Modern Buildings in London Ian Nairn, 2023-09-05 Without any doubt London is one of the best cities in the world for modern architecture But it is also one of the biggest cities in the world and it does not make a display of its best things A visitor looking for new buildings in the City and the West End might well be justified in turning away with a shudder Yet delightful things may be waiting for him in Lewisham or St Albans Ian Nairn from the foreword As one of the few architectural critics to eschew purely aesthetic modes of analysis Ian Nairn's timeless books on modern urban cities have been hailed as some of the most significant writing about contemporary Britain while also being praised as alternative guidebooks for curious travelers First published in 1964 *Modern Buildings in London* celebrates the character of buildings that were immediately recognizable as modern in 1964 many of which were not part of the well known landscape of London but instead were gems that Nairn stumbled across Written by a layman for laymen Nairn's take on modern design includes classic London buildings such as the Barbican the former BBC Television Centre and the Penguin Pool at Regent's Park Zoo as well as schools old timber yards ambulance stations car parks and even care homes

contributions of scholars from 13 countries **From the Shadows** Owen Hopkins, 2015-11-15 Nicholas Hawksmoor 1662-1736 is one of English history's greatest architects outshone only by Christopher Wren under whom he served as an apprentice. A major figure in his own time, he was involved in nearly all the grandest architectural projects of his age and he is best known for his London churches, six of which still stand today. Hawksmoor wasn't always appreciated; however, for decades after his death, he was seen as at best a second-rate talent. *From the Shadows* tells the story of the resurrection of his reputation, showing how over the years his work was ignored, abused, and altered, and finally recovered and celebrated. It is a story of the triumph of talent and of the power of appreciative admirers like T. S. Eliot, James Stirling, Robert Venturi, and Peter Ackroyd, all of whom played a role in the twentieth-century recovery of Hawksmoor's reputation. *Bishops* Michael Keulemans, 2011-12-19 There has been no serious study of Anglican bishops since Kenneth Kirk published *Apostolic Ministry* in 1946. This new book goes straight back to the New Testament and the Early Church to discover the little-known origins of episcopal ministry and how it came to Britain through the efforts of first the Celtic and then the Roman Church. Increasing politicisation by William the Conqueror and his successors is examined in depth, as is Cranmer's rediscovery of its essentially teaching and pastoral functions of the episcopate at the Reformation. Lancelot Andrewes's career is spotlighted to find the true qualities of the classic 17th-century Anglican bishop before he declined into the political hack and social climber of the 18th century. A chapter on the 19th century shows how Queen Victoria, her entourage, her Prime Ministers, and her Archbishops of Canterbury all played lively parts in the appointment of new bishops, with considerable tussles frequently occurring between them. The history can be truly absorbing. A statistical analysis reveals how the English episcopate has changed in the century between 1905 and 2005, noting that while the educational backgrounds of bishops have not altered greatly, with Oxbridge still a major influence, their social backgrounds and ecclesiastical careers now tend to follow a different path. Has this produced a better episcopate? The episcopal histories of the Church in Wales and the Scottish Episcopal Church get a chapter each, which include a close-up of their contrasting methods for appointing bishops and the resulting difference in atmosphere between these two bodies. The Scottish chapter shows how the Episcopalians' democratic electoral system travelled to the USA at the end of the 18th century and subsequently influenced the episcopal organisation of nearly all newer branches of the Anglican Communion. A chapter on changing thinking about episcopacy in the Church of England and elsewhere reveals several trends, including moves towards collegial decision-making and a decline in emphasis upon the teaching and pastoral functions. There is also a review of the growing phenomenon of extra-mural Anglicanism brought into being in the aftermath of ordaining women priests and adopting a less rigorous attitude towards marriage and other sexual matters. The results of a major statistical survey on the attitudes of clergy and laity and recently retired bishops towards the episcopate and its responsibilities are presented in detail. The dioceses surveyed were Bradford, Leicester, Monmouth, and Edinburgh. These results highlight the huge pressures and varied calls upon a bishop's time, including his relationship with

his parishes attendance at the House of Lords diocesan administration and clergy discipline Are bishops on a hiding to nowhere The final chapter expands upon the lessons to be learnt from both the historical analysis and the results of the statistical survey asking whether the existing episcopate is adequate to face the challenges of today and tomorrow Practical solutions are offered which will stimulate action to promote the faith of Christ in an increasingly difficult religious political social and economic environment A suggestion is also made to help create a Church where both those for and against women priests can co exist and flourish in their work without either side suffering offence or marginalisation Unfortunately bishops are an embarrassing subject for clergy and laity to discuss which is why they have been so little researched and so infrequently written about They are important people and wield great power For their own sakes and for the sake of the Church their role must be discussed sympathetically but realistically This important book should help start the process

Earls Colne's Early Modern Landscapes Dolly MacKinnon, 2016-04-29 The Essex village of Earls Colne boasts one of the most comprehensive collections of historical documents in Britain and has been the subject of an intensive and ongoing research project to collate and computerise the surviving records As such Earls Colne is undoubtedly one of the most studied parishes in England Yet whilst much is now known about the village and its inhabitants little work has been done on the social relationships that bound the community together within its mental and physical landscape As such scholars will welcome Dr MacKinnon's investigation into the social political and cultural world of early modern England as represented by Earls Colne The book provides a fresh approach to the study of the landscape of a seventeenth century village by focussing on the relationships between political power and cultural artefacts It examines how private public and communal spaces within society were generated gendered and governed and how this was recorded and perpetuated in the records names and monuments of the parish and surrounding landscape Yet whilst the elites tried to represent a select social landscape through their control of the local records and documents these attempts were always counterbalanced by the less powerful members of the community who occupied and contested these spaces By reconstructing the dynamics of Earls Colne through a careful reading and cross referencing of the surviving documents buildings and place names this book offers a fascinating insight into how the sights and sounds of early modern society were imbued with the social relations of parish politics As well as deepening our understanding of Earls Colne itself the book offers historians the potential to revisit other local studies from a fresh perspective
