The West Will Swallow You Leath Tonino,2019-10-24 At eighteen Vermont native Leath Tonino ventured west to attend college in Colorado Upon hearing his destination many of Tonino s friends and family predicted that he d never come back he d make the land of endless space and sky its ranges and their storms his home The West will swallow you one said in a tone that felt like part warning and part prophecy More than a decade later Tonino continues to call Vermont his home But despite his love of New England and his admiration for writers who sing the praises of their native ground he concedes that he is as Gary Snyder once phrased it promiscuous with landscapes Tonino has spent the intervening years since college traversing the alphabet of the American West from AZ to CA to UT to WY and writing about its mysterious and powerful beauty The resulting musings are collected in *The West Will Swallow You* the title of which is a nod to the words that stayed with him and that in many ways turned out to be true Although the adventures gathered here range widely in terrain and tone the western landscape is always front and center focusing on Arizona s remote Kaibab Plateau where Tonino worked as a biologist studying raptor communities in San Francisco s overgrown nooks and crannies and pigeon flocked park benches on ranches in Wyoming at campsites in Nevada in the mountains of Colorado and in libraries and national monuments in people in a midnight fox s eyes in the rushing wind Swallow This Mark Phillips,2016 *The American Whig Review* ,1847 *Swallow* Angela Turner,2015-11-15 Known as heralds of spring and beautiful elegant flyers swallows are among

the most beloved of familiar birds Because they return with the spring swallows as Angela Turner explains have long been associated with the renewal of life love fidelity and fertility while their ability to travel incredible distances has given them associations with freedom and speed That freedom however hasn't kept them from becoming familiar figures in towns and cities They often seem to even seek out human company for example barn swallows are known for nesting in our buildings and purple martins in our back yards Destruction of their natural habitat however has proved dangerous to some species of swallow and recent years have seen some populations dwindling to the point of near extinction Turner outlines the reasons for these declines as part of her engaging account of the natural and cultural history of this beloved bird *The Christian Century*, 1922
