FAA Intercom United States. Federal Aviation Administration, 2000 Billy Mitchell's War with the Navy Thomas Wildenberg, 2014-02-15 In the years following WWI the U S Congress was more interested in disarmament than in funding national defense For the military services this meant lean budgets and skeleton operating forces Billy Mitchell s *War* recounts the struggle between the Army and Navy air arms for the resources needed to define and establish the role of aviation within their respective services in the period between the two world wars When Billy Mitchell returned from WW I he brought with him the deep seated belief that air power had made armies and navies obsolete When Congress rejected the concept of a unified air service in 1920 Mitchell and his supporters turned on the Navy seeking to substitute the Air Service

as the nation's first line of defense While Mitchell proved that aircraft could sink a battleship with the bombing of the Ostfriesland in 1921 he was unable to convince the General Staff of the Army the General Board of the Navy the Secretary of War the Secretary of the Navy or Congress of the need for an independent air force When Mitchell turned to the pen to discredit the Navy he was convicted by his own words and actions in a court martial that captivated the nation and was forced to resign in 1925 Rather than ending the rivalry for air power Mitchell's resignation set the stage for the ongoing dispute between the two services in the years immediately before WWII

Contemporary Irish Poetry and the Pastoral Tradition Donna L. Potts, 2012-01-01 In Contemporary Irish Poetry and the Pastoral Tradition Donna L Potts closely examines the pastoral genre in the work of six Irish poets writing today Through the exploration of the poets and their works she reveals the wide range of purposes that pastoral has served in both Northern Ireland and the Republic a postcolonial critique of British imperialism a response to modernity industrialization and globalization a way of uncovering political and social repercussions of gendered representations of Ireland and more recently a means for conveying environmentalism s more complex understanding of the value of nature Potts traces the pastoral back to its origins in the work of Theocritus of Syracuse in the third century and plots its evolution due to cultural changes While all pastoral poems share certain generic traits Potts makes clear that pastorals are shaped by social and historical contexts and Irish pastorals in particular were influenced by Ireland s unique relationship with the land language and industrialization due to England s colonization For her discussion Potts has chosen six poets who have written significant collections of pastoral poetry and whose work is in dialogue with both the pastoral tradition and other contemporary pastoral poets Three poets are men John Montague Seamus Heaney Michael Longley while three are women Eavan Boland Medbh McGuckian Nuala N Dhomhnaill Five are English language authors while the sixth N Dhomhnaill writes in Irish Additionally some of the poets hail from the Republic while others originate from Northern Ireland Potts contends that while both Irish Republic and Northern Irish poets respond to a shared history of British colonization in their pastorals the 1921 partition of the country caused the pastoral tradition to evolve differently on either side of the border primarily because of the North s more rapid industrialization its more heavily Protestant population whose response to environmentalism was somewhat different than that of the Republic s predominantly Catholic population as well the greater impact of the world wars and the Irish Troubles In an important

distinction from other studies of Irish poetry Potts moves beyond the influence of history and politics on contemporary Irish pastoral poetry to consider the relatively recent influence of ecology Contemporary Irish poets often rely on the motif of the pastoral retreat to highlight various environmental threats to those retreats whether they be high rises motorways global warming or acid rain Potts concludes by speculating on the future of pastoral in contemporary Irish poetry through her examination of more recent poets including Moya Cannon and Paula Meehan as well as other genres such as film drama and fiction
