the Early Modern Swedish Court** Fabian Persson, 2025-10-01 What was possible for a woman to achieve at an early

society and ultimately the precariousness of power In doing so it provides an institutional context to women's lives at court
charting the full extent of the rewards that they might obtain alongside the social and institutional constrictions that they
faced Its longue dure approach moreover clarifies how certain periods such as that of the queen's regnant brought new
possibilities Based on an extensive array of Swedish and international primary sources including correspondence financial
records and diplomatic reports it also takes into account the materialities used to create hierarchies and ceremonies such as
physical structures and spaces within the court Comprehensive in its scope the book is divided into three parts which focus

research project that studied the development of linguistic form function relations in narrative discourse It is unique in the
extent of data which it analyzes more than 250 texts from children and adults speaking five different languages and in its

preferences of different native languages English German Spanish Hebrew and Turkish impinge on narrative abilities across
different phases of development The work of Berman and Slobin and their colleagues provides insight into the interplay
between shared possibly universal patterns in the developing ability to create well constructed globally organized narratives
among preschoolers from three years of age compared with school children and adults contrasted against the impact of

typological and rhetorical features of particular native languages on how speakers express these abilities in the process of relating events in narrative This volume also makes a special contribution to the field of language acquisition and development by providing detailed analyses of how linguistic forms come to be used in the service of narrative functions such as the expression of temporal relations of simultaneity and retrospection perspective taking on events and textual connectivity To present this information the authors prepared in depth analyses of a wide range of linguistic systems including tense aspect marking passive and middle voice locative and directional predications connectivity markers null subjects and relative clause constructions In contrast to most work in the field of language acquisition this book focuses on developments in the use of these early forms in extended discourse beyond the initial phase of early language development
