barely a century later these same words were claimed by Nazi propagandists and twisted by a barbarism so complete that it ruptured as one philosopher put it the deep layer of solidarity among all who wear a human face When it comes to how societies remember these increasingly distant dreams and catastrophes we often think of history books archives documentaries or memorials carved from stone But in *Time's Echo* the award winning critic and cultural historian Jeremy Eichler makes a passionate and revelatory case for the power of music as culture's memory an art form uniquely capable of carrying forward meaning from the past With a critic's ear a scholar's erudition and a novelist's eye for detail Eichler shows how four towering composers Richard Strauss Arnold Schoenberg Dmitri Shostakovich and Benjamin Britten lived through the era of the Second World War and the Holocaust and later transformed their experiences into deeply moving transcendent works of music scores that echo lost time Summoning the supporting testimony of writers poets philosophers musicians and everyday citizens Eichler reveals how the essence of an entire epoch has been inscribed in these sounds and stories Along the way he visits key locations central to the music's creation from the ruins of Coventry Cathedral to the site of the Babi Yar ravine in Kyiv As the living memory of the Second World War fades *Time's Echo* proposes new ways of listening to history and learning to hear between its notes the resonances of what another era has written heard dreamed hoped and mourned A lyrical narrative full of insight and compassion this book deepens how we think about the legacies of war the presence of the past and the renewed promise of art for our lives today
