Suspense In The Formula Story:

Suspense in the Formula Story George N. Dove, 1989 Dove states that the purpose of this book is to develop a theoretical base for a critical approach to the interpretation of the formula story. Such an approach should take into account the relationship between author and reader that determines such tacit agreements as the two axioms of formula fiction: the reader knowledge convention and the signals that pass between author and reader. Specifically, the chief concern of this book will be the criticism/interpretation of the mystery. The Readers' Advisory Guide to Genre Fiction Joyce G. Saricks, 2009 This revised edition provides a way of understanding the vast universe of genre fiction in an easy to use format. Expert readers advisor Joyce Saricks offers groundbreaking reconsideration of the connections among genres. **The Reader and the Detective Story** George N. Dove, 1997 As every detective novel addict knows, there's no greater high than figuring out whodunit before the final revelation resulting in the kind of intellectual satisfaction a shot of bourbon can never offer. Dove takes this reader/writer play to a new level by critically assessing the genre through the principles of Reader Response Theory, outlining the detective story as a special case of reading governed by rules and a specialized formula that traces its genealogy back to Poe's *The Murders in the Rue Morgue*. Paper edition, 1895. Annotation copyrighted by Book News, Inc., Portland, OR. **Expanding Circles, Transcending Disciplines, and Multimodal Texts** Bernhard Kettmann, Georg Marko, 2003 Beyond Aesthetics Noël Carroll, 2001-04-30 Claims authorial intention, art history, and morality play a role in our encounter with art works. *Communication and Emotion* Jennings Bryant, David R. Roskos-Ewoldsen, Joanne Cantor, 2003-05-14 This collection serves two important functions: it synthesizes theory and research in the vital and vibrant area of communication and emotion, and it highlights the scholarly work and contributions of Dolf Zillmann, the preeminent contributor to this area of inquiry. As one of the most productive and influential scholars in the annals of communication inquiry, Zillmann is well known for his contributions in the areas of communication, emotion, media effects, and aggression. Editors Jennings Bryant, David Roskos-Ewoldsen, and Joanne Cantor have collected groundbreaking essays from scholars active in the field, all of whom studied under or worked with Zillmann during his exemplary career. The contributions included here acknowledge the significance of Zillmann's work and identify many of the intellectual streams that contributed to his scholarship. Utilizing both psychology and communication perspectives, this volume covers the current literature in communication and emotion with a focus on key theories, media effects, and entertainment theory. As a comprehensive synthesis of theory and research in communication and emotion, it will be of great interest to scholars in communication theory, cognitive and social psychology, and psychophysiology. With a concluding state-of-the-art chapter by Dolf Zillmann himself, this volume offers a thorough and distinctive examination of communication and emotion scholarship, and it will serve as an invaluable resource for current and future generations of scholars. **The Clive Cussler Adventures** Steven Philip Jones, 2014-05-20 The author of more than 50 books, 125 million copies in print, Clive Cussler is the current grandmaster of
