Records and Briefs** California (State)., The Political Culture of Planning J. Barry Cullingworth, J. Barry Cullingworth, 2002-09-26 The Political Culture of Planning is written for two quite distinct readerships The main body of the book synthesizes a mass of information to provide an overview of a complex and amorphous field This material is designed to meet the needs of students who require a succinct account of the American system of land use planning These readers can ignore the notes For those who are embarking upon a much wider and deeper study of land use planning in the US the notes are crucial they provide the guideposts to an immensely rich literature The first four parts of the text present the main issues of land use planning in the US Part 1 assesses the US zoning system The introductory chapter discusses the meaning of

zoning and its difference from planning the primacy of local governments the constitutional framework and the role of the courts Chapter two provides the historical background to zoning and an outline of the classic Euclid case Chapter three discusses the objectives and nature of zoning and the use which local governments have made of its inherently inflexible character Chapter four acts as a corrective to this view describing how lawyers and planners have shown remarkable ingenuity in adapting zoning to the demands of a changing society Part 2 deals with the perennial issues of discrimination financing infrastructure for new development and the process for negotiating zoning matters Part 3 presents a discussion of two overlapping issues of increasing significance aesthetics and historic preservation Part 4 focusses on the main issue facing land use planners attempting to channel the forces of development into spatial forms held to be socially desirable Part 5 consists of a series of broad ranging essays which discuss land use planning in the US its institutional and cultural framework and the reasons for its particular character Part 6 discusses the limited possibilities for land use reform in the US drawing on the author s considerable experience in both Britain and Canada in order to interpret the limitations and potentialities of land use planning in the US

The Coming Age of Direct Democracy Mark Baldassare, Cheryl Katz, 2008 This book examines the new hybrid democracy that has been taking shape in California since the historic recall of Gov Gray Davis and election of former actor Arnold Schwarzenegger in 2003 During the recall and its aftermath California has reached unprecedented levels of use of direct democracy in which public policy decisions are made by voters at the ballot box rather than by elected representatives in the legislature Driven by Californians long standing populism and distrust of government a new form of governance is emerging one that seeks to avoid the pitfalls of party politics and influence by special interest groups that plague representative democracy by increasing the role of voters at the ballot box This book analyzes the hybrid democracy that has developed under Gov Schwarzenegger and how his leadership has encouraged its growth Using the Public Policy Institute of California Statewide Surveys which include interviews with more than 150 000 Californians the authors detail the transformation in the state s political climate and the public attitudes behind this change The authors conclude that this transformation will likely take place in other states perhaps even nationwide and offer recommendations for ways to improve policymaking in a hybrid democracy

rmation in the state s political climate and the public attitudes behind this change The authors conclude that this transformation will likely take place in other states perhaps even nationwide and offer

recommendations for ways to improve policymaking in a hybrid democracy **A Government by the People** Thomas Goebel, 2003-04-03 Between 1898 and 1918 many American states introduced the initiative referendum and recall known collectively as direct democracy Most interpreters have seen the motives for these reform measures as purely political but Thomas Goebel demonstrates that the call for direct democracy was deeply rooted in antimonopoly sentiment Frustrated with the governmental corruption and favoritism that facilitated the rise of monopolies advocates of direct democracy aimed to check the influence of legislative bodies and directly empower the people to pass laws and abolish trusts But direct democracy failed to achieve its promises corporations and trusts continued to flourish voter turnout rates did not increase and interest groups grew stronger By the 1930s it was clear that direct democracy favored large organizations with the financial and organizational resources to fund increasingly expensive campaigns Recent years have witnessed a resurgence of direct democracy particularly in California where ballot questions and propositions have addressed such volatile issues as gay rights and affirmative action In this context Goebel's analysis of direct democracy's history evolution and ultimate unsuitability as a grassroots tool is particularly timely **The Dynamics of California Government and Politics** Richard B. Harvey, 1991 **A California State of Mind** Mark Baldassare, 2002-10-08 Mark Baldassare one of California's leading public opinion experts gives an authoritative and highly informative view of the state during its recent years of prosperity and more recent economic insecurity Based on findings of the most comprehensive public opinion survey in the state this book examines the beliefs concerns and public policy preferences of Californians during the 1990s focusing in particular on Californians deep and ongoing distrust of government and the way this distrust has shaped the recent political climate A California State of Mind combines an incisive analysis of long term trends such as population growth and changing demography with up to date discussions of how the recent electricity crisis and the September 11 terrorist attacks have affected residents distrust of government making this book a key source for Californians as they consider the future A joint publication with the Public Policy Institute of California *Proposition 13's Effect on the Pattern of Regional Development in the San Francisco Bay Area* Michael Reilly, 1998 County Finance in the Post-Proposition 13 Era, 1988 **When Government Fails** Mark Baldassare, 1998-06-01 When Orange County California filed for Chapter 9 protection on December 6 1994 it became the largest municipality in United States history to declare bankruptcy In the first comprehensive analysis of this momentous fiscal crisis Mark Baldassare uncovers the many twists and turns from the dark days in December 1994 to the financial recovery of June 1996 Utilizing a wealth of primary materials from the county government and Merrill Lynch as well as interviews with key officials and players in this drama Mark Baldassare untangles the causes of this 1.64 billion fiasco He finds three factors critical to understanding the bankruptcy one the political fragmentation of the numerous local governments in the area two the fiscal conservatism underlying voters feelings about their tax dollars three the financial austerity in state government and in meeting rising state expenditures Baldassare finds that these forces help to explain how

a county known for its affluence and conservative politics could have allowed its cities school water transportation and sanitation agencies to be held hostage to this failed investment pool Meticulously examining the events that led up to the bankruptcy the local officials response to the fiscal emergency and the road to fiscal recovery as well as the governmental reforms engendered by the crisis When Government Fails is a dramatic and instructive economic morality tale Eminently readable it underlines the dangers inherent in a freewheeling bull economy and the imperatives of local and state governments to protect fiscal assets As Baldassare shows Orange County need not and should not happen again

California David G. Lawrence,2000 This text offers a thematic comprehensive look at California politics written from the perspective of someone who teaches California Politics and has worked in local government **California Outdoor Recreation Plan** California. Department of Parks and Recreation,1988 *Jesse Marvin Unruh Assembly Fellowship Journal* ,1995 **Recent Publications on Governmental Problems** ,1989
