### **Your Body Is a**

**Revolution** Tara Teng,2023-06-06 It s time to fully inhabit our lives to reclaim what has been stolen from us and to embrace the wisdom our bodies long to share Too many of us are living disconnected from our bodies chasing a constantly moving target of ideal and accepting the societal narrative about which bodies are deserving of safety and protection In an effort to keep ourselves safe we shame push aside and assimilate parts of ourselves that don t align with the cultural norm In turn we are disconnected from our bodies and therefore from our humanity losing sight of the true nature of who we are Embodiment coach Tara Teng helps us untangle ourselves from centuries of body based oppression built into our societal systems or masquerading as religion When we embrace our relationship with our bodies we come into alignment with all things ourselves each other the earth and our spirituality When we embrace ourselves we can take back what society says is too much too loud too feminine too masculine too gay too worldly too unique Now is the time to journey back to our bodies and to celebrate our whole selves

### *Digital Storytelling in Health and Social Policy* Nicole Matthews,Naomi

Sunderland,2017-04-21 As digital life stories continue to assume more and more significance across a range of institutions so too does their potential to bring into focus once marginalised and neglected voices Breaking new ground by reframing multimedia life stories as a resource for education public health and policy this book challenges policymakers professionals and researchers to reimagine how they find out about and respond to people s daily lives and experiences of health disability and well being The book develops theoretical methodological and practical resources for listening to digital stories through a

series of carefully selected international case studies from dementia care education to campaigns in the UN to ban cluster munitions The case studies explore and illuminate different ways that digital stories have and have not been listened to in the past The authors expose the great potential as well as the complexity of using powerful personal stories in practice Together the case studies highlight that processes of listening to learning from and making use of digital stories involve unavoidable processes of reinterpretation recontextualisation and translation which have significant ethical and political implications for storytellers listeners and society In mapping and theorising the movement of stories into new contexts of policy and practice the book offers a critical lens on the widely celebrated democratising potential of digital storytelling and its capacity to amplify marginalised voices Digital Storytelling in Health and Social Policy develops an authoritative and original re conceptualisation of digital life stories and their use for social justice ends and will be important reading for researchers and practitioners from a range of backgrounds including social policy digital media communication education disability and public health
