Suspended Conversations The Afterlife Of Memory In Photographic Albums:

Suspended Conversations Martha Langford, 2001 In *Suspended Conversations* Martha Langford breathes life into photographic albums These travelogues memoirs thematic collections and family sagas embody the intimate preoccupations of their compilers and the great events of a golden photographic age 1860 to 1960 Langford also traces the influence of photograph albums on the installations photo narratives and photo sequences of contemporary artists Whether dealing with art museum archives or the family heirloom *Suspended Conversations* bring photography into the great conversation about how we remember our stories and send them into the future BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Suspended Conversations Martha Langford, 2021-10-13 In *Suspended Conversations* Martha Langford shows how photographic albums tell intimate and revealing stories about individuals and families Rather than isolate the individual photograph treat albums as texts or argue that photography has supplanted memory she demonstrates that the photographic album must be taken as a whole and interpreted as a visual and verbal performance that extends oral consciousness Exhibiting a collection of photographic travelogues memoirs thematic collections and family sagas compiled between 1860 and 1960 and held by the McCord Museum of Canadian History this second edition includes a revised and expanded preface along with new photographs of the Notman albums Printed in colour throughout the enhanced material draws out the distinct nuances and details of each album giving them new life to tell their stories Albums are treasured by families collected as illustrations of the past by museums of social history and examined by scholars for what they can reveal about attitudes and sensibilities but when no one is left to tell the tale the intrigue of the album becomes a puzzle a suspended conversation Langford argues that oral consciousness provides the missing key Correlating photography and orality she explains how albums were designed to work as performances and how we can unlock their mysteries A fascinating glimpse of the preoccupations of previous centuries *Suspended Conversations* brings photography into the great conversation of how we remember and how we send our stories into the future

as these albums move out of private domestic space and into public archives institutions and digital formats This book does not consider photographic albums and scrapbooks as separate genres but as a continuum of modern creative practices of photographic and mass print collage aimed at self expression and narrative building that co evolved and were readily accessible The book will be of interest to scholars working in art history history of photography visual culture material culture media studies and cultural studies

Framing Portraits, Binding Albums Shilpi Goswami, Suryanandini Narain, (eds.), 2025-01-06 Long neglected in academic discourse in India family photographs make a silent contribution to the histories of photography marginality and the family In this volume the writers dwell on the importance of family photographs and their visual omnipresence in our daily lives They point out how family photographs have belonged to the vernacular material of visual culture more seen and lived with less written and consciously thought about Attempting to retrieve family photographs from a space of neglect this volume demonstrates how they are fundamental to the microhistories of a nation and its many societies and suggests the importance of such counterarguments to the dominant strains in an emerging discursive space The essays do not offer a comprehensive survey of all types of family photographs in India Instead they present focused insights into chosen areas of interest on the part of the writers Collectively they embrace the intersectionalities of gender caste class and regional trajectories making the politics of representation even more layered with contestations between the historical oral and affective memorialisation surrounding family archives and photographs These concerns centrally inform the essays as they accept and negotiate a terrain shared by all types of narrativisation

Photographing Papua Max Quanchi, 2009-03-26 Photographing Papua is a study of photography in the public domain in the late nineteenth and early twentieth centuries It argues that southeastern New Guinea known as British New Guinea and then as Papua when it became an Australian colony was created as a geographical place through visual representation in illustrated magazines and newspapers lavishly illustrated travelogues and mission hagiography serial encyclopedia lantern slides and postcards Readers knew Papua because many thousands of black and white photographs of Papuans villages and material culture rapidly swamped the reading public once the process of halftone newsprint reproduction became possible In an innovative and breakthrough fashion Photographing Papua switches attention from a few well known prints in museums and archives in some cases repeatedly reproduced but mostly rarely seen outside of scientific and scholarly circles It deals instead with thousands of photographs often used in ways not intended when the photograph was taken but which editors and publishers and subsequent photographers gradually made conform to an iconographic imperative a sort of abbreviated visual gallery of natives and a quick access pathway to the actual and imagined lives of Papuans in the last Unknown as New Guinea was titled It is a study of representation colonialism cross cultural encounters and the early world of illustrated media and photo journalism
