Sutton in Old Photographs Pat Berry,1994 **Whitaker's Books in Print** ,1998 **Twentieth Century Industrial Archaeology** Michael Stratton,Barrie Trinder,2014-04-04 This book examines the industrial monuments of twentieth century Britain Each chapter takes a specific theme and examines it in the context of the buildings and structure of the twentieth century The authors are both leading experts in the field having written widely on various aspects of the subject In this new and comprehensive survey they respond to the growing interest in twentieth century architecture and industrial archaeology The book is well illustrated with superb and unique illustrations drawn from the archives of the Royal Commission on the Historical Monuments of England It will mark and celebrate the end of the century with a tribute to its remarkable built industrial heritage The Seaside, Health and the Environment in England and Wales since 1800 John Hassan,2016-12-05 The seaside has always held a special position in British history as a place of rest relaxation and recuperation Over the last 200 years many have made their way to the coast attracted by the long sunshine hours the clean ozone charged air and the opportunities for bathing in and even drinking sea water Although the early health resort ideal began to give way to more pleasure orientated themes in the nineteenth century the seaside holiday was still regarded by many as a wholesome and invigorating break from inland urban life well into the twentieth century Yet with ever increasing numbers of visitors and rising levels of coastal pollution this was by no means a forgone conclusion The Seaside Health and the Environment in England and Wales since 1800 explores the ways in which English seaside resorts continually reinvented themselves to take account of contemporary trends in popular leisure and maintain their hold on the public s imagination Particular account is paid to the interwar years when new obsessions with outdoor activities such as sunbathing and tanning were purposefully adopted by the industry to define the modern image of the resort holiday For these and other reasons the seaside holiday reached new peaks of popularity in the 1930s and 1950s yet this very success placed enormous pressures on the environmental amenities that people came to enjoy As this work shows environmental stresses were manifold particularly pollution of the resorts prime assets their beaches As such serious questions are raised concerning why it took such a long time for a determined effort to be made to reverse beach pollution and the lessons to be learned regarding the impact of negative images of the coast as a zone of danger and infection Philanthropy and Light Oriol Prizeman,2016-04-22 Walter Gropius associated standardisation with promoting civilisation in 1935 yet Andrew Carnegie s influence on the proliferation of pattern book public library plans internationally predated these observations by 50 years Through the first twenty years of his programme he supported the erection of almost three thousand public buildings across Britain and America Though better acknowledged in the US than the UK this philanthropic contribution radically extended the scope of public provision and remains incomparable in its scale and scope in both nations Frequently engraved with the self deifying slogan Let there be Light open access to navigate these new interior public spaces after work coincided with the first provision of electric

light Towards the end of the nineteenth century professional groups had sought to specify minimum standards of natural light and air for schools and hospitals However the commercial quantification of electricity accelerated the development of a readily comparable vocabulary to prescribe adequate quantities of light for all tasks regardless of their location or orientation Seeking to gauge the extent of universal values this book concentrates on the design and performance of a handful of early Carnegie library buildings in Britain and America identifying their response to contemporary design theory but also by contrast to their respective local environmental contexts It examines whether their standards of provision were equitable and if these privately financed public buildings were the first roots of generically standardised public environments to be shared transatlantically The book also argues that the public library building type can provide a datum for acknowledging the twentieth century legacy of shared international environmental standards for public spaces more broadly [Environment, Space, Place: Volume 4, Issue 1 \(Spring 2012\)](#) Gary Backhaus,2012-01-01 Nu s au introdus date **Nottingham in 50 Buildings** Ian D. Rotherham,2025-08-15 Explores the rich and fascinating history of Nottingham through an examination of some of its greatest architectural treasures *The Secret Cemetery* Doris Francis,Leonie Kellaher,Georgina Neophytou,2020-07-12 Burial sites have long been recognized as a way to understand past civilizations Yet the meanings of our present day cemeteries have been virtually ignored even though they reveal much about our cultures Exploring an extraordinarily diverse range of memorial practice Greek Orthodox Muslim Jewish Roman Catholic and Anglican as well as the unchurched *The Secret Cemetery* is an intriguing study of what these places of death mean to the living Most of us experience cemeteries at a ritualized moment of loss What we forget is that these are often places to which we return either as a general space in which to contemplate or as a specific site to be tended These are also places where different communities can reinforce boundaries and even recreate a sense of homeland Over time ritual artefact and place shape an intensely personal landscape of memory and mourning a landscape more alive more actively engaged with than many of the other places we inhabit **Transactions of the Historic Society of Lancashire and Cheshire** Historic Society of Lancashire and Cheshire,1996 List of members in each volume **Research for Writers** R. Michael Stewart,2001 [The Historian](#) ,2002 **A Social History of Milton Keynes** Mark Clapson,2004 This book discusses the prejudices that have distorted understandings of the city of Milton Keynes and focuses upon the original thinking that went into the planning of Milton Keynes *Carmarthenshire and Ceredigion* Thomas Lloyd,Julian Orbach,Robert Scourfield,2006-01-01 This sixth volume of the Buildings of Wales series covers two counties Carmarthenshire and Ceredigion formerly Cardiganshire in the south west of Wales Like the same authors Pembrokeshire the volume covers an architecture still little known hut encompassing a sweep from prehistoric chambered tombs to the high technology of the world s largest single span glasshouse The Buildings of Wales founded by Sir Nikolaus Pevsner 1902 83 will when complete document and describe the architecture of the Principality in seven regional volumes complementing the sister series on England Ireland and Scotland

The Littlehampton Libels Christopher Hilliard, 2017 *The Littlehampton Libels* tells the story of a poison pen mystery that led to a miscarriage of justice in the years following the First World War There would be four criminal trials before the real culprit was finally punished with the case challenging the police and the prosecuting lawyers as much any capital crime When a leading Metropolitan Police detective was tasked with solving the case he questioned the residents of the seaside town of Littlehampton about their neighbours vocabularies how often they wrote letters what their handwriting was like whether they swore and how they swore for the letters at the heart of the case were often bizarre in their abuse The archive that the investigation produced shows in extraordinary detail how ordinary people could use the English language in inventive and surprising ways at a time when universal literacy was still a novelty Their personal lives too had surprises The detective's inquiries and the courtroom dramas laid bare their secrets and the intimate details of neighbourhood and family life Drawing on these records *The Littlehampton Libels* traces the tangles of devotion and resentment desire and manipulation in a working class community We are used to emotional complexity in books about the privileged but history is seldom able to recover the inner lives of ordinary people in this way
