Sustainable Agricultural Production Consultative Group on International Agricultural Research. Technical Advisory Committee, 1989      Sustainable Agricultural Production Fao, 1989      Sustainable Agricultural Production: Implications for International Agricultural Research Food and Agriculture Organization of the United Nations, 1989      **International Agricultural Development** Carl K. Eicher, John M. Staatz, 1998-11-20 Other topics include market failures food insecurity rural poverty environmental degradation income and asset inequality fiscally sustainable organizations the changing roles of the public and private sector in research input delivery systems marketing and low rates of agricultural growth in much of sub Saharan Africa      Agrarian Science for Sustainable Resource Management in Sub-Saharan Africa George Ouma, Franz-Theo Gottwald, Isabel Boergen, 2009 The livelihood of the world's population depends mostly on natural resources land forest water and the air we breathe The continual degradation and diminution of these resources due to the cultivation of land threatens the economic and social security of individuals communities and countries as well as the intricate web of ecological social economic and cultural relations that bind the global community together To be productive our resources must be managed properly enriched and harvested responsibly      **WORKSHOP ON SUSTAINABLE AGRICULTURE: CONSIDERATIONS FOR IICA'S WORK ,      WORKSHOP ON SUSTAINABLE AGRICULTURE: CONSIDERATIONS FOR IICA'S WORK San Jose, June 22-23, 1989 ,      International Research on Natural Resource Management** Hermann Waibel, David Zilberman, 2007-01-01 Over the past two decades significant investment has been made into agriculture related natural resource management research in developing countries This collection of case studies establishes a methodological foundation for impact assessments of NRM through a discussion of research conducted by the CGIAR around the world      Sustainable Or Alternative Agriculture Jayne T. MacLean, 1991      Agricultural Growth, Natural Resource Sustainability, and Poverty Alleviation in Latin America Oscar Gonzales, 1997      **Toward Sustainability** National Research Council, Board on Science and Technology for International Development, Board on Agriculture, Panel for Collaborative Research Support for AID's Sustainable Agriculture and Natural Resource Management Program, 1991-02-01 Toward Sustainability recommends a design for a new Collaborative Research Support Program CRSP for the U S Agency for International Development AID Currently eight CRSPs operate under legislation that supports long term agricultural research of benefit to developing countries and the United States This book defines a process by which knowledge from all relevant AID supported programs could be integrated and applied to advance profitable farming systems that improve local conditions and contribute to environmental goals It makes recommendations on the types of competitive grants that should be made available under a new program institutional participation content of research proposals and administrative procedures      **Opportunities, use, and transfer of systems research methods in agriculture to developing countries** Goldsworthy, 2013-03-09 In December 1993 ISNAR in collaboration with International Consortium for Application

of Systems Approaches organized a three day workshop on systems approaches and modelling for agricultural development Sponsored by the Dutch Ministry for Development Cooperation the workshop was attended by participants from 12 national agricultural research systems NARS nine international agricultural research centers IARCs and five advanced research organizations AROs Although application of systems approaches in agricultural research and resource management is a rather new field there is already increasing demand for implementation of these approaches This will require a critical mass of specialists in the NARS and IARCs Before this critical mass can be obtained however the experience that has been gained in this area needs to be evaluated further possibilities need to be explored and new objectives and targets need to be set This book which contains the papers presented at the workshop assesses the state of the art of systems approaches in agricultural research resource management and rural planning It also gives an impression of the evolution of this interdisciplinary field and its use in national and international research centers Another less tangible outcome of the workshop was its contribution toward strengthening the network of NARS IARCs and AROs It gave participants and organizers a chance to develop contacts and provided an opportunity to make the first proposals for collaborative programs Special thanks are due to Peter Goldsworthy and Luc Boerboom for their crucial role in making the workshop a success in this regard
