot Hanowski, 2023-10-15 In recent surveys one in four Canadians say they have no religion A century ago Canada was widely considered to be a Christian nation and the vast majority of Canadians claimed they were devoutly religious But some were determined to resist In the 1920s and 30s groups of militant unbelievers formed across Canada to push back against the dominance of religion Towards a Godless Dominion explores both anti religious activism and the organized opposition unbelievers faced from Christian Canada during the interwar period Despite Christianity s prominence anti religious ideas were propagated by lectures in theatres through newspapers and out on the streets Secularist groups in Montreal Toronto Winnipeg and Vancouver actively tried to win people away from religious belief In the first two cities they were met with stiff repression by the state which convicted unbelievers of blasphemous libel broke up their meetings and banned atheistic

literature from circulating In the latter two cities unbelievers met social disapproval rather than official persecution Looking at interwar controversies around religion such as arguments about faith healing and fundamentalist campaigns against teaching evolution Elliot Hanowski shows how unbelievers were able to use these conflicts to get their skeptical message across to the public Challenging the stereotype of Canada as a tolerant secular nation Towards a Godless Dominion returns to a time when intolerant forms of Christianity ruled a country that was considered more religious than the United States

**Crisis of Conscience** Amy J. Shaw, 2009-07-01 The First World War's appalling death toll and the need for a sense of equality of sacrifice on the home front led to Canada's first experience of overseas conscription While historians have focused on resistance to enforced military service in Quebec this has obscured the important role of those who saw military service as incompatible with their religious or ethical beliefs Crisis of Conscience is the first and only book about the Canadian pacifists who refused to fight in the Great War The experience of these conscientious objectors offers insight into evolving attitudes about the rights and responsibilities of citizenship during a key period of Canadian nation building *River Road* Gerald Friesen, 1996-12-03 The prairies are a focal point for momentous events in Canadian history a place where two visions of Canada have often clashed Louis Riel the Manitoba School Question French language rights the 1919 Winnipeg General Strike and the dramatic collapse of the Meech Lake Accord when MLA Elijah Harper voted No Gerald Friesen believes that it is the responsibility of the historian to tell local stories in terms and concepts that make plain their intrinsic value and worth that explain the relationship between the past and the present For local experiences to have any relevant meaning they must be put into the context of the wider world These essays were written for the general reader and the academic historian They include previously published works many of them revised and updated from a wide variety of sources and new pieces written specifically for River Road examining aspects of prairie and Manitoba history from many different perspectives They offer portraits of representatives from different sides of the prairie experience such as Bob Russell radical socialist and leader of the 1919 General Strike and J H Riddell conservative Methodist minister who represented sane and safe stewardship in the 1920s and 1930s They explore the changing relationship between Aboriginal peoples and the dominant society from the prosperous Metis community that flourished along the Red River in the 19th century and produced Manitoba's first Metis premier to the events that led to the Manitoba Aboriginal Justice Inquiry in the 1980s Other essays consider new viewpoints of the prairie past using the perspectives of ethnic and cultural history women's history regional history and labour history to raise questions of interpretation and context The time frame considered is equally wide ranging from the Aboriginal and Red River society to the political arena of current constitutional debates Partial Visions Richard M. Merelman, 1991 A pathbreaking study of political culture in the United States Britain and Canada Partial Visions demonstrates how popular culture expressed through television soap operas and comedies civics and history textbooks magazine advertisements and corporate publications and recruitment leaflets subtly deflects and suppresses democratic political action Richard Merelman

argues that political messages embedded in popular culture weaken the division between public and private and between society and the individual These partial visions of democracy are idealized yet inequitable revelatory yet distorted As a result issues that might galvanize useful group conflict do not emerge and the full potential for public participation in a liberal democracy remains unrealized Britain Canada and the United States share a liberal political culture but differ in their historical evolution and in the structure of their institutions Each country Merelman suggests has developed a distinctive popular culture that shapes public opinion and stifles political debate in nationally specific ways Different rhetorical devices and metaphors operate in each nation he points out in Britain for example the monarchy and party system serve as symbols of political reconciliation between the individual and the collectivity Characterizing the United States as a culture of institutionalized individualism and Canada as a culture of emotionally tepid group conflict Merelman finds Britain s culture of group based political debate the most successful in encouraging democratic participation Drawing on symbolic anthropology poststructuralist literary theory and positivistic analyses of attitudes and media influence Merelman conducts a controlled comparison of media representations political discourse and public opinion using rich complex sets of quantitative and qualitative data He concludes that culture is not reducible to institutional interests but is intelligible as a whole structure furthermore culture can and sometimes does change the contours of political conflict

**Magnificent Fight** Dennis Lewycky,2019-04-29T00:00:00Z In May 1919 30 000 Winnipeg workers walked away from their jobs shutting down large factories forcing businesses to close and bringing major industries to a halt Mounted police and hired security at the behest of the ruling class violently ended the protest after six weeks Two men were killed What started as trade union revolt the Winnipeg General Strike became a mass protest and was branded as a revolution In **Magnificent Fight** Dennis Lewycky lays out the history of this iconic event which remains the biggest and longest strike in Canadian history He analyzes the social political and economic conditions leading up to the strike He also illustrates the effects the strike had on workers unions and all three levels of government in the following decades Far from a simple retelling of the General Strike **Magnificent Fight** speaks to the power of workers solidarity and social organization And Lewycky reveals the length the capitalist class and the state went to in protecting the status quo By retelling the story of the Strike through the eyes of those who witnessed it Lewycky s account is both educational and entertaining

**History of the Canadian Labour Unions** Marian Dworaczek,1983  
**The Workers' Revolt in Canada, 1917-1925** Craig Heron,1998-01-01 A clear concise portrait of one of the most dramatic moments in the history of working class life and class relations generally in Canada the upsurge of working class protest at the end of the First World War

**Lectures in Canadian Labour and Working-class History** Committee on Canadian Labour History,1985  
**A Practical Guide to Canadian Political Economy** Wallace Clement,Daniel Drache,1978 Until now there has never been a satisfactory bibliography of the books articles and other material that make up the literature of Canadian political economy This checklist includes about 1500 items organized by subject and is as

comprehensive as the compilers and their many advisers could make it The introductory essay by Daniel Drache provides a brief history of Canadian political economy and a guide to the major books in this field Published in 1978 A Practical Guide to Canadian Political Economy is a useful reference to sources published up to the late 1970s Bulletin of the Committee on Canadian Labour History.
