Circle with No Centre Deepak khurana,2025-05-06 Is life a circle with no single center It was a restless spin for him from brief romances to a safe but hollow job to a quiet longing for genuine purpose For her it meant heartbreak then fierce independence and finally a passion that lit her every step Each believed they would keep circling alone But when their paths unexpectedly overlap they discover a new space an unplanned center neither saw coming Within that gentle overlap old fears soften and dormant dreams spark to life Yet real closeness challenges everything they thought they knew how to protect themselves how to trust Can two people each rotating in a personal orbit of past mistakes and new ambitions learn to revolve together without losing who they are

Extraordinary Animals Ross Piper,2007-08-30 Animals have existed on Earth for many hundreds of millions of years In that time they have evolved into a great variety of forms exploiting nearly every habitat the planet has to offer In the dark depths of the oceans in the seemingly inhospitable Polar Regions in the driest deserts even within the bodies of other animals there are animal species that have developed unique and extraordinary means of surviving and thriving Extraordinary Animals An Encyclopedia of Curious and Unusual Animals is an exploration of those members of the animal kingdom who possess strange and bizarre adaptations that allow them to survive in the most extreme environments or whose complex lives can only be said to be bewildering From the tar baby termite to the blue whale from the harpy eagle to the naked mole rat these species reflect the exceptionally broad spectrum of life showing just how diverse the animal kingdom is Extraordinary Animals has been thoroughly researched for scientific accuracy but is accessibly written in everyday language Each entry includes a description of the animal an explanation of its odd behavior other interesting scientific and trivial facts and black and white illustrations In addition a fun and interactive Go Look section encourages readers to go look for the animals in the outside world
