## **Suspended Elegance:**

*Suspended Elegance* Kristi Carlson, Joy Carlson, 1975      *Elegance* Ali Rahim, Hina Jamelle, 2007-03-23 *Elegance* represents an important watershed in architectural design. Since the onset of computer-driven technologies, innovative designers have almost exclusively been preoccupied with the pursuit of digital techniques. This issue of AD extrapolates current design tendencies and brings them together to present a new type of architecture, one that is seamlessly trying processes space, structure, and material together with beauty. *Elegance* here is cast with a new contemporary meaning as it is applied to work that is effortlessly complex. It is analogous to an elegant algorithm that uses a small amount of initiative code to great effect. In a structure, elegance may be expressed by a complex surface that retains its continuity and integrity even when punctured. In many ways, *Elegance* marks a coming of age for digital architecture as architects become more adept at producing complexity and integrating digital design technologies, production and assembly systems producing elegant solutions. It is the potent finesse that is often associated with the work of Zaha Hadid Architects and other featured architects such as Mark Goulthorpe of Decoi and Hani Rashid of Asymptote.      The Meritocracy Quartet Jeffrey Lewis, 2015-03-15

Acclaimed writer Jeffrey Lewis is known for his deft portrayals of relatable figures from all walks of life. In *The Meritocracy Quartet*, his four interlinking novels *Meritocracy*, *A Love Story*, *The Conference of the Birds*, *Theme Song*, *For an Old Show*, and *Adam the King* have been brought together for the first time into a single volume. Set against the backdrop of the changing American landscape over four decades, *The Meritocracy Quartet* is a testament to the country's evolving personality. The quartet follows Louie, a Yale graduate from a modest background with a gift for forging connections in high and low places. Beginning in the 1960s as he documents a going-away party for a fellow Yale on his way to Vietnam and continuing through his spiritual encounters with a 1970s group of city misfits, his turn to television writing in the 1980s, and a tragic love story between two of his close friends in the 1990s, Louie chronicles not only his own personal struggles, his silent love for his best friend's girl, his delicate relationship with an at times absent father, but also the attitudes, events, and people that marked his generation. From the Vietnam War to George W. Bush, from television trends to the divide between the haves and have-nots, *The Meritocracy Quartet* is a moving witness to everything America had to offer in the latter portion of the twentieth century.

 reassesses the life and legacy of one of the most significant cultural figures of the twentieth century Unevenly respected  
 easily hated almost always suspected of being inferior to his reputation Jean Cocteau has often been thought of as a jack of  
 all trades master of none In this landmark biography Claude Arnaud thoroughly contests this characterization as he  
 celebrates Cocteau's fragile genius a combination almost unlivable in art but in his case so fertile Arnaud narrates the life of  
 this legendary French novelist poet playwright director filmmaker and designer who as a young man pretended to be a sort  
 of a god but who died as a humble and exhausted craftsman His moving and compassionate account examines the nature of  
 Cocteau's chameleon-like genius his romantic attachments his controversial politics and his intimate involvement with many  
 of the century's leading artistic lights including Picasso Proust Hemingway Stravinsky and Tennessee Williams Already  
 published to great critical acclaim in France Arnaud's penetrating and deeply researched work reveals a uniquely gifted

Kay Bea Jones,2016-04-01 Franco Albini s works of architecture and design produced between 1930 and 1977 have enjoyed a recent revival but to date have received only sporadic scholarly attention from historians and critics of the Modern Movement A chorus of Italian voices has sung his praises none more eloquently than his prot g Renzo Piano Kay Bea Jones illuminating study of selected works by Studio Albini will reintroduce his contributions to one of the most productive periods in Italian design Albini emerged from the ideology of Rationalism to produce some of Italy s most coherent and poetic examples of modern design He collaborated for over 25 years with Franca Helg and at a time when professional male female partnerships were virtually unknown His museums and installation motifs changed the way Italians displayed historic artifacts He composed novel suspension structures for dwellings shops galleries and his signature INA pavilions where levity and gravity became symbolic devices for connoting his subjects Albini clarified the vital role of tradition in modern

architecture as he experimented with domestic space His cohort defied CIAM ideologies to re socialize postwar housing and speculate on ways of reviving Italian cities He explored new fabrication technologies from the scale of furniture to wide span steel structures yet he never abandoned the rigors of craft and detail in favor of mass production Suspending Modernity follows the evolution of Albini s most important buildings and projects even as they reveal his apprehensive attitudes about the modern condition Jones argues here that Albini s masterful use of materials and architectural expression mark an epic paradigm shift in the modern period
