Sweated Industries And Sweated Labor The London Clothing Trades 1860 1914:

Sweated Industries and Sweated Labor James A. Schmiechen, 1984 **The Labouring Classes in Early Industrial England, 1750-1850** John Rule, 2014-01-21 This is the most comprehensive and up to date synthesis of current research on the social conditions experiences and reactions of working people during the period 1750 1850 **The Clothing Trade in Provincial England, 1800-1850** Alison Toplis, 2015-10-06 This detailed study is the first exploration of rural consumption of clothing in early nineteenth century Britain Drawing on evidence from a range of sources including newspapers trade directories court records visual sources and surviving garments Toplis investigates how the apparel of the mass of the British population was acquired **Socialism and the Diasporic 'Other'** Daniel Renshaw, 2018-03-13 Socialism and the Diasporic Other examines the relationship between the London based Left and Irish and Jewish communities in the East End between 1889 and 1912 Using a comparative framework it examines the varied interactions between working class diasporic groups conservative communal hierarchies and revolutionary and trade union organisations *Capitalism Contested* Romain Huret, Nelson Lichtenstein, Jean-Christian Vinel, 2020-12-11 In the historical narrative that prevails today the New Deal years are positioned between two equally despised Gilded Ages the first in the late nineteenth century and the second characterized by the world of Walmart globalization and right wing populism in which we currently live What defines these two ages is an increasing level of inequality legitimized by powerful ideologies namely Social Darwinism at the end of the nineteenth century and neoliberalism today In stark contrast the era of the New Deal was first and foremost an attempt to put an end to inequality in American society In the historical longue dur e it appears today as a kind of golden age when policymakers and citizens sought to devise solutions to the two major questions labor on one side social on the other that were at the heart of the American political economy during the twentieth century Capitalism Contested argues that the New Deal order remains an effective framework to make sense of the transformation of American political economy over the last hundred years Contributors offer an historicized analysis of the degree to which that political economic and ideological order persists and the ways in which it has been transcended or even overthrown The essays pay attention not only to those ideas and social forces hostile to the New Deal but to the contradictions and debilities that were present at the inauguration or became inherent within this liberal impulse during the last half of the twentieth century The unifying thematic among the essays consists not in their subject matter politics political economy social thought and legal scholarship are represented but in a historical quest to assess the transformation and fate of an economic and policy order nearly a century after its creation Contributors Kate Andrias Romain Huret William P Jones Nelson Lichtenstein Nancy MacLean Isaac William Martin Margaret O Mara K Sabeel Rahman Timothy Shenk Elizabeth Tandy Shermer Jason Scott Smith Samir Sonti Karen M Tani Jean Christian Vinel **Etta Lemon** Tessa Boase, 2021-07-06 Etta Lemon The Woman Who Saved the Birds is the story of a pioneering conservationist who led the campaign against the slaughter of wild birds for extravagantly feathered hats and

coaxed the world to care for birds **The Lost Prime Minister** David Nicholls,1995-01-01 Sir Charles Dilke's claim to a leading place in the pantheon of Victorian radicalism with Cobden, Bright and Chamberlain has been overshadowed by the sensational divorce case in 1886 that ruined his career. Yet his political abilities were great and his career a most remarkable one. He was regarded by many of his contemporaries as a likely successor to Gladstone and a probable future Prime Minister. It can be argued that his political eclipse was a crucial contributing factor to the Liberal Party's failure to provide a viable alternative to the rise of the Labour Party. This is the first new biography of Dilke since Roy Jenkins' *Sir Charles Dilke: A Victorian Tragedy* published in 1958. David Nicholls has used substantial new material to provide what is likely to be the definitive work on Dilke, shedding new light on his character, personal life and political career as well as on the famous divorce scandal. This highly readable book is both an account of a remarkable man and an important contribution to the understanding of Victorian politics.

Men and Menswear Laura Ugolini,2017-03-02 Despite increasing academic interest in both the study of masculinity and the history of consumption, there are still few published studies that bring together both concerns. By investigating the changing nature of the retailing of menswear, this book illuminates wider aspects of masculine identity as well as patterns of male consumption between the years 1880 and 1939. While previous historical studies of masculinity have focused overwhelmingly on the moral, spiritual and physical characteristics associated with notions of manliness, this book considers the relationship between men and activities which were widely considered to be at least potentially unmanly: selling as well as buying clothes, thus shedding new light on men's lives and identities in this period.

Dress, Culture and Commerce B. Lemire,1997-01-15 This work examines a trade that covered the backs of sailors and soldiers, that shirted labouring men and skirted working women, that employed legions of needlewomen and supplied retailers with new consumer wares. Garments once bought returned again to the marketplace circulating like a currency and bolstering demand. The agents in this trade included military contractors for clothing female outworkers and dealers in used clothes. Each was affected by a changing demand for new styled luxuries and necessities in apparel.

The Politics of Women's Work Judith G. Coffin,2014-07-14 Few issues attracted more attention in the nineteenth century than the problem of women's work, and few industries posed that problem more urgently than the booming garment industry in Paris. The seamstress represented the quintessential working girl, and the sewing machine the icon of modern femininity. The intense speculation and worry that swirled around both helped define many issues of gender and labor that concern us today. Here Judith Coffin presents a fascinating history of the Parisian garment industry from the unraveling of the guilds in the late 1700s to the first minimum wage bill in 1915. She explores how issues related to working women took shape and how gender became fundamental to the modern social division of labor and our understanding of it. Combining the social history of women's labor and the intellectual history of nineteenth century social science and political economy, Coffin sets many questions in their fullest cultural context. What constituted women's work? Did women belong in the industrial labor force? Why

was women's work equated with low pay Should not a woman enjoy status as an enlightened homemaker consumer The author examines patterns of consumption as well as production setting out for example the links among the newly invented sewing machine changes in the labor force and the development of advertising with its shifting and often unsettling visual representations of women labor and machinery Throughout Coffin challenges the conventional categories of work home and women's identity Originally published in 1996 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
