**THE SHADOW OF SACRIFICE** Donald D. Deignan, 2016-10-24 On March 18 1942 barely one hundred days after Japan's devastating surprise attack on the United States Navy's Pacific Fleet based at Pearl Harbor a group of American soldiers were guarding a beach on the north shore of the Hawaiian island of Oahu against an expected Japanese amphibious invasion The atmosphere was tense Suddenly a gunshot shattered the almost perfect silence of that tropical night In its aftermath one young American soldier lay dead not far from the beach he was guarding But who was he And what were the circumstances which had led to his tragic death The Shadow of Sacrifice answers these questions and in the process tells the compelling and poignant story of the way in which that single gunshot has echoed down through the generations of one typical American family Here is a mystery a tragedy a kind of love story a tale of survival and transformation and the unfolding record of promises made and kept The young American soldier who died mysteriously on that Hawaiian beach in 1942 was my beloved uncle Private First Class Donald Joseph John Deignan for whom I was proudly named Our lives have always been closely and positively connected Here just in time for the 75th Anniversary of the Pearl Harbor Attack is a thorough examination of the unbreakable and mutually beneficial bonds of love and loyalty which still unite us today Veterans and their families Baby boomers immigrants and people with disabilities will all find themselves reflected in our particular story

Gilman, James Thomas, 2018-09-04 The connection and science behind race racism and mental illness In 2012 an interdisciplinary team of scientists at the University of Oxford reported that based on their clinical experiment the beta blocker drug Propranolol could reduce implicit racial bias among its

users Shortly after the experiment an article in Time Magazine cited the study posing the question Is racism becoming a mental illness In Are Racists Crazy Sander Gilman and James Thomas trace the idea of race and racism as psychopathological categories from mid 19th century Europe to contemporary America up to the aforementioned clinical experiment at the University of Oxford and ask a slightly different question than that posed by Time How did racism become a mental illness Using historical archival and content analysis the authors provide a rich account of how the 19th century Sciences of Man including anthropology medicine and biology used race as a means of defining psychopathology and how assertions about race and madness became embedded within disciplines that deal with mental health and illness An illuminating and riveting history of the discourse on racism antisemitism and psychopathology Are Racists Crazy connects past and present claims about race and racism showing the dangerous implications of this specious line of thought for today
