Svec 2000 10 A Political Academy In Paris 1724 1731:

A Political Academy in Paris, 1724-1731 Nick Childs, 2000 The Entresol has been described as the most significant intellectual organisation in France in the first half of the eighteenth century Its meetings in the 1720s were attended by some of the most important political thinkers in the country among them Montesquieu the marquis d Argenson the abb de Saint Pierre and the exiled lord Bolingbroke The Entresol was a meeting of minds between older men who wished to keep in touch with current events and younger men on their way up who were eager to prove their suitability for high office in the French governing elite Members came to meetings because they enjoyed talking about politics especially foreign affairs and while the Entresol remained in favour to be a member was a recommendation to those in government In this book the first to be published on the Entresol Nick Childs examines the political thought and social background of the academy's members and the reason why their meetings were eventually banned *Models of Collaboration in Nineteenth-Century French Literature* Seth Whidden, 2016-04-15 Contributing to the current lively discussion of collaboration in French letters this collection raises fundamental questions about the limits and definition of authorship in the context of the nineteenth century's explosion of collaborative ventures While the model of the stable single author that prevailed during the Romantic period dominates the beginning of the century the authority of the speaking subject is increasingly in crisis through the century's political and social upheavals Chapters consider the breakdown of authorial presence across different constructions of authorship including the numerous cénacles of the Romantic period collaborative ventures in poetry through the practice of the *Tombeaux* and as seen in the *Album zutique* the interplay of text and image through illustrations for literary works the collective ventures of literary journals and multi author prose works by authors such as the Goncourt brothers and Erckmann Chatrian Interdisciplinary in scope these essays form a cohesive investigation of collaboration that extends beyond literature to include journalism and the relationships and tensions between literature and the arts The volume will interest scholars of nineteenth century French literature and more generally any scholar interested in what's at stake in redefining the role of the French author *Compass of Society* Henry C. Clark, 2007-01-01 *Compass of Society* rethinks the French route to a conception of commercial society in the seventeenth and eighteenth centuries Henry C Clark finds that the development of market liberalism far from being a narrow and abstract ideological episode was part of a broad gauged attempt to address a number of perceived problems generic to Europe and particular to France during this period In the end he offers a neo Tocquevillian account of a topic which Tocqueville himself notoriously underemphasized namely the emergence of elements of a modern economy in eighteenth century France and the place this development had in explaining the failure of the Old Regime and the onset of the Revolution *Compass of Society* will aid in understanding the conflicted French engagement with liberalism even up to the twenty first century **A Companion to the Catholic Enlightenment in Europe**, 2010-05-17 This book offers the first comprehensive overview of the Catholic Enlightenment in Europe It surveys the diversity of views

about the structure and nature of the movement pointing toward the possibilities for further research The volume presents a series of comprehensive treatments on the process and interpretation of Catholic Enlightenment in France Spain Portugal Poland the Holy Roman Empire Malta Italy and the Habsburg territories An introductory overview explores the varied meanings of Catholic Enlightenment and situates them in a series of intellectual and social contexts The topics covered in this book are crucial for a proper understanding of the role and place not only of Catholicism in the eighteenth century but also for the social and religious history of modern Europe Contributors include Jeffrey D Burson Richard Butterwick Frans Ciappara Harm Klueting Ulrich L Lehner Michael Printy Mario Rosa Evergton Sales Souza and Andrea J Smidt

Aristocracy and its Enemies in the Age of Revolution William Doyle, 2009-04-09 Since time immemorial Europe had been dominated by nobles and nobilities In the eighteenth century their power seemed better entrenched than ever But in 1790 the French revolutionaries made a determined attempt to abolish nobility entirely Aristocracy became the term for everything they were against and the nobility of France so recently the most dazzling and sophisticated elite in the European world found itself persecuted in ways that horrified counterparts in other countries Aristocracy and its Enemies traces the roots of the attack on nobility at this time looking at intellectual developments over the preceding centuries in particular the impact of the American Revolution It traces the steps by which French nobles were disempowered and persecuted a period during which large numbers fled the country and many perished or were imprisoned In the end abolition of the aristocracy proved impossible and nobles recovered much of their property Napoleon set out to reconcile the remnants of the old nobility to the consequences of revolution and created a titled elite of his own After his fall the restored Bourbons offered renewed recognition to all forms of nobility But nineteenth century French nobles were a group transformed and traumatized by the revolutionary experience and they never recovered their old hegemony and privileges As William Doyle shows if the revolutionaries failed in their attempt to abolish nobility they nevertheless began the longer term process of aristocratic decline that has marked the last two centuries
