

Sophia de Morgan

- Prominent in what Addison calls the "Swedenborgian-Spiritualist" milieu of London was Sophia de Morgan (1809-1892), mother of potter William de Morgan (1839-1917), whose wife Evelyn (1855-1919), a Spiritualist, is something referred to as the last Pre-Raphaelite painter. Sophia had a lifelong interest in Swedenborg and proposed her own Swedenborgian interpretation of Spiritualist phenomena (see one of her sketches, left)

Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving and promoting the world's literature in affordable, high-quality modern editions that are true to the original work. *Emanuel Swedenborg's Investigations in Natural Science and the Basis for His Statements Concerning the Functions of the Brain* Martin Ramström, 1910 **Emanuel Swedenborg's Investigations in Natural Science** Martin Ramström, 2022-07-21

An Epitome of Swedenborg's Science Frank Washington Very, 1927 *Cosmic Consciousness and Human Excellence* Mahmoud Masa'eli, Rico Sneller, 2019-01-29 Cosmic consciousness or cosmic consciousness is a term used to characterize a transcendence of the limits of self-consciousness. As an ultra state of illumination of the mind, the roots of the conception are embodied in the quest for a spiritual connection with multi-dimensional cosmos. This quest searches for spiritual development as a pathway to human excellence and can be associated with the mystics of ancient wisdom as well as contemporary psycho-spiritual analysts. After its emergence in the late 19th century, cosmic consciousness rapidly became a source of inspiration for transpersonal psychology, moral therapy, and a thoughtful link to mystical quantum physics. By encouraging a spiritual way of perceiving the real world, cosmic consciousness also provides a source of inspiration for human excellence as the central idea of global ethics. In this perspective, the world cannot be changed for the better without changing individual consciousness. Global concerns including ecological issues, violence, and acts of terrorism, materialistic gratification, and hedonism could not be addressed effectively unless people's consciousness is changed. Cosmic consciousness, by the very perception of the inner life, has the potential to struggle with global concerns and hence it holds a promise of human excellence. This book discusses cosmic consciousness against the backdrop of the emergence of the rational and autonomous conception of the self and the modern psychological depiction of selfhood. It places the idea of cosmic consciousness at the centre of contemporary arguments on the nature of consciousness. *Swedenborg's Secret* Lars Bergquist, 2005 *Swedenborg's Secret* is the first major study of the eighteenth-century Swedish philosopher and mystic Emanuel Swedenborg (1688-1772) to be published in English for over fifty years. Using a wealth of historical material, Lars Bergquist paints a vivid portrait of an ambitious and practical man who was one of the greatest figures of the Enlightenment and who captivated generations of thinkers with his stunning vision of human destiny. *Has Swedenborg's "lost Word" Been Found?* Albert Joseph Edmunds, 1913 *New Philosophy*, 1903 *The Medium and Daybreak*, 1876 *Emanuel Swedenborg as a Man of Science* Woodbury Melcher Fernald, 1860 **Emerson's Philosophical Sources for 'Swedenborg'**.
